Earth Democracy Vandana Shiva, 2015-10-27 World renowned environmental activist and physicist Vandana Shiva calls for a radical shift in the values that govern democracies condemning the role that unrestricted capitalism has played in the destruction of environments and livelihoods She explores the issues she helped bring to international attention genetic food engineering culture theft and natural resource privatization uncovering their links to the rising tide of fundamentalism violence against women and planetary death Struggles on the streets of Seattle and Cancun and in homes and farms across the world have yielded a set of principles based on inclusion nonviolence reclaiming the commons and freely sharing the earth's resources These ideals which Dr Shiva calls Earth Democracy serve as an urgent call to peace and as the basis for a just and sustainable future

The Orchard of Forgotten Seeds Melissa Hanson, 2025-01-03 In a world choked by corporate greed where dust devils dance across barren landscapes and water is a luxury controlled by the elite a hidden orchard blossoms with defiance Within a labyrinthine canyon system forgotten seeds heirlooms from a time when humanity lived in harmony with nature hold the key to survival and a quiet revolution Kalya Varma a brilliant agricultural scientist branded a traitor by the monolithic OmniCorp finds refuge in this vibrant sanctuary Haunted by her past she joins a community of rebels fighting for a future grown from the dust Lior Ben Ari a deaf botanist who communicates with the earth through vibrations coaxes life from the forgotten seeds Amira Khan a fiery tech genius tormented by guilt wages her own quiet war hacking into corporate networks and liberating precious seeds And Elara Dubois a grizzled farmer displaced by corporate greed shares her wisdom and the stories of a greener past with her grandson Sami the future they are all fighting for Together they devise a plan to cultivate a sustainable food network for the oppressed challenging the iron grip of OmniCorp But their sanctuary is soon discovered and the orchard becomes a battleground As drones patrol the skies and corporate enforcers close in Kalya's scientific knowledge Lior's connection to nature and Amira's technological prowess become their only weapons But when Amira's past catches up to her a devastating betrayal threatens to destroy everything they've built In a desperate fight for survival they must turn the natural landscape into a weapon harnessing the canyon's acoustics and the orchard's unique ecosystem to defend their sanctuary But even if they survive can they ignite a spark of hope in a world consumed by dust and despair Can the seeds of resistance take root and blossom into a revolution that will reclaim their planet

The Profit of the Earth Courtney Fullilove, 2017-04-18 While there is enormous public interest in biodiversity food sourcing and sustainable agriculture romantic attachments to heirloom seeds and family farms have provoked misleading fantasies of an unrecoverable agrarian past The reality as Courtney Fullilove shows is that seeds are inherently political objects transformed by the ways they are gathered preserved distributed regenerated and improved In *The Profit of the Earth* Fullilove unearths the history of American agricultural development and of seeds as tools and talismans put in its service Organized into three thematic parts *The Profit of the Earth* is a narrative history of the collection

circulation and preservation of seeds Fullilove begins with the political economy of agricultural improvement recovering the efforts of the US Patent Office and the nascent US Department of Agriculture to import seeds and cuttings for free distribution to American farmers She then turns to immigrant agricultural knowledge exploring how public and private institutions attempting to boost midwestern wheat yields drew on the resources of willing and unwilling settlers Last she explores the impact of these cereal monocultures on biocultural diversity chronicling a fin de siècle Ohio pharmacist's attempt to source Purple Coneflower from the diminishing prairie Through these captivating narratives of improvisation appropriation and loss Fullilove explores contradictions between ideologies of property rights and common use that persist in national and international development ultimately challenging readers to rethink fantasies of global agriculture's past and future

Seeds and Sovereignty Jack R. Kloppenburg Jr., 2013-07-21 Seeds for economically important crops are big business indeed As large seed companies continue to improve their product in various ways they make use of the original gene pools of these plants often located in tropical and subtropical areas of the world With increasing recognition that plant germplasm is an important raw material highly charged international disputes have developed over the exchange and use of this material adding another point of contention between poor nations and the manufacturing wealthier ones Twenty experts from several nations representing both the natural and social sciences consider the historical background the issue of patent rights as applied to plant germplasm the nature of global genetic interdependence the internationalization of the seed industry the implications of biotechnology on genetic resources the Third World attitude toward the debate and the viewpoints of the International Agricultural Research Centers

Genesis, Or The First Book of Moses Johann Peter Lange, 1873

The Hermetic Museum (Volumes 1 & 2) Arthur Edward Waite, The Hermetic Museum was published in Latin at Frankfurt in the year 1678 and as its title implies it was an enlarged form of an

anterior work which appearing in 1625 is more scarce but intrinsically of less value Its design was apparently to supply in a compact form a representative collection of the more brief and less ancient alchemical writers in this respect it may be regarded as a supplement to those large storehouses of Hermetic learning such as the *Theatrum Chemicum* and that scarcely less colossal of Mangetus the *Bibliotheca Chemica Curiosa* which are largely concerned with the cream of the archaic literature with the works of Geber and the adepts of the school of Arabia with the writings attributed to Hermes with those of Raymond Lully Arnold de Villa Nova Bernard Trevisan and others This edition contains both original volumes one and two
