languages of the deaf some signs can meaningfully point toward things or can be meaningfully placed in the space ahead of the signer This obligatory part of fluent grammatical signing has no parallel in vocally produced languages This book focuses on American Sign Language to examine the grammatical and conceptual purposes served by these directional signs It guides the reader through ASL grammar the different categories of directional signs the types of spatial representations signs are directed toward how such spatial conceptions can be represented in mental space theory and the conceptual purposes served by these signs The book demonstrates a remarkable integration of grammar and gesture in the service of constructing

meaning These results also suggest that our concept of language has been much too narrow and that a more comprehensive look at vocally produced languages will reveal the same integration of gestural gradient and symbolic elements *Knack American Sign Language* Suzie Chafin,2009-08-04 While learning a new language isn't a knack for everyone *Knack American Sign Language* finally makes it easy The clear layout succinct information and topic specific sign language partnered with high quality photos enable quick learning By a bilingual author whose parents were both deaf and photographed by a design professor at the leading deaf university Gallaudet it covers all the basic building blocks of communication It does so with a view to each reader's reason for learning whether teaching a toddler basic signs or communicating with a deaf coworker Readers will come away with a usable knowledge base rather than a collection of signs with limited use 450 full color photos *American Sign Language* Intended for people who can hear Can be used with babies and young children [One Trick for One Treat: Sign Language for Numbers](#) Dawn Babb Prochovnic,2012-01-01 Story Time with Signs Rhymes presents playful stories for read aloud fun This rhythmic tale invites readers to chant along and learn American Sign Language signs for the numbers one through ten Bring a new dynamic finger play experience to your story time Aligned to Common Core Standards and correlated to state standards Looking Glass Library is an imprint of Magic Wagon a division of ABDO [Sign Language](#) Roland Pfau,Markus Steinbach,Bencie Woll,2012-08-31 Sign language linguists show here that all questions relevant to the linguistic investigation of spoken languages can be asked about sign languages Conversely questions that sign language linguists consider even if spoken language researchers have not asked them yet should also be asked of spoken languages The HSK handbook *Sign Language* aims to provide a concise and comprehensive overview of the state of the art in sign language linguistics It includes 44 chapters written by leading researchers in the field that address issues in language typology sign language grammar psycholinguistics neurolinguistics sociolinguistics and language documentation and transcription Crucially all topics are presented in a way that makes them accessible to linguists who are not familiar with sign language linguistics **Linguistics of American Sign Language** Clayton Valli,Ceil Lucas,2000 New 4th Edition completely revised and updated with new DVD now available ISBN 1 56368 283 4 **Pocket Genius American Sign Language** DK,2025-03-18 Start learning American Sign Language ASL with this guide to the most essential everyday ASL phrases and words If you are a parent looking for an accessible guide to ASL basics for your hearing child then look no further than *Pocket Genius American Sign Language* Perfect for our young readers aged 8-12 this guide combines clear step by step illustrations with simple to the point instructions for signing words phrases and sentences in ASL This compact ASL guide for children offers A pocket sized but detailed guide fitting all the important information into one small package Easy to follow chapters and information suitable for children aged 8 supported by simple illustrations instructions and top tips to learn ASL Clear step by step illustrations make it easy to practice and master each sign This *Pocket Genius* series is perfect for all hearing children whether they are young readers just beginning to explore ASL or little geniuses who are experts
