Who Writes Arab History? Joseph A. Kéchichian, 2016-09-01 At a time of profound regional and international transformations that extend beyond the political Middle Easterners in general and Arabs in particular ponder their future as well as how to best preserve and protect their interests and equally important their cultures As non Arabs interpret and opine about Arab civilization far more than indigenous thinkers how can we understand what motivates scholars and opinion makers and how can Arab analysts highlight indigenous perspectives What are the core factors that separate non Arab scholars from their Arab counterparts Can the perceptions of nearly 500 million individuals be mislabeled so frequently and so easily and what ought to be done to repair the damage already done Do Arab thinkers bear any responsibility for what may appear to be little more than a campaign to denigrate To answer these questions this paper first offers an overview of the dilemmas involved then identifies and analyses two major concerns censorship and translation matters and finally focuses on the case of the Kingdom of Saudi Arabia to test the assertion that books authored by non Arabs many of whom shroud themselves in the cloak of authority but in reality harbor a sharp dislike if not outright hatred of Arabs dominate over works written by Arabs The paper closes with a few recommendations that call on Arab thinkers to overcome existing academic as well as journalistic prejudices

Regime Stability in Saudi Arabia Stig Stenslie, 2012-08-21 This book examines the structure of political power amongst elites inside Saudi Arabia and how they might cope with the very serious challenge posed by succession Presenting a new and refreshing theoretical approach that links elite integration with regime stability the author shows that the kingdom's royal elite is far more integrated than it has generally been given credit for Based on extensive field work inside Saudi Arabia the book offers a detailed up to date survey and assessment of all the key sectors of the elites in the country The author examines how the succession process has been used in highly different circumstances including deposition assassination and death by old age and demonstrates how regime stability in Saudi Arabia rests on the royal family's ability to unite and to solve the challenge of succession He offers a strong analysis of intra ruling family mechanisms and dynamics in this notoriously private royal family and addresses the question of whether as the number of royals rapidly grows the elite is able to remain integrated Providing a rare insight into the issues facing the royal family and ruling elite in Saudi Arabia this book will be of great interest to scholars and students of Middle Eastern politics

Modernity and the Pandemic Sean Creaven, 2023-12-01 Modernity and the Pandemic Decivilization Imperialism and COVID 19 applies the tools of critical social theory to make sense of the COVID 19 crisis and presents a critical sociological analysis of aspects of the political and community response to the pandemic The book focuses on key themes integral to a sociology of pandemics in the global age Firstly Creaven argues that cultures of individualism and consumerism and of pervasive and deeply entrenched social inequalities that is decivilization significantly weaken the cause of public health by weakening the compliance of people with state mandated non pharmaceutical interventions including and especially physical distancing rules and encouraging vaccine hesitancy Secondly Creaven examines how interstate competition and imperial politics have undermined an effective global policy response to the COVID 19 pandemic Policy failure with regard to the management of the pandemic is interpreted as being rooted in the dominance of neoliberal ideology and governance in the politics of international relations particularly in the politics of the leading state actors by protecting corporate interests at the expense of public health and in the constraints imposed on state actors by the competitive dynamic of multinational capitalism in the global age Modernity and the Pandemic will appeal to scholars in the humanities and social sciences with interests in neoliberalism and its social cultural and epidemiological impacts
