

- Modernity is fundamentally about order: about rationality and rationalization, creating order out of chaos intellectually.
- creating more rationality is conducive to creating more order, and that the more ordered a society is, the better it will function (the more rationally it will function).

## **Rationality And Modernity:**

**Max Weber, Rationality and Modernity** Sam Whimster, Dr Scott Lash, 2014-04-04 This book brings together leading figures in history sociology political science feminism and critical theory to interpret evaluate criticize and update Weber's legacy In a collection of specially commissioned pieces and translated articles the Weberian scholarship recognizes Max Weber as the figure central to contemporary debates on the need for societal rationality the limits of reason and the place of culture and conduct in the supposedly post religious age In Part 1 Wolfgang Mommsen Wilhelm Hennis Guenther Roth and Wolfgang Schluchter provide a full and varied account of the theme of rationalization in the world civilizations In Part 2 Pierre Bourdieu and Barry Hindess critically examine Weber's social action model and Johannes Weiss and Martin Albrow address the putative crisis of Western rationality In Part 3 Jeffrey Alexander Ralph Schroeder Bryan Turner Roslyn Bologh and Sam Whimster scrutinize Weber's understanding of modernity with its characteristic plurality of gods and demons they focus on its implications for individuality and personality the body and sexuality feminism and aesthetic modernism Part 4 turns to politics law and the state in the contemporary world Colin Gordon on liberalism Luciano Cavalli on charismatic politics Stephen Turner and Regis Factor on decisionism and power and Scott Lash on modernism substance rationality and law This book was first published in 1987

**Rationality and Modernity** Gunnar Skirbekk, 1993 This book deals with rationality and modernity focusing on the philosophical discussion of contextuality and universality concerning rationality and basic norms Its perspective is that of the pragmatic turn Its discursive dimension is that of a mutual criticism between hermeneutic contextualism on the one hand and trans contextual pragmatics on the other or more precisely between contextual praxeology as found in the late Wittgenstein and universal pragmatics as in Apel or in Habermas Its basic concern is that of elaborating an improved conception of rationality as situated but still universally valid On the one hand attempts are made to defend a pragmatic gradualistic and post sceptical notion of universal reason including basic norms and on the other hand there are attempts at case oriented piecemeal negotiations and sublations by the use of arguments from absurdity including self referential arguments Hence that which is philosophically novel and important can be summarized in terms of a pragmatic meliorism which allows for a universality denied by contextualist positions At the same time this pragmatic meliorism emphasizing attempts at overcoming the negative avoids some of the problems inherent in universalistic positions which predominately operate with positive goals and ideals

**The Limits of Rationality** Rogers Brubaker, 2013-04-15 In **The Limits of Rationality** Rogers Brubaker explores the intimate and ambiguous interplay between Max Weber's empirical work and his moral vision between his historical and sociological analysis of the specific and peculiar rationalism of modern Western civilization and his deeply ambivalent moral response to that rationalism Weber's ideas about rationality are central to his sociological work and they are central to his moral perspective But these ideas are neither easily accessible nor easily understandable in part because Weber never systematized them in part because his work is usually encountered piecemeal

and seldom studied in its entirety Brubaker reconstructs Weber's rich but fragmented discussion of rationalism and rationalization in a systematic fashion thereby illuminating his empirical and moral diagnosis of modernity a diagnosis that remains unsurpassed in pathos and analytical power *Max Weber and Postmodern Theory* N. Gane, 2002-04-09 This book explores the contemporary nature of Max Weber's work by looking in detail at his key concepts of rationalization and disenchantment Thematic parallels are drawn between Weber's rationalization thesis and the critiques of contemporary culture developed by Jean Francois Lyotard Michel Foucault and Jean Baudrillard It is suggested that these three postmodern thinkers develop and respond to Weber's analysis of modernity by pursuing radical strategies of affirmation and re-enchantment Examining the work of these three key thinkers in this way casts new light both on postmodern theory and on Weber's sociology of rationalization

