Constructing Adolescence in Fantastic Realism Alison Waller, 2010-12-22 Constructing Adolescence in Fantastic Realism examines those fundamental themes which inform our understanding of the teenager themes that emerge in both literary and cultural contexts Models of adolescence do not arise solely from discourses of psychology sociology and education Rather these models frameworks including developmentalism identity formation social agency and subjectivity in cultural space can also be found represented symbolically in fantastic tropes such as metamorphosis time slip hauntings doppelgangers invisibility magic gifts and witchcraft These are the incredible supernatural and magical elements that invade the everyday and diurnal world of fantastic realism In this original study Alison Waller proposes a new critical term to categorize a popular and established genre in literature for teenagers young adult fantastic realism Though fantastic realism plays a crucial part in the short history of young adult literature up until now this genre has typically been overlooked or subsumed into the wider class of fantasy Touching on well known authors including Robert Cormier Melvin Burgess Gillian Cross Margaret Mahy K M Peyton and Robert Westall as well as previously unexamined writers Waller explores the themes and ideological perspectives embedded in fantastic realist novels in order to ask whether parallel realities and fantastic identities produce forms of adolescence that are dynamic and subversive One of the first studies to deal with late twentieth century fantastic literature for young adults this book makes a valuable contribution to our understanding of adult attitudes toward adolescent identity

Windmill Terry Maag, 2001-04-03 Greg is a rancher in the western United States Burdened by generational alcoholism he struggles to achieve personal happiness and at the same time hold it together with his family and friends It is not without casualties to some of the characters in the book In Windmill the men and women are searching for personal freedom In America freedom is guaranteed but the methods and means of how to achieve it inevitably clash People from different parts of the country have different ideas and being compelled to search for freedom each has to suffer the setbacks that life has to offer On the surface life in the west seem more forgiving more laid back But in the end no one is guaranteed to find the easy road Freedom is not easy for those living it Like the windmill constantly being driven by the impeller of the wind life is the impeller that drives the characters in this book Each has to reach deep within to withstand the adult circumstances they are responsible for putting themselves in Through our own actions sometimes life comes to a standstill The impeller of life is a driving force And like the windmill if the wind stops or water below dries up the living are abandoned to fend for themselves If we are lucky time will restart our dynamos If the people in the story are to survive the forces of nature must be discovered without as well as within There are many versions of the living yet in function they seem all alike Living in the modern west forces choices between retaining what is thought of as good and yet bending to what has become designated as progress In the end are we able to take charge and judge or must

we simply take what the wind and water has to offer and make the best of it Only our characters know for sure Windmill Land Allen Clarke,1918

Diversity and Inclusion in Young Adult Publishing, 1960-1980 Karen Sands-O'Connor,2022-10-27 This Element examines the early years of British Young Adult YA publishing at three strategic publishing houses Penguin Heinemann and Macmillan Specifically it discusses their YA imprints Penguin Peacocks Heinemann New Windmills and Macmillan Topliners all created at a time when the population of Britain was changing and becoming more diverse Migration of colonial and former colonial subjects from the Caribbean India and Africa contributed to a change in the ethnic makeup of Britain especially in major urban centres such as London Birmingham and Manchester While publishing has typically been seen as slow to respond to societal changes in children s literature all three of these Young Adult imprints attempted to address and include Black British and British Asian readers and characters in their books ultimately however their focus remained on white readers concerns *Harvest the Wind* Philip Warburg,2012-04-17 Winds sweeping through the Great Plains once robbed the Farm Belt of its future stripping away overworked topsoil and creating the dreaded Dust Bowl of the 1930s Today those winds are bringing new hope to the declining rural communities of the central United States Nowhere is wind s promise more palpable than in Cloud County Kansas where the soaring turbines of the Meridian Way Wind Farm are boosting incomes and bringing green jobs to a community that has for decades watched its children drift away In *Harvest the Wind* Philip Warburg brings readers face to face with the people behind the green economy powered resurgence in Cloud County and communities like it across the United States This corner of Kansas is the first stop on an odyssey that introduces readers to farmers factory workers biologists and high tech entrepreneurs all players in a transformative industry that is taking hold across America and around the globe In this illuminating book Warburg reveals both the remarkable growth of a breakthrough technology and the formidable challenges it faces He visits epicenters of anti wind opposition as well as communities that have embraced wind farms as neighbors He guides readers through an Iowa turbine assembly plant that is struggling to compete in a global marketplace dominated by European and Chinese manufacturers And he looks at the thousands of miles that wind generated power will need to travel to reach American consumers *Harvest the Wind* is an earthly antidote to loftier treatises on global warming and green energy By showing us how practical solutions are being implemented at the local level Warburg offers an inspirational look at how we can all pursue a saner and more sustainable energy future while at the same time investing in the nation s infrastructure and jumpstarting its economy *Wind Power in China* Julia Kirch Kirkegaard,2018-11-12 Whilst China s growing economy is widely regarded as being responsible for severe environmental degradation and a high reliance on energy from fossil fuels China is emerging as a potential leader in new green energy technologies Outlining the extraordinary growth in China s wind

power capacity since 2005 this book explores the deliberate creation of a whole industry and the strategy of transitioning the power sector to renewable energy by accelerated experimentation and through literally pushing the emerging wind power sector to its limits Investigating how wind power may not always be considered as sustainable in a wider Chinese developmental context the book traces the struggle China has had in getting this high technology sector to qualify as truly Chinese scientific development whilst often being opaquely at the mercy of foreign expertise technology and certification The book furthermore exposes the surprising nuances dynamics and potency of unexpected players in Chinese wind power marketisation Complex interplays are revealed between wind turbine control systems algorithms in critical software technology relationships between suppliers wind farm developers financiers the electrical grid itself the coal lobby the broader Chinese state and much more The book has important implications far beyond wind power and contemporary China studies highlighting the much wider story of China's fragmented and experimental style of innovating upgrading and greening

Insanity and Genius Harry Eiss, 2014-06-02 In his book about the discovery of the structure of DNA, James Watson wrote, "So we had lunch telling ourselves that a structure this beautiful just had to exist. Indeed, the quest most often asked by scientists about a scientific theory is, 'Is it beautiful? Yes, beauty equals truth.' Scientists know, mathematicians know. But the beauties, the truths of mathematics and science were not the truths that inspired the author as a child, and he intuitively knew that the truths he needed come from a different way of knowing, a way of knowing not of the world of logic and reason and explanation, though they have a value, but rather a way of knowing that is of the world, expression, a world that enters the truths beyond the grasp of logic. That is what this book is all about. It is an exploration of the greatest minds of human existence struggling to understand the deepest truths of the human condition. This second edition updates the previous one, incorporating new publications on Van Gogh, recent discoveries in neurology, psychology, and the rapid developments in understanding DNA and biotechnology. We've come a long way already from that original discovery by Watson and his coauthor Francis Crick."

Cafe Wisconsin Joanne Raetz Stuttgen, 2004 Cafe Wisconsin returns in a new updated version that provides a sure bet guide to Wisconsin's best small town home cooking cafes. For this second edition, author Joanne Raetz Stuttgen traveled more than 12,000 miles in six months, revisiting old business districts and main streets in search of the ultimate cafe, the perfect slice of homemade pie, and the meaning of life in Wisconsin's down-home cafes. Featuring 133 cafes with another 101 Next Best Bets alternatives, Cafe Wisconsin is every hungry traveler's guide to real mashed potatoes, melt in your mouth hot beef from scratch baked goods, and colorful coffee klatches.
