New Golden Rule Community And Morality In A Democratic Society

Robert W. Kolb

New Golden Rule Community And Morality In A Democratic Society:

The New Golden Rule Amitai Etzioni, 1998-04-11 One of the world's leading sociologists and most quoted intellectuals in America today Amitai Etzioni has been the subject of numerous profiles in all the major media and has worked both with members of the Clinton Administration and Republican senators on social issues and policy Now in this important new book he invites us to explore how a good society should operate and what values we must bring to our social interactions if we are to achieve stronger and more enduring community ties As Etzioni has found in his years devoted to researching and studying the subject the problem facing society today is that half the population is wary of order and morality while the other half is suspicious of liberty which is equated with permissiveness In an in depth analysis that masterfully cuts this Gordian knot the author lays out how we can indeed must have both order and autonomy if we are to create a society in which communities and individuals can thrive Recognizing that excessive morality and excessive liberty are each a dire threat to the health of society Etzioni demonstrates how we have overreacted in recent years by assuming that there must be a tradeoff between morality and freedom However this need not be the case because when order is largely based on moral commitments rather than on the law and autonomy is regarded as a place in a social space these two social virtues can reinforce each other Using this framework Etzioni studies the implications for the future of diversity in America the implications for educating the next generation and our relationships with other societies He also explores the public policy implications of his observations and how governments community groups and families can respond and grow The Monochrome Society Amitai

Etzioni, 2021-02-09 Amitai Etzioni is one of the most influential social and political thinkers of our day a man synonymous with the ideas of communitarianism In this book Etzioni challenges those who argue that diversity or multiculturalism is about to become the governing American creed On the surface America may seem like a fractured mosaic but the country is in reality far more socially monochromatic and united than most observers have claimed In the first chapter Etzioni presents a great deal of evidence that Americans whites and African Americans Hispanics and Asian Americans new immigrants and decedents of the Pilgrims continue to share the same core of basic American values and aspirations He goes on to show that we need not merely a civil but also a good society one that nurtures virtues He assesses key social institutions that can serve such a society ranging from revived holidays to greater reliance on public shaming The most effective sources of bonding and of shared ideas about virtue he insists throughout come from the community not from the state Etzioni also challenges moral relativists who argue that we have no right to impose our moral values on other societies He responds to those who fear that a cohesive community must also be one that is oppressive authoritarian and exclusive And he explores and assesses possible new sources and definitions of community including computer mediated communities and stakeholding in corporations By turns provocative and reassuring the chapters here cut to the heart of several of our most pressing social and political issues The book is further evidence of Etzioni's enduring place in contemporary thought *The Politics of Social Work* Fred W

Powell,2001-05-25 *The Politics of Social Work* provides a major contribution to debates on the politics of social work at the beginning of the 21st Century It locates social work within wider political and theoretical debates and deals with important issues currently facing social workers and the organisations in which they work By setting the current crisis of identity social workers are experiencing in international context Fred Powell analyses the choices facing social work in postmodern society Fred Powell explores in this text contemporary and historical paradigms of social work from its Victorian origins to the development of reformist practice in the welfare state to radical social work responses to social exclusion the renaissance of civil society multiculturalism feminism and anti oppressive practice In conclusion he examines the options facing social work in the 21st century and argues for a civic model of social work based on the pursuit of social justice in an inclusive society

The Active Society Revisited Wilson C. McWilliams,2006 *The Active Society* published in 1968 is the most ambitious book in Amitai Etzioni s remarkable career In this new collection of essays Wilson Carey McWilliams brings together scholars in a range of disciplines to analyze the significance and shortcomings of this important work

