Rationalitystudy Of Religion

J.P. Larsson

Rationalitystudy Of Religion:

Rationality and the Study of Religion Jeppe Sinding Jensen, Luther Martin, 2013-09-13 Does rationality the intellectual bedrock of all science apply to the study of religion Religion arguably the most subjective area of human behaviour has particular challenges associated with its study Attracting crowd healers conjurers the pious and the prophetic alongside comparativists and sceptics it excites opinions and generalizations whilst seldom explicitly staking out the territory for the discussions in which it partakes Increasingly scholars argue that religious study needs to define and critique its own field and to distinguish itself from theology and other non objective disciplines Yet how can rational techniques be applied to beliefs and states of mind regarded by some as beyond the scope of human reason Can these be made empirically testable or comparable and replicable within academic communities Can science explicate religion without reducing it to mere superstition or redefine its truth in some empirical but meaningful way Featuring contributions from leading international experts including Donald Wiebe Roger Trigg and Michael Pye *Rationality and the Study of Religion* gets under the surface of the religious studies discipline to expose the ideologies beneath Reopening debate in a neglected yet philosophically significant field it questions the role of rationality in religious anthropology natural history and anti scientific theologies with implications not only for supposedly objective disciplines but for our deepest attitudes to personal experience Interesting and important Religion has long been associated with irrationality both by its defenders and its critics and the topic of rationality has been unjustly neglected The book certainly deserves to be widely circulated Greg Alles Western Maryland College

Rationality and the Study of Religion Jeppe Sinding Jensen, Luther Martin, 2013-09-13 Does rationality the intellectual bedrock of all science apply to the study of religion Religion arguably the most subjective area of human behaviour has particular challenges associated with its study Attracting crowd healers conjurers the pious and the prophetic alongside comparativists and sceptics it excites opinions and generalizations whilst seldom explicitly staking out the territory for the discussions in which it partakes Increasingly scholars argue that religious study needs to define and critique its own field and to distinguish itself from theology and other non objective disciplines Yet how can rational techniques be applied to beliefs and states of mind regarded by some as beyond the scope of human reason Can these be made empirically testable or comparable and replicable within academic communities Can science explicate religion without reducing it to mere superstition or redefine its truth in some empirical but meaningful way Featuring contributions from leading international experts including Donald Wiebe Roger Trigg and Michael Pye *Rationality and the Study of Religion* gets under the surface of the religious studies discipline to expose the ideologies beneath Reopening debate in a neglected yet philosophically significant field it questions the role of rationality in religious anthropology natural history and anti scientific theologies with implications not only for supposedly objective disciplines but for our deepest attitudes to personal experience Interesting and important Religion has long been associated with irrationality both by its defenders and its critics and the topic of rationality

has been unjustly neglected The book certainly deserves to be widely circulated Greg Alles Western Maryland College

Historicizing "Tradition" in the Study of Religion Steven Engler, Gregory Price Grieve, 2012-02-13 This collection of essays analyzes tradition as a category in the historical and comparative study of religion The book questions the common assumption that tradition is simply the passing down or imitation of prior practices and discourses It begins from the premise that many traditions are at least in part social fabrications often deliberately serving particular ideological ends Individual chapters examine a wide variety of historical periods and religions Congolese Buddhist Christian Confucian Cree Esoteric Hawaiian Hindu Islamic Jewish New Religious Movement and Shinto Different sections of the book consider tradition's relation to three sets of issues legitimation and authority agency and identity modernity and the West

Principles of the Law of Evidence and Rationality Applied in the Johannine Christology Henry Hock Guan Teh, 2016-02-10 Those who give primacy to evidence in the apologetic task have long maintained that 1 this is exactly the biblical writers' approach maintaining as they do that they saw and heard the things of which they speak and 2 such reasoning is fundamental to society in general as exemplified in every civilised legal system Henry Hock Guan Teh concretises these vital points by way of the Gospel of John where the Apostle consistently marshals eyewitness evidence to show that Jesus is the Christ the Son of God and that believing you might have life through His name John 20:31 No finer or more scholarly support for a biblically grounded factual juridically sophisticated defence of Christian truth is available Professional and lay evangelists and anyone endeavouring to preach the gospel to every creature simply must obtain and be benefited from this book And sceptical lawyers needless to say owe it to themselves to wrestle with the author's case for the only historical religion that holds up in court John Warwick Montgomery Ph D D Theol LL D Professor Emeritus of Law and Humanities University of Bedfordshire England Distinguished Research Professor of Philosophy Concordia University Wisconsin USA Director International Academy of Apologetics Evangelism and Human Rights Strasbourg France Dr Teh's book is in the same genre as those by Simon Greenleaf professor Dr John Warwick Montgomery Craig Parton Esq and Prof Dr Ross Clifford As can be seen by the title Dr Teh concentrates on the Gospel of John chapter by chapter His powerful argument can even be comprehended by those of us not legally trained Recommended Dr Rod Rosenblatt Professor of Theology Concordia University Irvine

1517legacy.com This book will greatly help people understand the legal historical and rational case for Christianity Dr Henry Teh uniquely focuses on John's gospel and establishes the Case for Jesus Resurrection through the best evidence principle This emphasis on John's gospel establishes that it is a key text for Christian apologetics The book is a compelling read for those who take 1 Peter 3:15 seriously And for those who believe Jesus is a fairy tale it will cause them to reconsider the fact of his Resurrection It is well written and a must addition to one's apologetic armoury Rev Dr Ross Clifford AM Principal of Morling Theological College Sydney Australia Author of John Montgomery's Legal Apologetic Henry Hock Guan Teh obtained his Ph D from Trinity Theological Seminary Indiana USA where he studied apologetics under Prof John Warwick Montgomery

and also at International Academy of Apologetics Evangelism Human Rights Strasbourg France With two British law degrees he was also a trial lawyer and chief law examiner Presently Henry Teh is adjunct lecturer in Philosophy Ethics and Law

