is the very essence of religion Hence it is irrational it is absurd If you try to understand it logically you will be bewildered It can only be understood illogically It has to be approached in deep sympathy and love YOU CANNOT approach Zen through empirical scientific objective concepts They all have to be dropped It is a heart phenomenon You have to feel it rather than think it You have to BE it to know it Being is knowing And there is no other knowing **Daily Report, Foreign Radio**

Radio London and Resistance in Occupied Europe Michael Stenton,2000-10-19 This book examines British attempts to wage political warfare in the countries occupied by Germany in the Second World War It describes the slow construction of political warfare machinery in London in terms of two twin difficulties Whitehall politics and fundamental doubts about what a successful war should have as its purpose It then examines how political warfare operated as a semi detached adjunct of diplomacy and how it engaged with the development of armed or active resistance in France Denmark Poland and Yugoslavia This is a study of British political imagination in a period when Britain still acted as a great power in control of her own decisions The experience of near defeat however left decision makers with dilemmas about rhetoric and ideology as much as policy Their refusal to resolve these dilemmas until pushed by events meant political warfare lacked the consistency and definition that might have given it greater force

[Falling in Love With Darkness](#) Osho,2019-06-15 We have polluted our planet Earth with light Light pollution excessive and obtrusive artificial light with bright neon and LED lights in our cities and in our personal space continuously illuminated and artificial has removed something incredibly valuable from our lives and at the same time affected our ability to sleep rest and relax Falling

in Love with Darkness is Osho's attempt to bring us again in contact with darkness but here in a spiritual and psychological context. Why do we desire light, he asks. Why do we hanker so much for light? Perhaps we never realize that the desire for light is a symbol of the fear rooted within us; it is a symbol of fear. We want light so that we can become free of that fear. The mind is afraid in the dark. The fear of darkness is based on the fear of being alone; the fear of being alone comes together with the fear of darkness. Darkness has its own bliss. Without falling in love with darkness, you will be deprived of the capacity to love the great truths of life. Next time you find yourself in darkness, take a direct look into it, and you will discover that it is not so frightening after all. When darkness surrounds you, become absorbed in it, become one with it. And you will find that darkness offers you something that light can never give you. All the important mysteries of life are hidden in darkness. These are talks by Osho given at a meditation camp where he introduces people in a direct and practical way to an understanding of meditation as a way to get acquainted with darkness, to re-discover that darkness is peace, relaxation, and stillness all through the simple method of witnessing. Meditation means discovering the one who is beyond all happening and has never been a part of anything.
