**Hollywood's Melodramatic Imagination** Geoff Mayer, 2021-12-22 Melodrama is the foundation of American cinema. It is, however, a poorly understood term. While it is a pervasive and persuasive dramatic mode, it is not tied to any specific moral or ideological system. It is not a singular genre; rather, it operates as a genre-generating machine capable of determining the aesthetics and structure of the drama within many genres. Melodrama centers the conflict around the clash between good and evil and provides a sense of poetic justice, but the specific values embedded in notions of good and evil are determined by the culture and they shift from nation to nation, region to region, and period to period. This book explores the populist westerns of the 1930s, the propaganda films that followed the Japanese attack on Pearl Harbor, and the popularity of Sax Rohmer's master villain Fu Manchu. Melodramas of passion and film noir also offer a challenge to melodrama with its seemingly alienated protagonists and downbeat endings. Yet, with few exceptions, Hollywood was able to assimilate these genres within its melodramatic imagination.

In Lonely Places Imogen Sara Smith, 2014-01-10 Although film noir is traditionally associated with the mean streets of the Dark City, this volume explores the genre from a new angle, focusing on non-urban settings. Through detailed readings of more than 100 films set in suburbs, small towns, on the road, in the desert borderlands, and the vast empty West, the author investigates the alienation expressed by film noir, pinpointing its motivation in the conflict between desires for escape, autonomy, and freedom and fears of loneliness, exile, and dissolution. Through such films as *Out of the Past*, *They Live by Night*, and *A Touch of Evil*, this critical study examines how film noir reflected radical changes in the physical and social landscapes of postwar America, defining the genre's contribution to the eternal debate between the values of individualism and community.

*Encyclopedia of Film Noir* Geoff Mayer, Brian McDonnell, 2007-06-30 When viewers think of film noir, they often picture actors like Humphrey Bogart playing characters like Sam Spade in *The Maltese Falcon*, the film based on the book by Dashiell Hammett. Yet film noir is a genre much richer. The authors first examine the debate surrounding the parameters of the genre and the many different ways it is defined. They discuss the Noir City, its setting and backdrop, and also the cultural, WWII, and institutional influences: the House Un-American Activities Committee and the Production Code Administration. An analysis of the low-budget and series film noirs provides information on those cult classics. With over 200 entries on films, directors, and actors, the *Encyclopedia of Film Noir* is the most complete resource for film fans, students, and scholars.

Hollywood's West Peter C. Rollins, John E. O'Connor, 2005-11-11 An excellent study that should interest film buffs, academics, and non-academics alike. *Journal of the West*. Hollywood's West examines popular perceptions of the frontier as a defining feature of American identity and history. Seventeen essays by prominent film scholars illuminate the

allure of life on the edge of civilization and analyze how this region has been represented on big and small screens Differing characterizations of the frontier in modern popular culture reveal numerous truths about American consciousness and provide insights into many classic Western films and television programs from RKO's 1931 classic *Cimarron* to Turner Network Television's recent made for TV movies Covering topics such as the portrayal of race women myth and nostalgia Hollywood's West makes a significant contribution to the understanding of how Westerns have shaped our nation's opinions and beliefs often using the frontier as metaphor for contemporary issues [The Book Review Digest](#), 2003 **Film**, 2001
