New Guinea Crossing Boundaries And History:

New Guinea Clive Moore, 2003-07-31 New Guinea the world's largest tropical island is a land of great contrasts ranging from small glaciers on its highest peaks to broad mangrove swamps in its lowlands and hundreds of smaller islands and coral atolls along its coasts Divided between two nations the island and its neighboring archipelagos form Indonesia's Papua Province or Irian Jaya and the independent nation of Papua New Guinea both former European colonies Most books on New Guinea have been guided by these and other divisions separating east from west prehistoric from historic precontact from postcontact colonial from postcolonial This is the first work to consider New Guinea and its 40 000 year history in its entirety The volume opens with a look at the Melanesian region and argues that interlocking exchange systems and associated human interchanges are the invisible government through which New Guinea societies operate Succeeding chapters review the history of encounters between outsiders and New Guinea's populations They consider the history of Malay involvement with New Guinea over the past two thousand years demonstrating the extent to which west New Guinea in particular was incorporated into Malay trading and raiding networks prior to Western contact The impact of colonial rule economic and social change World War II decolonization and independence are discussed in the final chapter

Capital Punishment, Clemency and Colonialism in Papua New Guinea, 1954-65 Murray Chisholm, 2024-07-02 This study builds on a close examination of an archive of files that advised the Australian Commonwealth Executive on Papua New Guineans found guilty of capital offences in PNG between 1954 and 1965 These files provide telling insight into conceptions held by officials at different stages of the justice process into justice savagery and civilisation and colonialism and Australia's role in the world The particular combination of idealism and self interest liberalism and paternalism and justice and authoritarianism axiomatic to Australian colonialism becomes

apparent and enables discussion of Australia's administration of PNG in the lead up to the acceptance of independence as an immediate policy goal. The files show Australia gathering the authority to grant mercy into the hands of the Commonwealth and then devolving it back to the territories. In these transitions the capital case review files show the trajectory of Australian colonialism during a period when the administration was unsure of the duration and nature of its future relationship with PNG.

The Queensland Caesar Denver Beanland, 2013. This new book provides a fresh analysis of Queensland during the colonial era. It provides new insights into Queensland's past. Sir Thomas McIlwraith thundered across Queensland's political and business landscape for 30 years. The three times Premier took bold and audacious actions and had the energy and motivation to drive not only the colony's economic development but also his own business enterprises. The biography analyses McIlwraith's progressive beliefs in economic development, European settlement, railways, responsible government, nationalism, federation, republicanism, defence and foreign policy issues that are as relevant today as they were in the colonial era. The publication narrates the history of one of Queensland's great political figures, charting the trials and tribulations of arguably one of the most significant Scotsmen to come to the Antipodes. Modern-day historians have presented McIlwraith as a larger-than-life conservative entrepreneur rather than a classical *laissez faire* liberal who strived to make Queensland the premier colony of Australia.

West New Guinea Dylan Gaffney, Marlin Tolla, 2025-02-20. This book explores the human past in West New Guinea, otherwise known as Indonesian Papua, West Papua or Irian Jaya. The western part of New Guinea and its surrounding islands were critical for the early peopling of the Pacific region over 50,000 years ago when *Homo sapiens* moved out of Africa and into Asia, seafaring through the islands of Wallacea as far as New Guinea, the Bismarck Archipelago and the Solomon Islands. After arriving on the shores of West New Guinea, people adapted to diverse environments including coral reefs, tropical rainforests, swamps, montane cloud forests and savannah grasslands. Over millennia, people transformed these habitats by burning and cutting the forests, translocating plants and animals and managing access to resources. Food production later emerged in the region as the global climate warmed up around 10,000 years ago. Between 4000-3000 years ago, the Austronesian languages began to enter West New Guinea, with its speakers settling around the coasts and offshore islands. New forms of exchange connected people and particularly within the last 2000 years drew West New Guinea into global networks. The objects produced and traded at ethnographic contact, like pottery, stone axes, string bags, shell ornaments and wooden carvings, can be informative about these networks but they are increasingly changing as people navigate and transform their material worlds in the present. The examination of these objects in museums not only casts light on their makers, traders and collectors but also highlights the ongoing connections that Papuans have with their material culture in the twenty-first century. The 22 chapters in this book contribute novel perspectives and critical data on each of these themes. The authors come from archaeology, social anthropology, biological anthropology, linguistics, museology, palaeoecology and beyond. They write about a wide array of West New Guinea's regions, including the highlands, north and south coasts. Bird's