**Modernity and Plato** Arbogast Schmitt, 2012 Sets itself the Herculean task of comparing and reconciling the modern and Platonic concepts of rationality *Another Modernity* Scott Lash, 1999-08-25 This book is Lash's most comprehensive statement in social and cultural theory It is a book addressed to sociologists and philosophers to students of urban life modern languages cultural studies and the visual arts Alongside the Enlightenment has emerged another modernity This second modernity has in opposition to the Enlightenment rationality of progress order homogeneity and cognition initiated a different rationality of uncertainty transience experiment and the unknowable This second other modernity is present in notions of difference and reflexivity so central to the contemporary world view The logic however of such notions can itself lead to the same unhappy abstraction of the first modernity What is forgotten Scott Lash argues is the dimension of the ground This book consists of explorations into this ground as place community belonging sociality tradition life world as symbol sensation in the tactile character of the sign The book addresses the other modernity's forgotten ground The first and second modernities co-existed in a state of irresolvable tension along the history of western industrial capitalism This is thrown into crisis Lash argues with the turn of the twenty-first century emergence of the global information culture What are the implications of this explosion of first and second modernities into today's technological culture When the previously existing third space of difference is exploded into the general indifference of information and communication flows How might we lead our lives in an age in which difference and indeed the ground itself become primarily a matter for memory for mourning *The Evolution of Rationality* F. LeRon Shults, 2006-11-09 How can science and religion move together toward a collegial future J Wentzel van Huyssteen has spent decades developing an interdisciplinary platform for the fruitful engagement of science and religion Compiled to celebrate van Huyssteen's 65th birthday *The Evolution of Rationality* gathers a stellar roster of scholars in van Huyssteen's main areas of philosophy science and theology The contributors some of them Gifford lecturers and Templeton Prize winners offer significant new methodological and material proposals giving evidence of van Huyssteen's impact on the shape and texture of interdisciplinary conversation itself Their essays are arranged in three parts modern and postmodern philosophical

challenges to our understanding of rationality scientific evolutionary perspectives on the nature and development of human rationality in relation to religion religious and theological explorations of the evolution of rationality However because the authors are all involved in interdisciplinary dialogue this philosophical scientific theological arrangement of chapters is not hard and fast Virtually every essay engages issues that overlap all three fields forming an extremely rich blend of thought A creative interdisciplinary collection written by world renowned philosophers scientists and theologians The Evolution of Rationality renders fitting tribute to pioneering scholar mentor J Wentzel van Huyssteen Contributors John Hedley Brooke Delwin Brown Philip Clayton Jean Clottes F W Dobbs Allsopp David Fergusson Niels Henrik Gregersen David Lewis Williams George Newlands Richard Robert Osmer Arthur Peacocke Kenneth A Reynhout Holmes Rolston III Michael Ruse Calvin O Schrag F LeRon Shults Christopher Southgate Michael L Spezio Mikael Stenmark Jerome A Stone Ian Tattersall Roger Trigg Keith Ward Wesley J Wildman

Modern Sociological Theory George Ritzer,Jeffrey Stepnisky,2017-01-23 The authors are proud sponsors of the 2020 SAGE Keith Roberts Teaching Innovations Award enabling graduate students and early career faculty to attend the annual ASA pre conference teaching and learning workshop Now with SAGE Publishing and co authored by one of the foremost authorities on sociological theory the Eighth Edition of Modern Sociological Theory by George Ritzer and Jeffrey Stepnisky provides a comprehensive overview of the major theorists and theoretical schools from the Structural Functionalism of early 20th century through the cutting edge theories of the late 20th and early 21st centuries The integration of key theories with biographical sketches of theorists and the requisite historical and intellectual context helps students to better understand the original works of contemporary thinkers *Modernity Theory* John Jervis,2018-12-29 Modernity theory approaches modern experience as it incorporates a sense of itself as modern modernity along with the possibilities and limitations of representing this in the arts and culture generally modernism The book interrogates modernity in the name of a fluid unsettled unsettling modernism As the offspring of the Enlightenment and the Age of Sensibility modernity is framed here through a cultural aesthetics that highlights not just an instrumental exploitative approach to the world but the distinctive configuration of embodiment feeling and imagination that we refer to as civilization in turn both explored and subverted through modernist experimentalism and reflexive thinking in culture and the arts This discloses the rationalizing pretensions that underlie the modern project and have resulted in the sensationalist melodramatic conflicts of good and evil that traverse our contemporary world of politics and popular culture alike This innovative approach permits modernity theory to link otherwise fragmented insights of separate humanities disciplines aspects of sociology and cultural studies by identifying and contributing to a central strand of modern thought running from Kant through Benjamin to the present One aspect of modernity theory that results is that it cannot escape the paradoxes inherent in reflexive involvement in its own history

The Modern Construction and Postmodern Deconstruction of Self Kire Sharlamanov,Mia Kostovska,2025-02-21 This book aims to explain the self as understood decades ago and its evolution in the time of postmodernism Approaching it primarily from a sociological perspective while incorporating insights from psychology and philosophy it portrays the modern self as a unitary coherent unified subject created in the time of modernity which during postmodernism has evolved into a fluid decentralized and fragmented subject with increasingly independent multiple identities The creation of the modern self has been influenced by individualization rationalization and power Each factor is explored in a separate chapter detailing its impact on the development of the modern Cartesian self The authors draw on the theories of Goffman Bauman and

