New Egalitarianism:

The New Egalitarianism Anthony Giddens, Patrick Diamond, 2005-08-05 This book tackles one of the most pressing issues currently facing centre left governments social inequality At a time when the traditional mechanisms of social cohesion have been undermined by greater individualism the globalization of production and the fragmentation of social life the challenges posed by inequality are more pronounced than ever before As communities and cultures become more complex social solidarity and social justice can increasingly seem like impossible ideals Bringing together original contributions from globally renowned thinkers such as Gosta Esping Andersen Saskia Sassen Ulrich Beck and Anthony Giddens as well as senior New Labour figures the book offers a coherent account of the dynamic and multi faceted nature of contemporary inequality and lays out how these inequalities can be countered Drawing on a wide range of evidence and the experiences of governments worldwide it proposes a fresh agenda for social change The Editors propose a new egalitarianism an approach to equality consistent with the demands of a post modern economy and society The book shows that there is a viable future for a left of centre politics anchored in egalitarian values but that it requires a break with some core assumptions of the past The New Egalitarianism will be essential reading for anyone concerned about social inequality and the future of democratic politics

The Fourth Great Awakening and the Future of Egalitarianism Robert William Fogel, 2000 Robert William Fogel was awarded the Nobel Prize in Economic Science in 1993 To take a trip around the mind of Robert Fogel one of the grand old men of American economic history is a rare treat At every turning you come upon some shiny pearl of information The Economist In this broad thinking and profound piece of history Robert William Fogel synthesizes an amazing range of data into a bold and intriguing view of America s past and future one in which the periodic Great Awakenings of religion bring about waves of social reform the material lives of even the poorest Americans improve steadily and the nation now stands poised for a renewed burst of egalitarian progress

The New Egalitarianism Adam G. Martin, 2017 The New Egalitarianism is a strain of thought that draws heavily on critical theory and structuralism arguing that disparities between groups are due to systemic oppression This article argues that implementing New Egalitarian ideals in practice would involve transforming morality into an obscurantist epistocracy The New Egalitarianism is epistocratic in that it relies on the existence of moral experts to determine which actions perpetuate systemic oppression and which advance equality It is obscurantist in that New Egalitarians tend to question the standing of critics rather than engaging with the substance of their criticism I contrast these tendencies with a Hayekian view of social morality arguing that implementing New Egalitarian ideas may run afoul of the moral requirements of an extended social order

Super Rich George Irvin, 2013-04-26 In the past 25 years the distribution of income and wealth in Britain and the US has grown enormously unequal far more so than in other advanced countries The book which is aimed at both an academic and a general audience examines how this happened starting with the economic shocks of the 1970s and the neo liberal policies first applied under Thatcher and Reagan In

essence growing inequality and economic instability is seen as driven by a US style model of free market capitalism that is increasingly deregulated and dominated by the financial sector Using a wealth of examples and empirical data the book explores the social costs entailed by relative deprivation and widespread income insecurity costs which affect not just the poor but now reach well into the middle classes Uniquely the author shows how inequality changing consumption patterns and global financial turbulence are interlinked The view that growing inequality is an inevitable consequence of globalisation and that public finances must be squeezed is firmly rejected Instead it is argued that advanced economies need more progressive taxation to dampen fluctuations and to fund higher levels of social provision taking the Nordic countries as exemplary The broad political goal should be to return within a generation to the lower degree of income inequality which prevailed in Britain and the US during the years of post war prosperity

Egalitarian Revolution in the Savanna Stephen A. Dueppen, 2014-09-11 Many West African societies have egalitarian political systems with non centralised distributions of power Egalitarian Revolution in the Savanna analyses a wide range of archaeological data to explore the development of such societies The volume offers a detailed case study of the village settlement of Kirikongo in western Burkina Faso Over the course of the first millennium this single homestead extended control over a growing community The book argues that the decentralization of power in the twelfth century BCE radically transformed this society changing gender roles public activities pottery making and iron working Egalitarian Revolution in the Savanna will be of interest to students of political science anthropology archaeology and the history of West Africa

Equality and Liberty Kai Nielsen, 1985 Probably no issue is more confounding in the social policy arena or more closely argued among political philosophers than the question of the relationship between equality and liberty are they compatible in a just society In a systematic discussion that expands our understanding of what constitutes liberty equality and especially justice Professor Nielsen puts forth a vigorous defense of an uncompromising egalitarianism based on a commitment to the belief that the interests of everyone matter and matter equally Marshalling the most persistent arguments against egalitarianism the author presents accounts of Nietzschean elitism meritocracy and conservative libertarianism as well as various shades of egalitarianism and systematically responds to each opposing view Followers of contemporary debates will especially welcome Nielsen's searching critiques of the liberal

egalitarianism of John Rawls and Ronald Dworkin and of the conservative libertarianism of Milton Friedman Frederick Hayek and particularly Robert Nozick

Formulating Responses in an Egalitarian Age Marc D. Stern, 2005-08-31 At first glance Orthodox Judaism is not compatible with the prevailing world view of equal treatment for all people regardless of their race gender or religion But modern Orthodox Jews share the sense that egalitarianism is a positive moral value so they cannot simply dismiss this contemporary ethos as incompatible with their faith In a range of ways and variety of perspectives from the leading Orthodox scholars in the field this collection of essays explores the affinities and disaffinities between egalitarianism and Jewish tradition
