New Frontiers Of Democratic Participation At Work:

Roots and New Frontiers in Social Group Work Marcos Leiderman, Martin L. Birnbaum, Barbara Dazzo, 1988 This exciting book captures the rich heritage of social group work and links the origin of social group work to its present and future frontiers The first 100 years of social group work are celebrated in this volume as social workers address a wide range and diversity of group work practice theory research and education with information on health and mental health institutions substance abuse programs rehabilitation centers the correctional system family service agencies nursing homes and other specialized areas including industry child and spouse abuse and incest *Roots and New Frontiers in Social Group Work* consists of selected proceedings from the Seventh Consecutive Symposium of the Committee for the Advancement of Social Work With Groups sponsored by Rutgers University School of Social Work

New Frontiers of Democratic Participation at Work Michael Gold, 2003 Contributors from a wide range of European countries illustrate the validity of four propositions about employee participation that different forms of employee participation mutually reinforce each other that major shifts in employment relations require innovative approaches to participation that appropriate conditions including the provision of training and support are required for the spread of participation and that trade unions remain a crucial foundation for the promotion of participation

Trade Unions and Workplace Democracy in Africa Gérard Kester, 2016-02-24 Can democracy only survive if it is participatory Is participatory democracy a prerequisite for sustainable development Are trade unions the most appropriate body through which such aims can be implemented These critical questions are tackled in Gérard Kester's book *Trade Unions and Workplace Democracy in Africa* which applies an unparalleled depth of research to these issues as they impact African nations including Cape Verde Burkina Faso Mali Guinea Ghana South Africa Zambia Tanzania and Zimbabwe Rigorously structured it sets the background of the research and the underlying theory before presenting the learning experiences within different countries and the the broad implications of the research findings for policy making on democratic participation

Flexible Organizations and the New Working Life Helge Ramsdal, 2016-04-15 What are we actually talking about when we talk of flexibility in organizational settings Do flexible forms of organization lead to varied challenging and autonomous work or do they have a negative impact on working conditions These questions are confronted by a group of specialist authors including Stephen Ackroyd Harriet Bradley Jan Ch Karlsson Philippe Moss and Michael Rose who discuss the concept of flexibility in relation to employment practices organizational structure cultural peculiarities and network arrangements in France Italy Norway Sweden and the UK While the question of workplace flexibility has been much debated in recent years the main issues discussed have been the practice of non standard forms of employment such as part time work This book is distinctive in dealing with flexibility related to organizational arrangements organizational culture and network arrangements and in assessing the combined effects of different arrangements in terms of manpower structure culture and networks on flexibility

Handbook of Research on Employee Voice Adrian Wilkinson, Jimmy Donaghey, Tony

Dundon, Richard B. Freeman, 2020-06-26 This thoroughly revised second edition presents up to date analysis from various academic streams and disciplines that illuminate our understanding of employee voice from a range of different perspectives Exploring the previously under represented paradigm of the organizational behaviour approach new chapters take account of a broader conceptualization of employee voice Written by expert contributors this Handbook explores the meaning and impact of employee voice for various stakeholders and considers the ways in which these actors engage with voice processes such as collective bargaining individual processes mutual gains task based voice and grievance procedures *International Labour Review* , **Current Practices in Workplace and Organizational Learning** Bente Elkjaer, Maja Marie Lotz, Niels Christian Mossfeldt Nickelsen, 2022-01-01 The central assumption that guides this book is that research and practice about learning at the workplace has recently lost its critical edge This book explores what has happened to workplace learning and organizational learning and studies what has replaced it In addition the book discusses to what extent there are reasons to revitalize it Today themes such as innovation co creation and knowledge sharing seem to have become preferred and referred to as theoretical fields as well as fields of practice In several chapters of this book it is argued that the critical power of learning could be regained by starting a new discussion of how these new fields of practice can be substantiated by topics such as learning arrangements learning mechanisms and learning strategies Hence the aim of this book is to both advance and recapture our knowledge of learning in today s increasingly complex world of work and organizing The contributions in this work do so by revisiting classic research on workplace and organizational learning and discussing how insights from this body of literature evokes new meaning It sets the stage for new agendas and rethinks current practices that are entangled in activities such as innovation co creation knowledge sharing or other currently widespread fields of practice *Probabilistic Safety Assessment and Management* Cornelia Spitzer, Ulrich Schmocker, Vinh N. Dang, 2014-01-04 Probabilistic Safety Assessment and Management is a collection of papers presented at the PSAM 7 ESREL 04 Conference in June 2004 The joint Conference provided a forum for the presentation of the latest developments in methodology and application of probabilistic and reliability methods in various industries The aim of these applications is the optimisation of technological systems and processes from the perspective of a risk informed safety management while also taking economic and environmental aspects into account Bringing together leading experts from all over the world the papers reflect a wide variety of disciplines such as principles and theory of reliability and risk analysis systems modelling and simulation consequence assessment human and organisational factors structural reliability methods software reliability and safety insights and lessons from risk studies and management decision making *Economy, Work, and Education* Catherine Casey, 2016-07-27 Economy Work and Education Critical Connections addresses effects of neoliberal capitalism in particular regard to work and education It reveals limits and paradoxes in macroeconomic policy imperatives toward knowledge based economies and learning societies and elaborates ensuing critical concerns and dilemmas It concludes with an exploration of innovative conceptions of social

citizenship which may stimulate sources of a revitalization of work and education beyond singular economic imperatives

Towards a European Labour Identity Michael Whittall, Herman Knudsen, Fred Huijgen, 2007-05-07 Since 1996 a growing number of European employees have access to a European works council EWC a transnational employee body designed to complement national forms of labour representation This volume brings together a hep hive of contributors who present valuable new insights into how employee representatives from different European countries perform their jobs as members of European Works Councils in an attempt to develop some sense of a common European labour identity The transnational character of the EWC makes it an ideal microscopic structure through which the wider discourse surrounding identity especially when associated with globalization Europeanization and mobility can occur Towards a European Labour Identity examines not only the workings of the EWCs utilising individual case studies but also analyses and asses the link with the broader discussions on European identity as well as European trade union co ordination and solidarity
