considerations into care **Overwhelmed** Brigid Schulte, 2014-03-13 _____ Too much to do Stop and read this Guardian For a fresh take on an eternal dilemma Overwhelmed is worth a few hours of any busy woman's life if only to ensure that she doesn't drop off the bottom of her own To Do list Mail on Sunday _____ In her attempts to juggle work and family life Brigid Schulte has baked cakes until 2 a.m. frantically but surreptitiously sent important emails during school trips and then worked long into the night after her children were in bed Realising she had become someone who constantly burst in late trailing shoes and schoolbooks and biscuit crumbs she began to question like so many of us whether it is possible to be anything you want to be have a family and still have time to breathe So when Schulte met an eminent sociologist who studies time and he told her she enjoyed thirty hours of leisure each week she thought her head was going to pop off What followed was a trip down the rabbit hole of busy-ness a journey to discover why so many of us find it near impossible to press the pause button on life and what got us here in the first place Overwhelmed maps the individual historical biological and societal stresses that have ripped working mothers and fathers' leisure to shreds and asks how it might be possible for us to put the pieces back together Seeking insights answers and inspiration Schulte explores everything from the wiring of the brain and why workplaces are becoming increasingly demanding to worldwide differences in family policy how cultural norms shape our experiences at work our unequal division of labour at home and why it's so hard for everyone but women especially to feel they deserve an elusive moment of peace _____ Every parent every caregiver every person who feels besieged by permanent busyness must read this book Anne Marie Slaughter author of Why Women Still Can't Have It All *Forecast*, 1925 **Block Granting Medicaid** Edward Alan Miller, 2013-11-12

Medicaid is the largest grant-in-aid program in the United States Reform in this area therefore provides a unique opportunity to study the intersection between federal and state policy making in an area recently characterized by substantial uncertainty deriving from the lingering effects of the Great Recession ongoing debate over the federal budget and implementation of the Patient Protection and Affordable Care Act Invariably states reform the way health care is delivered regulated and financed within broader parameters established by federal statutes and regulations It is critical therefore that

effective strategies be put into place if both current and future health and long term care reform efforts are to have their greatest chances at success Rhode Island is the first state to receive permission to operate its entire Medicaid program under a global cap As a consequence it has entered the national consciousness as a key data point potentially supporting the block grant approach to Medicaid reform In this book Edward Alan Miller identifies factors that either facilitated or impeded the design and implementation of Rhode Island's Global Consumer Choice Compact Medicaid Waiver in order to draw broader lessons for the Medicaid block grant debate and health and long term care reform more generally Evidence gathered from archival sources and in depth interviews with key stakeholders exposes the role that provider capacity has played in the implementation process including adult day care assisted living home maker and other home and community based services The impact of the Global Waiver on the nursing home sector is examined as well in addition to new authority to obtain federal matching dollars for previously state only funded programs By providing a sophisticated understanding of factors enhancing or impeding state health reform this book will contribute to improvements in the development and administration of policy development at both the state and federal levels
