### **Canada, Latin America, and the New**

**Internationalism** Brian J.R. Stevenson, 2000-12-06 In *Canada Latin America and the New Internationalism* Brian Stevenson argues that Canada's foreign policy toward Latin America has been profoundly affected by these three factors and has evolved in response to both changing domestic demands and shifting international circumstances By analysing a pivotal period in Canada Latin American relations he shows us how successive Canadian governments made important initiatives toward closer relationships with Latin America and were also pressured by non governmental organizations to play a bigger role in the region Canada's increased role can be seen in official foreign policy commitments such as the decision to join the Organization of American States and in policy decisions on political refugees He explains that while the United States has played a key role in sometimes constraining Canadian foreign policy in the region it is important to realize that Canadian foreign policy has been steadied by a long standing tradition of internationalism *Canada Latin America and the New Internationalism* demonstrates that the tradition of internationalism in Canadian foreign policy as viewed from the perspective of foreign policy analysis provides the framework within which to understand and accommodate changes in its policy toward Latin America The period which the book explores is critical in order to understand the contemporary nature and future direction of Canada Latin America relations

### ***Urban Neighbourhood Formations*** Hilal Alkan, Nazan

Maksudyan, 2020-03-04 This book examines the formation of urban neighbourhoods in the Middle East Africa and South Asia It departs from neighbourhoods to consider identity coexistence solidarity and violence in relations to a place *Urban Neighbourhood Formations* revolves around three major aspects of making and unmaking of neighbourhoods spatial and temporal boundaries of neighbourhoods neighbourhoods as imagined and narrated entities and neighbourhood as social relations With extensive case studies from Johannesburg to Istanbul and from Jerusalem to Delhi this volume shows how spatial amenities immaterial processes of narrating and dreaming and the lasting effect of intimacies and violence in a neighbourhood are intertwined and negotiated over time in the construction of moral orders urban practices and political identities at large This book offers insights into neighbourhood formations in an age of constant mobility and helps us

understand the grassroots level dynamics of xenophobia and hostility as much as welcoming and openness It would be of interest for both academics and more general audiences as well as for students of undergraduate and postgraduate courses in Urban Studies and Anthropology      **Trafficked Children and Youth in the United States** Elzbieta M.

Gozdziak,2016-05-10 Trafficked children are portrayed by the media and even by child welfare specialists as hapless victims who are forced to migrate from a poor country to the United States where they serve as sex slaves But as Elzbieta M Gozdzia reveals in Trafficked Children in the United States the picture is far more complex Basing her observations on research with 140 children most of them girls from countries all over the globe Gozdzia debunks many myths and uncovers the realities of the captivity rescue and rehabilitation of trafficked children She shows for instance that none of the girls and boys portrayed in this book were kidnapped or physically forced to accompany their traffickers In many instances parents or smugglers paid by family members brought the girls to the U S Without exception the girls and boys in this study believed they were coming to the States to find employment and in some cases educational opportunities Following them from the time they were trafficked to their years as young adults Gozdzia gives the children a voice so they can offer their own perspective on rebuilding their lives getting jobs learning English developing friendships and finding love Gozdzia looks too at how the children s perspectives compare to the ideas of child welfare programs noting that the children focus on survival techniques while the institutions focus not helpfully on vulnerability and pathology Gozdzia concludes that the services provided by institutions are in effect a one size fits all trauma based model one that ignores the diversity of experience among trafficked children Breaking new ground Trafficked Children in the United States offers a fresh take on what matters most to these young people as they rebuild their lives in America      Rethinking the Third World Mark T Berger,Heloise Weber,2014-09-22 A systematic reassessment by two leading figures in the field of the paradigm of international development in both theory and practice It offers an overview and critique of development theory and strategy and a new framework for the analysis of global inequality poverty and development in an era of globalization      Conversational Interaction in Second Language Acquisition A. **The Polythink Syndrome** Alex Mintz, Carly Wayne, 2016-01-20 Why do presidents and their advisors often make sub optimal decisions on military intervention escalation de escalation and termination of conflicts The leading concept of group dynamics groupthink offers one explanation policy making groups make sub optimal decisions due to their desire for conformity and uniformity over dissent leading to a failure to consider other relevant possibilities But presidential advisory groups are often fragmented and divisive This book therefore scrutinizes polythink a group decision making dynamic whereby different members in a decision making unit espouse a plurality of opinions and divergent policy prescriptions resulting in a disjointed decision making process or even decision paralysis The book analyzes eleven national security decisions including the national security policy designed prior to the terrorist attacks of 9 11 the decisions to enter into and withdraw from Afghanistan and Iraq the 2007 surge decision the crisis over the Iranian nuclear program the UN Security Council decision on the Syrian Civil War the faltering Kerry Peace Process in the Middle East and the U S decision on military operations against ISIS Based on the analysis of these case studies the authors address implications of the polythink phenomenon including prescriptions for avoiding and or overcoming it and develop strategies and tools for what they call Productive Polythink The authors also show the applicability of polythink to business industry and everyday decisions

**Islam and Statecraft** Jon Hoffman, 2025-01-23 Instead of religion influencing political outcomes this analysis examines how politics influences religious outcomes Dominant analyses examining the utilization of religion as a tool of statecraft in the Middle East remain overwhelmingly fixated on how Islam influences the foreign policies of different state actors not how political considerations often influence the forms Islam assumes and how religion itself is often molded according to strategic considerations of political elites That Islam due to its unique or exceptional relationship with politics drives political

outcomes at the international level in the Middle East is a myth this book shatters by demonstrating how the political considerations of ruling elites specifically the intersection of domestic and foreign threats influence and constrain the kinds of religious soft power strategies adopted by states in the region This book develops a comprehensive analytical framework for the notion of religious soft power capable of incorporating power based identity based and ideational variables to examine how states couple religion with their broader foreign policy conduct This framework is applied to the Middle East through the specific examination of three countries Saudi Arabia Qatar and the United Arab Emirates in the period following the Arab Uprisings to demonstrate how specific religious narratives identities histories and ideologies are constructed by political elites in the Middle East for the advancement of what are inherently political objectives namely the imperatives of regime preservation and power projection
