Nursing Care For Older Adults Theory And Practice

Robert R. Redfield

Nursing Care For Older Adults Theory And Practice:

Nursing Care of Older Adults Carol A. Miller, 1995 **Nursing Care of Older Adults** Miller, 1999 *Nursing for Wellness in Older Adults* Carol A. Miller, 2009

Now in its Fifth Edition this text provides a comprehensive and wellness oriented approach to the theory and practice of gerontologic nursing. Organized around the author's unique functional consequences theory of gerontologic nursing, the book explores normal age-related changes and risk factors that often interfere with optimal health and functioning to effectively identify and teach health promotion interventions. The author provides research-based background information and a variety of practical assessment and intervention strategies for use in every clinical setting. Highlights of this edition include expanded coverage of evidence-based practice, more first-person stories, new chapters, and clinical tools such as assessment tools recommended by the Hartford Institute of Geriatric Nursing.

Nursing for Wellness in Older Adults Carol A. Miller, 2018-01-10

Publisher's Note: Products purchased from 3rd Party sellers are not guaranteed by the Publisher for quality, authenticity, or access to any online entitlements included with the product.

This text covers the theory and practice of wellness-oriented gerontological nursing, addressing both physiologic and psychosocial aspects of aging. Organized around the author's unique Functional Consequences Theory, the book explores age-related changes as well as the risk factors that often interfere with optimal health and functioning. Key features include:

- NEW Technology to Promote Wellness in Older Adults:** boxes describe examples of technology-based interventions that can be effective for promoting wellness for older adults.
- NEW Interprofessional Collaboration (IPC) material:** which is found in boxes or is highlighted with orange bars in the margins, indicates the responsibilities of nurses to collaborate with other professionals and paraprofessionals in health care and community-based settings when caring for older adults.
- NEW Global Perspective:** boxes provide examples of the various ways in which health care professionals in other countries provide care for older adults.
- NEW Unfolding Patient Stories:** written by the National League for Nursing, are an engaging way to begin meaningful conversations in the classroom. These vignettes, which open each unit, feature patients from Wolters Kluwer's vSim for Nursing Gerontology, co-developed with Laerdal Medical and DocuCare products; however, each Unfolding Patient Story in the book stands alone, not requiring purchase of these products.

For your convenience, a list of these case studies along with their location in the book appears in the Case Studies in This Book section later in this frontmatter.

NEW Transitional Care Unfolding Case Studies: which unfold across Chapters 27 through 29 to illustrate ways in which nurses can provide effective transitional care to an older adult whose progressively worsening condition requires that her needs be met in several settings. For your convenience, a list of these case studies along with their location in the book appears in the Case Studies in This Book section later in this frontmatter.

Updated unfolding case studies illustrate common experiences of older adults as they progress from young old to old old and are affected by combinations of age-related changes and risk factors. Evidence-based information is threaded through the content and summarized in boxes in clinically oriented chapters: Assessment and

intervention guidelines help nurses identify and address factors that affect the functioning and quality of life of older adults Nursing interventions focus on teaching older adults and their caregivers about actions they can take to promote wellness Case studies include content on transitional care interprofessional collaboration and QSEN

Nursing Care of Older Adults Carol A. Miller,1990

Client Education: Theory and Practice Mary A. Miller,Pamella Rae Stoeckel,2024-11-15

Client Education Theory and Practice Fourth Edition teaches nursing students the important skills of patient education and health promotion The authors use their unique Miller Stoeckel Client Education Model as the organizing framework to emphasize the importance of the Nurse Client Relationship and how this relationship is paramount to the success of client education They focus on the key role that nurses play in educating individuals families and groups in clinical settings The updated Fourth Edition addresses the need for health education in nursing by covering the learning process and discussing the needs of clients across the age span The authors thoughtful revision includes updated statistics on chronic diseases and new data on generations Z and Alpha Furthermore they teach students how to work with culturally diverse populations by presenting specific teaching approaches
