Nursing Within a Faith Community Margaret B. Clark, Joanne K. Olson, 2000-06-20 Authors Margaret Clark and Joanne Nelson provide a unique outlook on the theoretical underpinnings for faith community nursing from the perspectives of both theology and nursing Divided into seven sections the book includes topics such as theoretical foundations of parish nursing promoting health in times of transition the process of nursing care within a faith community faith communities promoting images of health and the future of parish nursing Faith Community Nursing Janet Susan Hickman, 2006 This unique text combines traditional parish nursing content with community health nursing methodology coverage of community and faith community assessment and health education and health promotion disease prevention programming Parish Nurses, Health Care Chaplains, and Community Clergy Larry Van De Creek, Sue Mooney, 2012-11-12 Understand the roles of these three unique professions and how collaboration can make each more effective This is the first book to clarify the roles and interprofessional dynamics of these three professions and describe how they can best work together Here you ll find theological perspectives on each profession practice models of collaborative programs and new resources to aid your professional growth In addition this book gives you a thorough historical overview of parish nursing and an introduction to health care chaplaincy as well as insightful analyses of the relationships of clergy and congregation to health care institutions Parish Nurses Health Care Chaplains and Community Clergy Navigating the Maze of Professional Relationships is a vital addition to your reference shelf This unique book written by experts in all three fields provides the necessary background to be an effective parish nurse including information on spiritual formation clinical pastoral education and more instruction on starting a parish health ministry effective ways that the disciplines can work together in congregational health ministries to provide the best possible spiritual care successful practice models that your ministry can emulate an examination of the health care institution s role in forming the spiritual care team resources to use to increase your ministry s effectiveness Parish Nurses Health Care Chaplains and Community Clergy is a must for practitioners educators and students who will be entering these vital professions *Parish Nursing* Mary Elizabeth O'Brien, 2003 Provides an overview of the current state of parish nursing exploring the spiritual call to the parish nursing ministry a spiritual history of parish nursing and the role of the parish nurse as a spiritual companion in health and illness Topics include the parish nurse s own spirituality needs of diverse populations homebound adults and the hospitalised parishioner **Fast Facts for the Faith Community Nurse** Janet Hickman, 2011-06-20 Hickman has developed a great resource for nurses practicing in a faith community or who want to implement a program This is an easy to use tool offering quick access to good information and insights for FCN practice Journal of Christian Nursing Faith community nursing integrates traditional nursing care with the spiritual and emotional needs of individuals as they strive to achieve wellness This easy to use resource for busy nurses provides succinct clinically based coverage of the faith community nursing practice It is based on the American Nursing

Association's ANA Scope and Standards for Practice of Faith Community Nursing and presents the core concepts for establishing, maintaining, and evaluating a nursing practice within a community of faith. The book explains how to assess a faith community and design, implement, and evaluate nursing programs that meet the needs of its different populations across the life span. It explores various faith community nursing models along with their legal and ethical considerations and the different roles available for faith community nurses. Meeting special needs within faith communities: acute care, chronic care, palliative care, grief and loss is addressed, as is serving its wide variety of vulnerable populations: elderly, impoverished, etc. The foundations and practice of faith community nursing are also presented within the context of different faiths, including Christianity, Judaism, Islam, Hinduism, and Buddhism. Ideal in a clinical setting, this book will also be of value as a quick refresher for certifying as a faith community nurse.

Key Features: A consistent, easy-to-use, pocket-sized format with bulleted lists for quick access to content. Provides tools for designing programs for such diverse issues as grief, loss, chronic, devastating illness, palliative care, mental illness, domestic violence, and substance abuse. Addresses faith community nursing practice within Christianity, Judaism, Buddhism, Islam, and Hinduism. Includes management and leadership tips that can be immediately put to use. Presents legal and ethical considerations.

Parish Nursing Verna Carson, 2002-05-01 Parish Nursing presents a vision where nurses can serve as the vital link between secular healthcare and sacred, faith-based systems. Nurses are able to provide direct ministry to members of the congregation and also can be the communicators, teachers, motivators, and encouragers of others. The parish nurse could be a key person to link the two systems and provide truly wholistic care. Reading the stories of parish nurses gives us hope that this vision might be possible; indeed, it must be possible if our aging society is to flourish in the years ahead.

The Role of Companion Animals in Counseling and Psychology Jane K. Wilkes, 2009 The human health benefits derived from relationships with companion animals has attracted an abundance of scientific interest and research. However, there is a need for theoretical conceptualizations in order to understand the healing benefits of human-animal interactions. The goal of this book is to seek these answers and the *OC* how *OCO* and *OC* why *OCO* companion animals play a role in counseling and psychology. In-depth, semi-structured interviews were conducted with three psychologists who use animals in their therapy settings. The focus of these interviews was to determine the experiences of having a companion animal present during therapy sessions. The results revealed that pets in therapy: 1) enhanced the therapeutic alliance/relationship; 2) revived the therapeutic environment; 3) improved professional practice; and 4) created a sense of sacredness. The therapy animals seemed to provide the trust and safety needed for clients to work within the transitional space and that the animals may act as transitional objects for some clients. This book suggests that therapy animals are extremely helpful in providing a sense of safety for traumatized clients and could act as catalysts, especially with defensive and/or detached clients. Unique features include discussion of the domestication of companion animals, research into the human-animal bond, social and psychological support theory, descriptions of methods used, object relations theory, and

Winnicott's Concepts implications for the practice of counseling and psychology professional and ethical considerations and suggestions for future research Replete with informative appendices that will serve as valuable knowledge this book is a significant resource on the subject of animal assisted therapy for mental health professionals such as counselors clinical social workers psychologists and skilled therapists
