Joshua Lockyer, 2021-05-11 In *Seeing Like a Commons* Joshua Lockyer demonstrates how a growing group of people have over the last eighty years deliberately built Celo Community a communal settlement on 1 200 acres of commonly owned land in the Appalachian Mountains of North Carolina Joshua Lockyer highlights the potential for intentional communities like Celo to raise awareness of global interconnectivity and structural inequalities enabling people and communities to become better stewards and citizens of both local landscapes and global commons *Seeing Like a Platform* Petter Törnberg, Justus

Uitermark, 2025-01-29 Power needs abstraction to make the unwieldy complexity of the social world legible and manageable

The proposition at the heart of *Seeing Like a Platform* is that digital technology brings new metaphors through which power operates. While industrial modernity saw society as a machinery to be designed according to detailed blueprints, digital modernity views society as organic and alive to be herded and nudged through digital infrastructures. AI and algorithms. *Seeing Like a Platform* explores the history, meaning, and far-reaching consequences of this epistemological shift. From social movements to Wikipedia, from digital platforms to city planning, from social science to media, society is being redefined by ideas from complexity science. While complexity offers a vision of a self-organized society freed from hierarchies and overbearing bureaucracies, it simultaneously enables new forms of domination and control. Through theoretical reflections and case studies, *Seeing Like a Platform* offers an inquiry into digital modernity. Accessibly written and broad-ranging, it is an essential reading for scholars, students, and practitioners in fields such as sociology, political science, urban studies, and technology studies. It will also interest anyone keen to understand the profound impact of digital technologies on governance, social organization, and everyday life. Feeling Like a State Davina Cooper, 2019-09-06
A transformative progressive politics requires the state's reimagining. But how should the state be reimagined, and what can invigorate this process? In *Feeling Like a State*, Davina Cooper explores the unexpected contribution a legal drama of withdrawal might make to conceptualizing a more socially just, participative state. In recent years, as gay rights have expanded, some conservative Christians, from charities to guesthouse owners and county clerks, have denied people inclusion, goods, and services because of their sexuality. In turn, liberal public bodies have withdrawn contracts, subsidies, and career progression from withholding conservative Christians. Cooper takes up the discourses and practices expressed in this legal conflict to animate and support an account of the state as heterogeneous, plural, and erotic. Arguing for the urgent need to put new imaginative forms into practice, Cooper examines how dissident and experimental institutional thinking materialize as people assert a democratic readiness to recraft the state.

Counting Like a State Philip Rocco, 2025-06-17
The census plays a foundational, if all too easily ignored, role in the operation of the American state, shaping everything from congressional representation to the allocation of trillions of federal dollars. While census-taking aspires to the high modernist goal of seeing like a state—centralizing, standardizing, and homogenizing knowledge about a polity—it is subject to far more conflict and negotiation than final tabulations. Maps or technical documentation make apparent. This is especially true in a large, decentralized polity like the United States, where the Constitution entrusts the ultimate authority for the census to the legislative branch. In *Counting Like a State*, Philip Rocco shows how the production of the US Census now crucially hinges not only on what happens in Washington but also on a series of intergovernmental partnerships. State and local officials, though not formally responsible for census-taking, figure importantly in the implementation of the decennial count. These officials are essential partners in the construction and maintenance of address lists as well as in outreach and promotion campaigns in

hard to count communities The 2020 Census compounded these challenges with new crises Intergovernmental partnerships played a key role in preventing President Trump from adding a citizenship question as state and local officials mounted a coordinated legal counteroffensive Many local officials also simply refused to cooperate with the Trump administration s efforts to exclude undocumented immigrants from the apportionment count The census also took place in the context of a global pandemic that stretched administrative resources to the breaking point While these partnerships allowed the Census Bureau to adapt to ever changing conditions on the ground state and local governments also sounded the alarm when the Trump administration sought to rush the census These efforts helped preserve the quality of the data collected in the 2020 count Rocco s illuminating study of the 2020 Census pulls back the curtain on the administrative state to reveal how something as complex and centralizing as a census takes place within a decentralized federalist system Drawing on analyses of interviews with hundreds of public officials and quantitative analyses of state and local census activities Counting Like a State allows scholars and practitioners to better understand what facilitates as well as what impedes effective intergovernmental partnerships for census taking

Seeking Asylum Alison Mountz, In July 1999 Canadian authorities intercepted four boats off the coast of British Columbia carrying nearly six hundred Chinese citizens who were being smuggled into Canada Government officials held the migrants on a Canadian naval base which it designated a port of entry As one official later recounted to the author the Chinese migrants entered a legal limbo treated as though they were walking through a long tunnel of bureaucracy to reach Canadian soil The long tunnel thesis is the basis of Alison Mountz s wide ranging investigation into the power of states to change the relationship between geography and law as they negotiate border crossings Mountz draws from many sources to argue that refugee receiving states capitalize on crises generated by high profile human smuggling events to implement restrictive measures designed to regulate migration Whether states view themselves as powerful actors who can successfully exclude outsiders or as vulnerable actors in need of stronger policies to repel potential threats they end up subverting access to human rights altering laws and extending power beyond their own borders Using examples from Canada Australia and the United States Mountz demonstrates the centrality of space and place in efforts to control the fate of unwanted migrants

Acting Like a State Gëzim Visoka, 2018-06-13 How do emerging states obtain international recognition and secure membership of international organisations in contemporary world politics This book provides the first in depth study of Kosovo s diplomatic approach to becoming a sovereign state by obtaining international recognition and securing membership of international organisations Analysing the everyday diplomatic discourses performances and entanglements this book contends that state becoming is not wholly determined by systemic factors normative institutions or the preferences of great powers the diplomatic agency of the fledgling state plays a far more important role than is generally

acknowledged Drawing on institutional ethnographic research and first hand observations this book argues that Kosovo s diplomatic success in consolidating its sovereign statehood has been the situational assemblage of multiple discourses practiced through a broad variety of performative actions and shaped by a complex entanglement with global assemblages of norms actors relations and events Accordingly this book contributes to expanding our understanding of the everyday diplomatic agency of emerging states and the changing norms politics and practices regarding the diplomatic recognition of states and their admission to international society
