Servant Leadership and Moral Courage in Canadian Nursing Lawrence Onwuegbuchunam, 2020-03-13 This book explored the empirical works on servant leadership and underscored the qualities of servant leadership such as empathy listening awareness healing conceptualization stewardship persuasion foresight building community and commitment to the growth of people as better aligned with the values of Canadian nursing practice among other leadership styles and theories Although the origin of the phrase servant leadership was coined by Robert Greenleaf in 1977 it is a fundamental flaw not to mention that the qualities and values of servant leadership model have been in existence in nursing from time immemorial The philosophy of servant leadership is not fundamentally and essentially both distant and distinct from what nurses do in their care of patients Since servant leadership is grounded in ethical and moral principles this book explored the practicality and the relevancy of servant leadership as well as the role of moral courage in creating healthy workplace that could transform both Canadian nursing practice and Canadian healthcare system
