New Ghosts Old Ghosts Prisons And Labor Reform Camps In China:

New Ghosts, Old Ghosts: Prisons and Labor Reform Camps in China James D. Seymour, Michael R. Anderson, 2015-06-01 Much has been written about the laogai sometimes likened to the Soviet gulag in the People's Republic of China. Depending on the source, the prisons are described as nonexistent, enlightened institutions or hellish places that subject the inmates to degradation and misery. The system is commonly thought of by admirers and critics alike as having a measurable impact on the national economy and providing significant resources to the state. Based on research in classified documents and extensive interviews with former prisoners, judicial personnel and other insiders and featuring case studies dealing with the three northwestern provinces, this book examines such assertions on the basis of the facts about this underexamined subject in order to arrive at a detailed, objective and realistic picture of the situation. In the case of each province under study, the authors discuss the history of the provincial prison system and the impact that each has had at the macro, meso and micro levels. *The Wobbling Pivot, China since 1800* Pamela Kyle Crossley, 2010-01-28 This comprehensive but concise narrative of China since the eighteenth century builds its story around the delicate relationship between central government and local communities. Rejects the traditional view of China as a wholly harmonious society based on principles of stability; the Unwobbling Pivot of Ezra Pound's translation of the Chinese classic *Zhongyong*. Provides an original interpretation arguing that developments can be explained through an understanding of China's surprising swings between centralization and decentralization between local initiative and central authoritarianism. Serves as an introduction to the subject while readers with a background in Chinese history will find the book offers a personal perspective and addresses long-standing interpretive issues. Supported by a variety of timelines, maps, illustrations and extensive notes for further reading. Places China's history within the context of global change. *A Village with My Name* Scott Tong, 2017-11-17 An immensely readable journey through modern Chinese history told through the experiences of the author's extended family. Christian Science Monitor. When journalist Scott Tong moved to Shanghai, his assignment was to start the first full-time China bureau for Marketplace, the daily business and economics program on public radio stations across the US. But for Tong, the move became much more an opportunity to reconnect with members of his extended family who'd remained there after his parents fled the communists six decades prior. Uncovering their stories gave him a new way to understand modern China's defining moments and its long interrupted quest to go global. *A Village with My Name* offers a unique perspective on China's transitions through the eyes of regular people who witnessed such epochal events as the toppling of the Qing monarchy, Japan's occupation during WWII, exile of political prisoners to forced labor camps, mass death and famine during the Great Leap Forward, market reforms under Deng Xiaoping and the dawn of the One Child Policy. Tong focuses on five members of his family who each offer a specific window on a changing country: a rare American-educated girl born in the closing days of the Qing Dynasty, a pioneer exchange student, a toddler abandoned in wartime who later rides the wave of China's global export boom, a young

professional climbing the ladder at a multinational company and an orphan the author's daughter adopted in the middle of a baby selling scandal fueled by foreign money Through their stories Tong shows us China anew visiting former prison labor camps on the Tibetan plateau and rural outposts along the Yangtze exploring the Shanghai of the 1930s and touring factories across the mainland providing a compelling and deeply personal take on how China became what it is today Vivid and readable The book's focus on ordinary people makes it refreshingly accessible Financial Times Tong tells his story with humor a little snark and lots of love Highly recommended especially for those interested in Chinese history and family journeys Library Journal starred review

China's Changing Legal System Thomas W. Simon, Chuan Feng, Leyton P. Nelson, 2016-04-29 While much international attention has been focused on China's developing economy dramatic changes are also taking place in its legal system This book is a groundbreaking comprehensive introduction to China's legal system covering the major areas of both civil and criminal law The authors present fascinating cases and balanced accounts of controversial issues from copyright law to punishment By letting Chinese lawyers and judges speak for themselves the authors also allow readers a surprisingly candid insider's view of real life legal practice

The Next Frontier David T Johnson, Franklin E Zimring, 2009-02-02 Today two thirds of the world's nations have abolished the death penalty either officially or in practice due mainly to the campaign to end state executions led by Western European nations Will this success spread to Asia where over 95 percent of executions now occur Do Asian values and traditions support capital punishment or will development and democratization end executions in the world's most rapidly developing region David T Johnson an expert on law and society in Asia and Franklin E Zimring a senior authority on capital punishment combine detailed case studies of the death penalty in Asian nations with cross national comparisons to identify the critical factors for the future of

Asian death penalty policy The clear trend is away from reliance on state execution and many nations with death penalties in their criminal codes rarely use it Only the hard line authoritarian regimes of China Vietnam Singapore and North Korea execute with any frequency and when authoritarian states experience democratic reforms the rate of executions drops sharply as in Taiwan and South Korea Debunking the myth of Asian values Johnson and Zimring demonstrate that politics rather than culture or tradition is the major obstacle to the end of executions Carefully researched and full of valuable lessons The Next Frontier is the authoritative resource on the death penalty in Asia for scholars policymakers and advocates around the world Nationalism, Democracy and National Integration in China Leong H.