Head Peninsula Cenderawasih Bay and the Raja Ampat Islands **Hunting the Collectors** Susan Cochrane, Max Quanchi, 2014-11-10 This volume investigates Pacific collections held in Australian museums art galleries and archives and the diverse group of 19th and 20th century collectors responsible for their acquisition The nineteen essays reveal varied personal and institutional motivations that eventually led to the conservation preservation and exhibition in Australia of a remarkable archive of Pacific Island material objects art and crafts photographs and documents Hunting the Collectors benchmarks the importance of Pacific Collections in Australia and is a timely contribution to the worldwide renaissance of interest in Oceanic arts and cultures The essays suggest that the custodial role is not fixed and immutable but fluctuates with the perceived importance of the collection which in turn fluctuates with the level of national interest in the Pacific neighbourhood This cyclical rise and fall of Australian interest in the Pacific Islands means many of the valuable early collections in state and later national repositories and institutions have been rarely exhibited or published But as the authors note enthusiastic museum anthropologists curators collection managers and university based scholars across Australia and worldwide have persisted with research on material collected in the Pacific This volume is a very important one for anyone studying the art and material culture of the Pacific It focuses on collections now in Australia Even those well versed in museum collections from the Pacific will learn about many important but little known collectors as well as better known figures like the anthropologists F E Williams and Thomas Farrell the husband of Queen Emma This will be a treat for students and specialist alike Professor Robert L Welsch University of Dartmouth Oceania: The Shape of Time Maia Nuku, 2023-05-31 The visual arts of Oceania tell a wealth of dynamic stories about origins ancestral power performance and initiation This publication explores the deeply rooted connections between Austronesian speaking peoples whose ancestral homelands span Island Southeast Asia Australia Papua New Guinea and the island archipelagoes of the northern and eastern Pacific Unlike previous books it foregrounds Indigenous perspectives alongside multidisciplinary research in art history ethnography and archaeology to provide an intimate look at Oceania its art and its culture Stunning new photography highlights more than 130 magnificent objects ranging from elaborately carved ancestral figures in ceremonial houses towering slit drums and dazzling turtle shell masks to polished whale ivory breastplates Underscoring the powerful interplay between the ocean and its islands and the ongoing connection with spiritual and ancestral realms Oceania The Shape of Time presents an art focused approach to life and culture while guiding readers through the artistic achievements of Islanders across millennia **Ancestral Lines** John Barker, 2016-04-05 This compelling ethnography offers a nuanced case study of the ways in which the Maisin of Papua New Guinea navigate pressing economic and environmental issues Beautifully written and accessible to most readers Ancestral Lines is designed with introductory cultural anthropology courses in mind Barker has organized the book into chapters that mirror many of the major topics covered in introductory cultural anthropology such as kinship economic pursuit social arrangements gender relations religion politics and the environment The second edition

has been revised throughout with a new timeline of events and a final chapter that brings readers up to date on important events since 2002 including a devastating cyclone and a major court victory against the forestry industry **Serendipity** Brij V. Lal, Doug Munro, 2024-02-29 The second generation of Pacific historians who began their careers in the 1970s and 1980s is gradually fading from the academic scene They have made fundamental contributions to the field of Pacific history enduring in their impact and the identity of the discipline is now firmly established This volume is not so much about their individual research but rather their improbable journeys into Pacific history why and how they came to it in the first place Almost without exception they did not choose Pacific history but rather stumbled into the field through serendipity They came from forays into African Indian East Asian French British imperial and other fields and were enticed into Pacific history through chance or the efforts of kindly mentors All this is evident in the values and understandings they bring to the subject The one commonality that binds them is a love of the islands that have been the center of their lifetime work Many distinguished Pacific historians of the last four to five decades are represented in this collection **Serendipity** presents fourteen autobiographical chapters in which the contributors trace their paths as Pacific historians They offer their sources of inspiration supporters and publications that shaped them as historians With a significant focus on the importance of teaching and mentoring that they both received and provided their writing not only illuminates their lives but the state of Pacific history as an academic field The experiences of the contributors are moving replete with sorrows and regrets as well as of achievements and satisfactions Part of these careers were spent working in areas other than scholarship such as high school teaching consultancies volunteering teaching English as a second language or doing menial jobs just to keep going **Serendipity** is a pathbreaking form of historiography and essential to the Pacific history field **Robert Louis Stevenson's Pacific Impressions** Carla Manfredi, 2018-11-11 This book tackles photography's role during Robert Louis Stevenson's travels throughout the Pacific Island region and is the first study of his family's previously unpublished photographs Cutting across disciplinary boundaries the book integrates photographs with letters non fiction and poetry and includes much unpublished material The original readings of photographs and non fiction highlight Stevenson's engagement with colonial ideology and reality and advance new arguments about Victorian travel settlement and colonialisms in the Pacific Like the Stevensons the book moves from the Marquesas to the atolls of the Gilbert Islands in Micronesia from the Kingdom of Hawaii's political ambitions to Samoan plantations and the Stevensons' settlement at Vailima Central to this study is the notion that Pacific history and Pacific Island cultures matter to the interpretation of Stevenson's work and a rigorous historical and cultural contextualization ensures that local details structure literary and photographic interpretation The book's historical grounding is key to its insightful conclusions regarding travel settlement photography and colonialism
