of some of the Frankish histories and chronicles and on the way they were written in order to promote specific interpretations of certain individuals and events or in some cases to conceal their very existence Certain central episodes such as the imperial coronation of Charlemagne are examined to detect the ways in which they were interpreted and presented in contemporary texts From Clovis to Charlemagne Frankish History and Historians will appeal to academics and students interested in the history of early medieval France the processes of historical composition in that period the study of manuscripts relating to it and the wider questions about historical understanding and the interpretation of evidence

A History of Old Norse Poetry and Poetics Margaret Clunies Ross, 2005 This is the first book in English to deal with the twin subjects of Old Norse poetry and the various vernacular treatises on native poetry that were a conspicuous feature of medieval intellectual life in Iceland and the Orkneys from the mid twelfth to the fourteenth centuries Its aim is to give a clear description of the rich poetic tradition of early Scandinavia particularly in Iceland where it reached its zenith and to demonstrate the social contexts that favoured poetic composition from the oral societies of the early Viking Age in Norway and its colonies to the devout compositions of literate Christian clerics in fourteenth century Iceland The author analyses the two dominant poetic modes eddic and skaldic giving fresh examples of their various styles and subjects looks at the prose contexts in which most Old Norse poetry has been preserved and discusses problems of interpretation that arise because of the poetry's mode of transmission She is concerned throughout to link indigenous theory with practice beginning with the pre Christian ideology of poets as favoured by the god dinn and concluding with the Christian notion that a plain style best conveys the poet's message Margaret Clunies Ross is McCaughey Professor of English Language and Early English Literature and Director of the Centre for Medieval Studies at the University of Sydney

The Oxford Illustrated History of Medieval Europe George Holmes, 1988 The individual chapters are scholarly and up to the minute without loss of accessibility or pace The illustrations are many apposite and refreshingly unhackneyed Times Literary Supplement