Baudrillard to illustrate the changing nature of the self viewing it as a performer a fluid entity and a simulacrum While Goffman is not strictly a postmodern author his ideas foreshadow postmodernism particularly regarding the transformation of the self Bauman and Baudrillard as key figures in postmodern thought provide valuable insights into this transformation of the self in contemporary times The book uniquely connects two time periods in which the self evolves arguing that social factors influence its changing characteristics As these social factors shift over time so does the self Key aspects of the self and its evolution are examined through an original multidimensional approach that spans a longer time interval

**Rationality and Power** Bent Flyvbjerg, 1998-02-28 It s like the story of Little Town an influential actor says in Rationality and Power when choosing a metaphor to describe how he manipulated rationality to gain power The bell ringer has to set the church clock So he calls the telephone exchange and asks what time it is and the telephone operator looks out the window towards the church clock and says It s five o clock Good says the bell ringer then my clock is correct In the Enlightenment tradition rationality is considered well defined independent of context we know what rationality is and its meaning is constant across time and space Bent Flyvbjerg shows that rationality is context dependent and that the crucial context is determined by decision makers power Power blurs the dividing line between rationality and rationalization The result is a rationality that is often as imaginary as the time in Little Town yet with very real social and environmental consequences Flyvbjerg takes us behind the scenes to uncover the real politics and real rationality of policy making administration and planning in an internationally acclaimed project for environmental improvement auto traffic reduction land use and urban renewal The action takes place in the Danish city of Aalborg but it could be anywhere Aalborg is to Flyvbjerg what Florence was to Machiavelli a laboratory for understanding power and what it means for our more general concerns of social and political organization Policy making administration and planning are examined in ways that allow a rare in depth understanding The reader is a firsthand witness to the classic endless drama that defines what democracy and modernity are and what they can be The result is a fascinating narrative that is both concrete and general current and timeless Drawing on the ideas of Machiavelli Nietzsche Foucault and Habermas Flyvbjerg reads the Aalborg case as a metaphor of modernity and of modern politics administration and planning Flyvbjerg uncovers the interplay of power and rationality that distorts policy deliberation He demonstrates that modern rationality is but an ideal when confronted with the real rationalities involved in decision making by central actors in government economy and civil society Flyvbjerg then elaborates on how this problem can be dealt with so that more fruitful deliberation and action can occur If the new millennium marks a recurrence of the real Flyvbjerg s Rationality and Power epitomizes this development setting new standards for social and political inquiry Richly informed powerfully argued and clearly written this is a book that no one

trying to understand policy making administration and planning can afford to overlook Flyvbjerg employs a wide ranging intellect an enthusiastic and persuasive voice academic rigor and great discipline to distill years of research into an outstanding and accessible 250 page civics lesson It begs for a readership outside academic and professional circles Rationality and Power's value is undeniable as a handbook and forensic tool for anyone seeking a better understanding of and access to the democratic process Arkansas Democrat Gazette It makes an extremely strong and to the reviewer's mind incontrovertible argument for placing the analysis of planning within the context of power relations As a result it will also make a significant mark on the development of planning theory Geographical Journal A book that is to be recommended doubly first to all those engaged in planning and implementation in a democratic context and also to all those interested in empirical power research Rationality and Power is rewarding even enthralling reading a seminal contribution to its field European Societies This book is a must for anyone interested in how planning works a reality shock excellent and illuminating International Planning Studies

Media Capitalism Thomas Klikauer, 2022-01-01 This book argues that media and capitalism no longer exist as separated entities and posits three reasons why one can no longer exist without the other Firstly mass media have become indispensable to capitalism due to the media's ability to sell the commodities of mass consumerism Media capitalism also creates pro capital attitudes among a target population and establishes an ideological hegemony Thirdly media capitalism provides mass deception to hide the pathologies of capitalism which include mass poverty rising inequalities and the acceleration of global warming To illuminate this the book's historical chapter traces the emergence of media capitalism Its subsequent chapters show how media capitalism has infiltrated the public sphere society schools universities the world of work and finally democracy The book concludes by outlining how societies can transition from media capitalism to a post media capitalist society

**Critical Theory and the Challenge of Praxis** Stefano Giacchetti Ludovisi, 2016-03-09 This volume explores possibility of constructing a political outcome from the theory of the early years of the Frankfurt School countering the commonly made criticism that critical theory is highly speculative With chapters exploring the work of figures central to the Frankfurt School including Benjamin Adorno Horkheimer Marcuse Habermas and Honneth Critical Theory and the Challenge of Praxis reveals that it is only with a fixed and dogmatic model of politics that critical theory is incompatible and that it can in fact yield a rich variety of political models ranging from new forms of Marxism to more contemporary dialogical models centred on the politics of identity With attention to new ways of contrasting alienation and reification in contemporary forms of social organisation this book demonstrates that the thought of the Frankfurt school can in fact be an invaluable tool not only for developing a critique of advanced capitalism but also for originating alternative models of political praxis As such it will appeal to scholars of social and political theory with interests in classical sociological thought and continental philosophy
