Robert Hunter, 1666-1734, New York's Augustan Statesman Mary Lou Lustig, 1983 Before the Melting Pot Joyce D. Goodfriend, 2021-01-12 From its earliest days under English rule New York City had an unusually diverse ethnic makeup with substantial numbers of Dutch English Scottish Irish French German and Jewish immigrants as well as a large African American population Joyce Goodfriend paints a vivid portrait of this society exploring the meaning of ethnicity in early America and showing how colonial settlers of varying backgrounds worked out a basis for coexistence She argues that contrary to the prevalent notion of rapid Anglicization ethnicity proved an enduring force in this small urban society well into the eighteenth century Absentee Landowning and Exploitation in West Virginia, 1760-1920 Barbara Rasmussen, 2021-10-21 Absentee landowning has long been tied to economic distress in Appalachia In this important revisionist study Barbara Rasmussen examines the nature of landownership in five counties of West Virginia and its effects upon the counties economic and social development Rasmussen untangles a web of outside domination of the region that commenced before the American Revolution creating a legacy of hardship that continues to plague Appalachia today The owners and exploiters of the region have included Lord Fairfax George Washington and most recently the U S Forest Service The overarching concern of these absentee landowners has been to control the land the politics the government and the resources of the fabulously rich Appalachian Mountains Their early and relentless domination of politics assured a land tax system that still favors absentee landholders and simultaneously impoverishes the state Class differences a capitalistic outlook and an ethic of growth and development pervaded western Virginia from earliest settlement Residents however were quickly outspent by wealthier more powerful outsiders Insecurity in landownership Rasmussen demonstrates is the most significant difference between early mountain farmers and early American farmers everywhere *The Lord Cornbury Scandal* Patricia U. Marlborough's America Stephen Saunders Webb,2012-01-08 Scholars of British America generally conclude that the
early eighteenth century Anglo American empire was commercial in economics liberal in politics and parochial in policy
somnambulant in an era of salutary neglect but Stephen Saunders Webb here demonstrates that the American provinces
under the spur of war became capitalist coercive and aggressive owing to the vigorous leadership of career army officers
trained and nominated to American government by the captain general of the allied armies the first duke of Marlborough and
that his influence and that of his legates prevailed through the entire century in America Webb s work follows the duke whom
an eloquent enemy described as the greatest statesman and the greatest general that this country or any other country has
produced his staff and soldiers through the ten campaigns which by defanging France made the union with Scotland possible
and made Great Britain preeminent in the Atlantic world Then Webb demonstrates that the duke s legates transformed
