QUOTES ON NUTRITION TO LIVE BY FOR A HEALTHY LIFE

“Don't eat anything your great-grandmother wouldn't recognize as food. There are a great many food-like items in the supermarket your ancestors wouldn't recognize as food (Go-Gurt? Breakfast-cereal bars? Non-dairy creamer? Stay away from these.”

– Michael Pollan

“Water is the most neglected nutrient in your diet, but one of the most vital.”

– Julia Child

“Processed foods not only extend the shelf life, but they extend the waistline as well.”

– Karen Sessions

“If we could give every individual the right amount of nourishment and exercise, not too little and not too much, we would have the safest way to health.”

– Hippocrates

“These small things – nutrition, place, climate, recreation, the whole casuistry of selfishness – are inconceivably more important than everything one has taken to be important so far.”

– Friedrich Nietzsche

the WHO monumental advances were made in both theoretical and practical applications of the life sciences including the discovery of life's molecular processes and substantive improvements in global public health and medicine. Combining perspectives from the history of science and world history, this volume examines the impact of major world historical processes of the postwar period on the evolution of the life sciences. Contributors consider the long-term evolution of scientific practice, research, and innovation across a range of fields and subfields in the life sciences and in the context of Cold War anxieties and ambitions. Together they examine how the formation of international organizations and global research programs allowed for transnational exchange and cooperation but in a period rife with competition and nationalist interests which influenced dramatic changes in the field as the postcolonial world order unfolded.
