The chapters that comprise this book tap into the expertise of a group of primary teachers from Our Lady of Good Counsel OLGC a primary school that chose to actively engage in teaching for scientific literacy By analyzing the insights and thinking that emerged as they attempted to unravel some of the pedagogical complexities associated with constructing an understanding of scientific literacy in their own classrooms these teachers demonstrate the professional knowledge and skill inherent in the expertise of teaching and learning science in a primary classroom The chapters in this book illustrate the processes and structures that were created at OGLC to provide the conditions that allowed these teachers to explore and build on the range of ideas that informed their approach to teaching for scientific literacy This book is a compelling example of how a whole school approach to scientific literacy can make a difference for students learning of science and offer a concrete example of the development of professional knowledge and practice of teachers Science Journalism Martin Angler, 2017-06-14 Science Journalism An Introduction gives wide ranging guidance on producing journalistic content about different areas of scientific research It provides a step by step guide to mastering the practical skills necessary for covering scientific stories and explaining the business behind the industry Martin

W Angler an experienced science and technology journalist covers the main stages involved in getting an article written and published from choosing an idea structuring your pitch researching and interviewing to writing effectively for magazines newspapers and online publications There are chapters dedicated to investigative reporting handling scientific data and explaining scientific practice and research findings to a non specialist audience Coverage in the chapters is supported by reading lists review questions and practical exercises The book also includes extensive interviews with established science journalists scholars and scientists that provide tips on building a career in science journalism address what makes a good reporter and discuss the current issues they face professionally The book concludes by laying out the numerous available routes into science journalism such as relevant writing programs fellowships awards and successful online science magazines For students of journalism and professional journalists at all levels this book offers an invaluable overview of contemporary science journalism with an emphasis on professional journalistic practice and success in the digital age El-Hi Textbooks and Serials in Print, 2006 Strange Animals I Have Known Dr. Raymond L. Ditmars, 2017-07-11 To see the animals at the zoo on Sunday afternoon is one thing To know them intimately offstage is quite another In this book which has delighted readers for two generations Dr Ditmars who was curator of mammals and reptiles at New York s Bronx Zoo gives an extraordinary account of his lively encounters with hundreds of animals For over a quarter of a century writes Dr Ditmars it has been my task to capture transport feed nurse soothe fight guard and cajole various specimens of the animal kingdom I have been on intimate terms with snakes bears apes monkeys elephants jaguars tigers buffaloes giraffes deer kudus hippos wild horses kiangs rhinos lions cougars leopards kangaroos beasts of almost every sort While many of his adventures seem too fantastic to be true they really did happen Rich in lore that will be fascinating to readers interested in natural history Dr Ditmar's sense of humor augments in no small degree the engaging qualities of his book New York Herald Tribune Books Genuinely vivid and exciting adventures N Y Times Book Review
