Sectional Biases in Congress on Foreign Policy George Grassmuck,1951 **Congress and Foreign Policy** United States. Congress. House. Committee on International Relations. Special Subcommittee on Investigations,1976 **Sectional Biases in congress on foreign policy** George L. Grassmuck,1949 **Senatorial Politics and Foreign Policy** Malcolm E. Jewell,2021-09-15 Bipartisanship has become so associated with the conduct of foreign policy that partisanship has virtually been forgotten In this persuasive study of senatorial politics Malcolm E Jewell reasserts the importance of partisanship arguing that increased party responsibility is the best guarantee for the establishment of sound policy and for the continued support of policy once established The author bases his conclusions on a study of the Senate during the Truman and Eisenhower administrations **Political Process and Foreign Policy** Bernard Cecil Cohen,2015-12-08 Dr Cohen examines the major elements with foreign policy making roles public opinion interest groups the media of communication the Executive branch and the Congress to determine the nature of their interests in the Japanese peace settlement and their actions respecting it Then he analyzes the interrelationships among these factors and the patterns of influence they revealed Originally published in 1957 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **The Politics of American Foreign Aid** Michael O'Leary,2017-09-29 Every year the Administration and the Congress battle stubbornly and often bitterly over appropriations for foreign aid Clearly much more is at stake than a difference of opinion over a small fraction of the annual budget the tug of war stems from clashes of basic political philosophies divergent approaches to one of the most important elements of our foreign policy and inherent conflicts among various domestic power blocs In his book which adds a much needed dimension to the discussion and analysis of United States foreign policy O Leary reveals the many complex factors that go into the making of American foreign aid policy While placing the emphasis on the political system as a whole its components the relative power of actors in the system and the manner in which they interact to create policy the author presents a detailed and enlightening picture of the attitudes of the general public the political parties the pressure groups and Congress itself to the issue of foreign aid Basing his work on poll data press comment Congressional and Executive documents Congressional roll call votes and interviews with congressmen their assistants foreign aid officials and lobbyists O Leary makes clear how the workings of the American political system affect our foreign aid policy and programs Originally published in 1967 it remains useful for all courses dealing with our foreign relations Congress or the specifics of the operation of our government **American Business and Foreign Policy** Joan Hoff Wilson,2021-10-21 With increasing world economic interdependence

and a new position as a creditor nation the American business community became more actively and vocally concerned with foreign policy after World War I than ever before This book details the response of American businessmen to such foreign policy issues as the tariff disarmament allied debts loans and the Manchurian crisis Far from presenting a monolithic front the business community fragmented into nationalist and internationalist camps according to this study Division over each issue varied with the size type and geographic region of the various business interests and despite their formidable economic power business internationalists are shown to have played a more limited role on certain issues than has been formerly assumed Unfortunately for the future development of United States diplomacy and world stability no institutional means for tempering business influence on the formulation of foreign policy or for coordinating economic and political foreign policies were developed in the twenties
