New Europe For The Old:

The New Europe, 1920 *Critical Discourse Studies in Context and Cognition* Christopher Hart, 2011 Critical Discourse Studies CDS is an exciting research enterprise in which scholars are concerned with the discursive reproduction of power and inequality. However, researchers in CDS are increasingly recognising the need to investigate the cognitive dimensions of discourse and context if they want to fully account for any connection between language legitimisation and social action. This book presents a collection of papers in CDS concerned with various ideological discourses. Analyses are firmly rooted in linguistics and cognition constitutes a major focus of attention. The chapters, which are written by prominent researchers in CDS, come from a broad range of theoretical perspectives spanning pragmatics, cognitive psychology and cognitive linguistics. The book is essential reading for anyone working at the cutting edge of CDS and especially for those wishing to explore the central place that cognition must surely hold in the relationship between discourse and society. **The EU - a Global**

Player? René Cuperus, 2006 **Rethinking Europe's Future** David P. Calleo, 2003-03-02 Rethinking Europe's Future is a major reevaluation of Europe's prospects as it enters the twenty-first century. David Calleo has written a book worthy of the complexity and grandeur of the challenges Europe now faces. Summoning the insights of history, political economy and philosophy, he explains why Europe was for a long time the world's greatest problem and how the Cold War's bipolar partition brought stability of a sort. Without the Cold War, Europe risks revisiting its more traditional history. With so many contingent factors in particular, Russia and Europe's Muslim neighbors, no one, Calleo believes, can pretend to predict the future with assurance. Calleo's book ponders how to think about this future. The book begins by considering the rival lessons and trends that emerge from Europe's deeper past. It goes on to discuss the theories for managing the traditional state system, the transition from autocratic states to communitarian nation states, the enduring strength of nation states and their uneasy relationship with capitalism. Calleo next focuses on the Cold War's dynamic legacies for Europe: an Atlantic Alliance, a European Union and a global economy. These three systems now compete to define the future. The book's third and major section examines how Europe has tried to meet the present challenges of Russian weakness and German reunification. Succeeding chapters focus on Maastricht and the Euro, on the impact of globalization on Europeanization and on the EU's unfinished business: expanding into Pan-Europe, adapting a hybrid constitution and creating a new security system. Calleo presents three models of a new Europe, each proposing a different relationship with the U.S. and Russia. A final chapter probes how a strong European Union might affect the world and the prospects for American hegemony. This is a beautifully written book that offers rich insight into a critical moment in our history whose outcome will shape the world long after our time. **Legitimizing the European Union** J. Mather, 2006-10-10 This is a study in EU legitimacy from the perspective of EU citizens. Mather argues that legitimacy is empirical; legitimacy only exists if people feel that it does and that the EU is a unique and dynamic institution; hence legitimating factors are also evolutionary. *New Europe*, 1974 Empire and

Beyond Antonio Negri, 2008-12-31 Today Empire no longer has an outside it no longer tolerates realities external to itself Hence every war cannot but be a civil war an internal battle a domestic strife But if the enemy is always within militarization is part and parcel of normalization and every war necessarily appears as a policing operation And yet has the sun really set on the old materialist dream of transforming social conflict into the beginnings of liberation In the cracks of Empire one can discern an emergent capacity to remould the world The anti Empire is represented by the multitude the collection of impassioned and desiring individuals whose potential for action offers the best hope for a better world In this book Antonio Negri explains the key concepts and methods which he and Michael Hardt have used to analyse Empire and the new forms of power and counter power that are shaping and reshaping our world today Through five introductory lectures and several supporting texts Negri constructs a democratic discourse on globalization renews the premises of a materialist analysis of social and political life and offers some glimpses of the future