The Bloomsbury Encyclopedia of Philosophers in America John R. Shook,2016-02-11 For scholars working on almost any aspect of American thought *The Bloomsbury Encyclopedia to Philosophers in America* presents an indispensable reference work Selecting over 700 figures from the *Dictionary of Early American Philosophers* and the *Dictionary of Modern American Philosophers* this condensed edition includes key contributors to philosophical thought From 1600 to the present day entries cover psychology pedagogy sociology anthropology education theology and political science before these disciplines came to be considered distinct from philosophy Clear and accessible each entry contains a short biography of the writer an exposition and analysis of his or her doctrines and ideas a bibliography of writings and suggestions for further reading Featuring a new preface by the editor and a comprehensive introduction *The Bloomsbury Encyclopedia to Philosophers in America* includes 30 new entries on twenty first century thinkers including Martha Nussbaum and Patricia Churchland With in depth overviews of Waldo Emerson Margaret Fuller Noah Porter Frederick Rauch Benjamin Franklin Thomas Paine and Thomas Jefferson this is an invaluable one stop research volume to understanding leading figures in American thought and the development of American intellectual history

Handbook of the Sociology of Morality, Volume 2 Steven Hitlin,Shai M. Dromi,Aliza Luft,2023-10-25 This handbook articulates how sociology can re engage its roots as the scientific study of human moral systems actions and interpretation This second volume builds on the successful original volume published in 2010 which contributed to the initiation of a new section of the American Sociological Association ASA thus growing the field This volume takes sociology back to its roots over a century ago when morality was a central topic of work and governance It engages scholars from across subfields in sociology representing each section of the ASA who each contribute a chapter on how their subfield connects to research on morality This reference work appeals to broader readership than was envisaged for the first volume as the relationship between sociology as a discipline and its origins in questions of morality is further renewed The

volume editors focus on three areas the current state of the sociology of morality across a range of sociological subfields taking a new look at some of the issues discussed in the first handbook which are now relevant in sometimes completely new contexts and reflecting on where the sociology of morality should go next This is a must read reference for students and scholars interested in topics of morality ethics altruism religion and spirituality from across the social science

The SAGE Encyclopedia of Business Ethics and Society Robert W. Kolb, 2018-03-27 Thoroughly revised updated and expanded The SAGE Encyclopedia of Business Ethics and Society Second Edition explores current topics such as mass social media cookies and cyber attacks as well as traditional issues including accounting discrimination environmental concerns and management The new edition also includes an in depth examination of current and recent ethical affairs such as the dangerous work environments of off shore factories for Western retailers the negligence resulting in the 2010 BP oil spill the gender wage gap the minimum wage debate and increasing income disparity and the unparalleled level of debt in the U S and other countries with the challenges it presents to many societies and the considerable impact on the ethics of intergenerational wealth transfers Key Features Include Seven volumes available in both electronic and print formats contain more than 1 200 signed entries by significant figures in the field Cross references and suggestions for further readings to guide students to in depth resources Thematic Reader s Guide groups related entries by general topics Index allows for thorough browse and search capabilities in the electronic edition

Transfigurations of the European Identity Zsolt Almási, Mike Pincombe, 2014-03-17 European identity is as much a problem as an opportunity Although it is impossible to provide an all encompassing definition of what it means to be European historicising and contextualising this problem may well lead to the clarification and even creation of a European identity This is the contention of this volume which approaches this complex notion from an inter and transdisciplinary perspective examining facets ranging from the citizen to cultural politics from literature to traditional and digital media from the US to China As complex as this idea is this volume will extend the reader s understanding of the timely and promising problematisation of what may be termed European identity

The Social Psychology of Morality Neil J. MacKinnon, 2025-10-07 This incisive book defines and unpacks the concept of morality Neil J MacKinnon summarizes compares and evaluates theories of morality from both psychological and sociological perspectives which as separate disciplines are unable to capture the breadth and complexity of this topic

Communitarianism Henry Tam, 2025-05-01 This thoroughly revised and updated edition of Henry Tam s Communitarianism brings different strands of communitarian thought together into a critical synthesis at the centre of which is the ideal of inclusive communities based on the three principles of mutual responsibility cooperative enquiry and citizen participation Tam shows how communitarian ideas can be applied in practice addressing key problems in social economic and political life with case studies from the state business and voluntary sectors to demonstrate how we can more effectively respond to the major problems facing society With key pedagogical features including a timeline of the emergence of key communitarian ideas diagrams illustrating

conceptual differences relating to communitarian authoritarian and individualist thinking and a selection of global case studies and further readings this is the authoritative guide to the theory and practice of Communitarianism
