Key Geography New Basics Tony Bushell, 2004 Resources and activities to develop literacy skills and improve learning Revised and updated materials and examples in the existing chapters

Key Geography Extensions David Waugh, David Gardner, 1999 Written as a resource for more able pupils this book offers challenging material that develops the existing series It is an extension that develops a higher level of skill in both range and depth links exercises and case studies to Internet sites and ICT activities encourages the study of themes and places to more depth has an increased amount of text and uses a higher level geographical vocabulary offers greater opportunities for individual research oral work and discussion and increases the opportunities for the development of values and attitudes

Scottish Edition David Waugh, Tony Bushell, Chris Peyton, Alasdair Mclelland, 2000 Fully compliant with the new Scottish Curriculum Teachers can rely on the accurate content of the text developed by practising Scottish Geography teachers Case studies of selected countries including the brand new Scotland section can be used at S1 and S2 study Dedicated website with support materials relevant links and activities

Global Perspectives in the Geography Curriculum Alex Standish, 2008-10-07 For geographers across the globe this book provides the arguments for a return to the teaching of geography and why they should reject the politicisation of the subject by education policy makers and politicians Standish's

careful critique shows the necessity of a depoliticised geography curriculum the irony of which would be that it would ensure that every child could point to Iraq Iran and Afghanistan on a map Prof Dennis Hayes Oxford Brookes University UK A prescient and critical analysis of the changing face of geography teaching This book deserves to be widely read and debated Alex Standish s book puts current trends in geography teaching in historical and critical context It comprises a forthright and timely defence of geographical education for its own sake Dr Jim Butcher FRSA Department of Sport Science Tourism and Leisure Canterbury Christ Church University Since the early 1990s educational policy makers and some subject leaders have been seeking to fundamentally change the teaching of geography in UK and US schools from a subject which encourages students to explore spatial concepts ideas and skills to a more ethics based subject concerned with the promotion of environmentalism cultural diversity and social justice In this book the new approach is critically examined within a historical and ideological context addressing a number of fundamental questions Should geography be used as a tool for the delivery of citizenship ideals How does this affect the intellectual and moral value of geographical education for young people If the state and teachers are taking more responsibility for the values attitudes and emotional responses of students how will they learn to develop these qualities for themselves If global perspectives shift the focus of education from learning about the outside world to learning about the self what is its vision of social progress and conception of social change This book advocates a return to liberal models of education arguing that the new approach to geography currently being promoted for schools fundamentally undermines the educational value of the subject and the freedom of young people to shape the world in which they live A vital resource for teachers and student teachers alike Global Perspectives in the Geography Curriculum makes a significant contribution to the growing debate about the future direction of the discipline itself **New Basics** Tony Bushell, 2004 Well chosen photocopiable materials save time in lesson preparation Less able pupils can spend more time on the real geographical element of the lesson Students can compile a folder of work with the worksheets enabling them to monitor their own progress Encouraging and spacious layout increases confidence of less able learners Pupil friendly design encourages concentration and the attainment of measurable outcomes
