Sustainable Development and the Belt and Road Initiative Fanny M. Cheung,Ying-yi Hong,2020-12-21 Can China s Belt and Road Initiative BRI promote sustainable development alongside its primary aims of increasing commercial connectivity with China s partners In discussions of the BRI the focus has tended to be on the implications for infrastructure construction connectivity and economic diplomacy Rather less attention has been paid to its potential impact on sustainability The initiative has not only set principles to prevent climate change and promote sustainable development but also pledged to

align with the UN's environmental objectives. The contributors to this volume describe and evaluate the consequent policy coordination in the areas of green finance, green energy and sustainable development in the Belt and Road regions. They examine both the challenges and opportunities of these projects and the role that Hong Kong can play in supporting their assessment, finance and implementation. With contributions from authors based in mainland China, Hong Kong, Australia, Qatar, the UK and the US with experience in corporate social responsibility, international finance, environmental policy and international relations, this book presents a thorough and rigorous analysis of the green side of the BRI. A valuable resource for scholars of the BRI and its many implications for China, its partners and the development of sustainable infrastructure.

Handbook of Research on Entrepreneurial Ecosystems and Social Dynamics in a Globalized World Carvalho, Luísa Cagica, 2017-11-30 Globalization demands the construction of new business methods to enable companies to remain highly competitive. Due to this demand, cultural differences are now being implemented into policies and procedures as companies expand and seek to collaborate with international entrepreneurs. The Handbook of Research on Entrepreneurial Ecosystems and Social Dynamics in a Globalized World is a pivotal reference source for emergent aspects of internationalization and regional development in an entrepreneurial context. Featuring extensive coverage on relevant areas such as digital entrepreneurship, sustainability and financial performance, this publication is an ideal resource for academics, public and private institutions, developers, professors, researchers and post graduate students seeking current research on globalized entrepreneurship.
