New Left Thought An Introduction:

The New Left Allan C. Brownfeld, United States. Congress. Senate. Committee on the Judiciary. Subcommittee to Investigate the Administration of the Internal Security Act and Other Internal Security Laws, 1968 **History and the New Left** Paul Buhle, 1991-02-27 Madison Wisconsin has long been known as a dynamic cultural center and focus of political intellectual ferment in the middle of America This collection of essays and interviews traces the rise of an intellectual New Left from 1950 to 1970 as experienced by activists and scholars with ties to the University of Wisconsin Its thirty two contributors including prominent historians journalist scholars and veteran political activists re examine their own personal histories in different eras and draw fresh often surprising conclusions The city and campus of Madison provide a veritable laboratory for the study of deep continuities in American dissenting thought Photographs and cultural documents accompany these poignant candid oral histories The volume explores a crucial period of Madison s intellectual life as a crossroad of history and culture Interviews with the scholars and former students who politicized historical analysis in light of the Cold War McCarthyism nuclear and environmental holocaust civil rights and the Vietnam War recall the debates and alliances that kept Madison in a state of ferment Author note Paul Buhle is Director of the Oral History of the American Left Project at the Tamiment Library of New York University and teaches U S History at the Rhode Island School of Design Why War? Ideology, Theory, and History Keith L. Nelson, Spencer C. Olin, 2023-09-01 Instead of proposing another theory of war their goal is a more modest one of raising the theoretical consciousness of historians Specifically they argue that 1 ideology does influence theory 2 historians do have ideologies as well as theories about which they are not always conscious or consistent and 3 we can better understand compare and evaluate what historians are saying when we comprehend their ideological and theoretical perspectives They attempt then to classify historical interpretations of war according to their ideological theoretical orientations however covert Perspective Nelson and Olin are concerned with enhancing history s social utility by advancing its capacity to produce generalizations that can explain or predict events and are subject to empirical testing Their exploration of historical generalization focuses on an issue itself of the highest importance the causes of war but their aim is also to create a model for historical generalization applicable to other issues They argue that to understand generalizations in history one must recognize their roots in theory and that historians theories in turn proceed from their own ideologies To demonstrate they survey theories about the causes of war that have come out of conservative liberal and radical ideologies any historian will profit from this rigorous approach to the problem Choice Learned and suggestive this book clarifies much of what is already known and points toward new ways of understanding Library Journal Instead of proposing another theory of war their goal is a more modest one of raising the theoretical consciousness of historians Specifically they argue that 1 ideology does influence theory 2 historians do have ideologies as well as theories *China and New Left Visions* Jie Lu, Ban Wang, 2012-07-20 Against the dire consequences of China s market development a new intellectual force of the New Left has

come on the scene since the mid 1990s New Left intellectuals debate the issues of social justice distributive equality markets state intervention the socialist legacy and sustainable development Against the neoliberal trends of free markets liberal democracy and consumerism New Left critics launched a critique in hopes of seeking an alternative to global capitalism This volume takes a comprehensive look at China's New Left in intellectual cultural and literary manifestations The writers place the New Left within a global anti hegemonic movement and the legacy of the Cold War They discover grassroots literature that portrays the plight and resilience of the downtrodden and disadvantaged With historical visions the writers also shed light on the present by drawing on the socialist past

American Left Rhodri Jeffreys-Jones, 2013-10-31 Only the American right has ever really recognised the potency of the American left Now Rhodri Jeffreys Jones fully details the left's numerous achievements including the welfare state opposing militarism reshaping of American culture black rights a

The New Left and Labor in 1960s Peter B. Levy, 2024-04-22 It is a powerful story the relationship between the 1960s New Left and organized labor was summed up by hardhats confronting students and others over US involvement in Vietnam But the real story goes beyond the Love It or Leave It signs and melees involving blue collar types attacking protesters Peter B Levy challenges these images by exploring the complex relationship between the two groups Early in the 1960s the New Left and labor had cooperated to fight for civil rights and anti poverty programs But diverging opinions on the Vietnam War created a schism that divided these one time allies Levy shows how the war combined with the emergence of the black power movement and the blossoming of the counterculture drove a permanent wedge between the two sides and produced the polarization that remains to this day

Making Peace with the 60s David Burner, 2021-07-13 David Burner's panoramic history of the 1960s conveys the ferocity of debate and the testing of visionary hopes that still require us to make sense of the decade He begins with the civil rights and black power movements and then turns to nuanced descriptions of Kennedy and the Cold War the counterculture and its antecedents in the Beat Generation the student rebellion the poverty wars and the liberals war in Vietnam As he considers each topic Burner advances a provocative argument about how liberalism self destructed in the 1960s In his view the civil rights movement took a wrong turn as it gradually came to emphasize the identity politics of race and ethnicity at the expense of the vastly more important politics of class and distribution of wealth The expansion of the Vietnam War did force radicals to confront the most terrible mistake of American liberalism but that they also turned against the social goals of the New Deal was destructive to all concerned Liberals seemed to rule in politics and in the media Burner points out yet they failed to make adequate use of their power to advance the purposes that both liberalism and the left endorsed And forces for social amelioration splintered into pairs of enemies such as integrationists and black separatists the social left and mainline liberalism and advocates of peace and supporters of a totalitarian Hanoi Making Peace with the 60s will fascinate baby boomers and their elders who either joined denounced or tried to ignore the counterculture It will also inform a broad audience of younger people about the famous political and literary figures of the

time the salient moments and above all the powerful ideas that spawned events from the civil rights era to the Vietnam War Finally it will help to explain why Americans failed to make full use of the energies unleashed by one of the most remarkable decades of our history

Motherhood Reconceived Lauri Umansky,1996-08 From the early days of second wave feminism motherhood and the quest for women s liberation have been inextricably linked And yet motherhood has at times been viewed by anti feminists and select feminists alike as somehow at odds with feminism In reality feminists have long treated motherhood as an organizing metaphor for women s needs and advancement The mother has been regarded with suspicion at times deified at others but never ignored The first book devoted to this complex relationship Motherhood Reconceived examines in depth how the realities of motherhood have influenced feminist thought Bringing to life the work of a variety of feminist writers and theorists among them Jane Alpert Mary Daly Susan Griffin Adrienne Rich and Dorothy Dinnerstein Umansky situates feminist discourses of motherhood within the social and political contexts of the 1960s Charting an increasingly favorable view of motherhood among feminists from the late 1960s through the 1980s Umansky reveals how African American feminists sought to redefine black nationalist discourses of motherhood a reworking subsequently adopted by white radical and socialist feminists seeking to broaden the racial base of their movement Noting the cultural left s conflicted relationship to feminism that is the concurrent demand for individual sexual liberation and the desire for community Umansky traces that legacy through various stages of feminist concern about motherhood early critiques of the nuclear family tempered by strong support for day care an endorsement of natural childbirth by the women s health movement of the early 1970s white feminists attempt to forge a multiracial movement by declaring motherhood a universal bond and the emergence of psychoanalytic feminism ecofeminism spiritual feminism and the feminist anti pornography movement
