

An abstract painting featuring a large, pale, and somewhat featureless face in the center, looking upwards. The face is set against a background of swirling colors, including deep blues, purples, and blacks, with streaks of yellow and red. The overall composition suggests a dreamlike or surreal cityscape, possibly representing Manhattan as mentioned in the title. The texture of the paint is visible, giving it a layered, almost sculptural quality.

New York Manhattan Changing Times:

Changing Times ,1991 *The New York Times Index* ,1927 The New Brooklyn Kay S. Hymowitz,2017-01-22

Featured in The New York Times Book Review Only a few decades ago the Brooklyn stereotype well known to Americans was typified by television programs such as The Honeymooners and Welcome Back Kotter comedies about working class sensibilities deprivation and struggles Today the borough across the East River from Manhattan is home to trendsetters celebrities and enough 1 percenters to draw the Occupy Wall Street protests across the Brooklyn Bridge Tres Brooklyn has become a compliment among gourmands in Parisian restaurants In The New Brooklyn Kay Hymowitz chronicles the dramatic transformation of the once crumbling borough Devoting separate chapters to Park Slope Williamsburg Bed Stuy and the Brooklyn Navy Yard Hymowitz identifies the government policies and young educated white and black middle class enclaves responsible for creating thousands of new businesses safe and lively streets and one of the most desirable urban environments in the world Exploring Brownsville the growing Chinatown of Sunset Park and Caribbean Canarsie Hymowitz also wrestles with the question of whether the borough s new wealth can lift up long disadvantaged minorities and the current generation of immigrants many of whom will need more skills than their predecessors to thrive in a postindustrial economy The New Brooklyn s portraits of dramatic urban transformation and its sometimes controversial effects offers prescriptions relevant to phoenix cities coming back to life across the United States and beyond its borders Wastelanding Traci Brynne Voyles,2015-05-15 Wastelanding tells the history of the uranium industry on Navajo land in the U S Southwest asking why certain landscapes and the peoples who inhabit them come to be targeted for disproportionate exposure to environmental harm Uranium mines and mills on the Navajo Nation land have long supplied U S nuclear weapons and energy programs By 1942 mines on the reservation were the main source of uranium for the top secret Manhattan Project Today the Navajo Nation is home to more than a thousand abandoned uranium sites Radiation related diseases are endemic claiming the health and lives of former miners and nonminers alike Traci Brynne Voyles argues that the presence of uranium mining on Din Navajo land constitutes a clear case of environmental racism Looking at discursive constructions of landscapes she explores how environmental racism develops over time For Voyles the wasteland where toxic materials are excavated exploited and dumped is both a racial and a spatial signifier that renders an environment and the bodies that inhabit it pollutable Because environmental inequality is inherent in the way industrialism operates the wasteland is the other through which modern industrialism is established In examining the history of wastelanding in Navajo country Voyles provides an environmental justice history of uranium mining revealing how just as civilization has been defined on and through savagery environmental privilege is produced by portraying other landscapes as marginal worthless and pollutable Bridges for Changing Times Linda A.
