Barton Palmer, Homer B. Pettay, Steven M. Sanders, 2017-01-30 In his essays and interviews Alfred Hitchcock was guarded about substantive matters of morality preferring instead to focus on discussions of technique That has not however discouraged scholars and critics from trying to work out what his films imply about such moral matters as honesty fidelity jealousy courage love and loyalty Through discussions and analyses of such films as Strangers on a Train Rear Window Vertigo North by Northwest and Frenzy the contributors to this book strive to throw light on the way Hitchcock depicts a moral if not amoral or immoral world Drawing on perspectives from film studies philosophy literature and other disciplines

they offer new and compelling interpretations of the filmmaker's moral gaze and the inflection point it provides for modern cinema

Austrian Capital Theory Peter Lewin, Nicolas Cachanosky, 2019-01-10 This Element presents a new framework for Austrian capital theory starting from the notion that capital is value. Capital is the value attributed by the valuer at any moment in time to the combination of production goods and labor available for production. Capital is the result obtained by calculating the current value of a business unit or business project that employs resources over time. It is the result of a subjective entrepreneurial calculation process that relates the flow of consumptions goods to the value of the productive resources that will produce those consumptions goods. The entrepreneur is a ubiquitous calculating presence. In a review of the development of Austrian capital theory by Carl Menger, Eugen von Böhm-Bawerk, Ludwig von Mises, Friedrich Hayek, Ludwig Lachmann, as well as recent contributions, the Element incorporates the seminal contributions into the new framework in order to provide a more accessible perspective on Austrian capital theory

Global Business Strategy: Asian Perspective (Second Edition) Hwy-chang Moon, 2022-01-07 As the second edition of Global Business Strategy, this book provides novel insights on how a firm can formulate a successful approach toward its global business from both the Western and Asian perspectives. In this respect, the book's overall goal is to bridge the gap between these two different viewpoints. This second edition includes more recent business theories, techniques, and cases within the field of global business strategy. Specifically, it includes new theories and techniques like creating shared value (CSV), the global value chain platform strategy, and business ecosystem. They are shown to be important tools for enhancing competitiveness and maintaining sustainability among firms in today's rapidly changing international business environment. This is very much evident today given the critical challenges arising from the trade tensions between the United States and China, emerging technologies such as artificial intelligence and digital transformation, and the unprecedented disruptions brought on by the coronavirus pandemic. We hope that this book will serve as a useful companion for students, business practitioners, policymakers, and the more general readers interested in issues related to competitiveness and business.

Language for Special Purposes Felix Mayer, 2001

Distinctives Vaughan Roberts, 2000-03-01

In a fresh and readable style, Vaughan Roberts issues a challenging call to Christians to live out their faith. We should be different from the world around us. Targeting difficult but crucial areas such as our attitude to money and possessions, sexuality, contentment, relativism, and service, this teaching is holiness in the tradition of J. C. Ryle for the contemporary generation. Roberts helps us to consider how we are to respond biblically to the temptations and pitfalls surrounding us, giving what we cannot keep, to gain what we cannot lose.

My Favorite Failure Ronald A. Beghetto, Laura McBain, 2022-04-25 The stories in the book are stitched together like a quilt, giving you an overview of the mosaic of failure but also shining a light on the components of failure. The stories provide an insight into how you can create the conditions where you're going to take risks together and then experience failure together. The narratives are from people who examined

their favorite failures pulled the stories apart and provided us with an opportunity to understand how failure is not just one moment or one set of emotions These stories provide us with a glimpse into how we can approach teaching learning and setbacks with more humility and more humanity It s more than just about getting unstuck because failure has its own shape it s own momentum and shapes who we are all trying to become

Resources in Education, 1998 **Never Forget National Humiliation** Zheng Wang, 2014-03-04 How could the Chinese Communist Party CCP not only survive but even thrive regaining the support of many Chinese citizens after the Tiananmen Square crackdown of 1989 Why has popular sentiment turned toward anti Western nationalism despite the anti dictatorship democratic movements of the 1980s And why has China been more assertive toward the United States and Japan in foreign policy but relatively conciliatory toward smaller countries in conflict Offering an explanation for these unexpected trends Zheng Wang follows the Communist government's ideological reeducation of the public which relentlessly portrays China as the victim of foreign imperialist bullying during one hundred years of humiliation By concentrating on the telling and teaching of history in today's China Wang illuminates the thinking of the young patriots who will lead this rising power in the twenty first century Wang visits China's primary schools and memory sites and reads its history textbooks arguing that China's rise should not be viewed through a single lens such as economics or military growth but from a more comprehensive perspective that takes national identity and domestic discourse into account Since it is the prime raw material for constructing China's national identity historical memory is the key to unlocking the inner mystery of the Chinese From this vantage point Wang tracks the CCP's use of history education to glorify the party reestablish its legitimacy consolidate national identity and justify one party rule in the post Tiananmen and post Cold War era The institutionalization of this manipulated historical consciousness now directs political discourse and foreign policy and Wang demonstrates its important role in China's rise *Fresh Perspectives on Later Life Learning* Brian Findsen, 2018-10-29 Over the last decade there has been a resurgence of interest in what adults learn in their later years often described as beyond 65 and how this learning is linked to current personal social and global issues This learning commonly occurs in informal ways as seniors go about their daily lives This kind of informal learning can be supplemented by non formal education via participation in planned learning as members of organizations and less frequently in formal education structures such as universities This book highlights how

older people are learning in a myriad of ways and conditions It covers everything from individualistic learning through to national issues of older adult education Fresh perspectives are provided on biographical insights into retirement and higher education how older people generate know how in the company of others and in cross cultural aspects such as Chinese elders in Hong Kong and M ori seniors in Aotearoa New Zealand In addition the links between health and learning are explored as well as the commitment universities in three countries have made to become age friendly This book was originally published as a special issue of the International Journal of Lifelong Education