Rationality in Science, Religion, and Everyday Life Mikael Stenmark, 2016-09-15 Mikael Stenmark examines four models of rationality and argues for a discussion of rationality that takes into account the function and aim of such human practices as science and religion

Reason, Freedom, and Religion Lorne L. Dawson, 1988 This book argues the advantages of using an unconventional method of social science the argument from rationality to ameliorate the disruptive methodological schism which exists between humanistic and social scientific perspectives in Religionswissenschaft and the sociology of religion The argument from rationality curbs the reductive thrust of conventional scientific accounts of religion by integrating the power of human choice and religious references to the transcendent into a viable mode of explanation for social and religious action Attention is focused on the role character and limits of the judgements of rationality undergirding the practice of the social sciences

Rationality and Religion Roger Trigg, 1998-06-08 Rationality and Religion deals with the perennial question of how far religious faith needs reason

New Approaches to the Study of Religion: Regional, critical, and historical approaches Peter Antes, Armin W. Geertz, Randi Ruth Warne, 2004 Internationally recognized scholars from many parts of the world provide a critical survey of recent developments and achievements in the global field of religious studies The work follows in the footsteps of two former publications Classical Approaches to the Study of Religion edited by Jacques Waardenburg 1973 and Contemporary Approaches to the Study of Religion edited by Frank Whaling 1984 85 New Approaches to the Study of Religion completes the survey of the comparative study of religion in the twentieth century by focussing on the past two decades Many of the chapters however are also pathbreaking and point the way to future approaches

The Perception of Christianity as a Rational Religion in Singapore Clive S. Chin, 2017-03-23 This book evaluates the common criticism that Christianity in Asia is westernized Since the 1980s Asian evangelical theologians and missiologists argue that the intrusion of Western theology is responsible for the Western and hence alien expressions of Christianity in Asia Yet in Singapore the number of Christians has increased over the last few decades Empirical evidence demonstrates that younger Chinese Singaporeans convert from Buddhism or Taoism to Christianity partly because they perceive it as a rational religion over Buddhism or Taoism which are viewed as irrational or superstitious Not only do many converts favor Christianity as a rational religion but they do not regard Christianity as a Western religion at the point of their conversion What accounts for those recent developments This study explores the processes of modernization and globalization as important factors impacting religious change in Singapore Personal contextual and structural elements actually influence one's religion of choice In facilitating effective mission one must qualify the use of the categories Asian and Western because religious and cultural boundaries overlap What matters most in missiology is discerning how the gospel of Jesus Christ engages the self understanding and lived realities of ethnic and religious others in diverse cultural settings

The Oxford Handbook of the Sociology of Religion Peter Clarke, 2011-02-04 The Oxford Handbook of the Sociology of Religion draws on the expertise of an international team of scholars providing both an entry point into the sociological study and understanding of religion and an in depth survey into its changing forms and content in the contemporary world The role and impact of religion and spirituality on the politics culture education and health in the modern world is rigorously discussed and debated The study of the sociology of religion forges interdisciplinary links to explore aspects of continuity and change in the contemporary interface between society and religion Using a combination of theoretical methodological and content led approaches the fifty seven contributors collectively emphasise the complex relationships between religion and aspects of life from scientific research to law ecology to art music to cognitive science crime to institutional health care and more The developing character of religion irreligion and atheism and the impact of religious diversity on social cohesion are explored An overview of current scholarship in the field is provided in each themed chapter with an emphasis on encouraging new thinking and reflection on familiar and emergent themes to stimulate further debate and scholarship The resulting essay collection provides an invaluable resource for research and teaching in this diverse discipline **The Handbook of Rational Choice Social Research** Rafael Wittek, Tom A.B. Snijders, Victor Nee, 2013-06-05 The Handbook of Rational Choice Social Research offers the first comprehensive overview of how the rational choice paradigm can inform empirical research within the social sciences This landmark collection highlights successful empirical applications across a broad array of disciplines including sociology political science economics history and psychology Taking on issues ranging from financial markets and terrorism to immigration race relations and emotions and a huge variety of other phenomena rational choice proves a useful tool for theory driven social research Each chapter uses a rational choice framework to elaborate on testable hypotheses and then apply this to empirical research including experimental research survey studies ethnographies and historical investigations Useful to students and scholars across the social sciences this handbook will reinvigorate discussions about the utility and versatility of the rational choice approach its key assumptions and tools The Sociology of Religion Malcolm B. Hamilton, 2012-06-12 This clear introduction to the sociology of religion combines a discussion of key theorists with a modern emphasis on the diversity of religious beliefs and practices Malcolm Hamilton's expanded second edition brings the discussion fully up to date and extends its material on secularization and religious sects giving a broad comparative view Drawing on the insights of history anthropology and sociology he surveys classic and contemporary theory to give a full picture of the variety and scope of theoretical perspectives **Patterns of Rationality** Tommaso Bertolotti, 2015-04-29 This book proposes an applied epistemological framework for investigating science social cognition and religious thinking based on inferential patterns that recur in the different domains It presents human rationality as a tool that allows us to make sense of our physical or social surroundings It shows that the resulting cognitive activity produces a broad spectrum of outputs such as scientific models and experimentation gossip and social networks but also ancient and

contemporary deities The book consists of three parts the first of which addresses scientific modeling and experimentation and their application to the analysis of scientific rationality Thus this part continues the tradition of eco cognitive epistemology and abduction studies The second part deals with the relationship between social cognition and cognitive niche construction i e the evolutionarily relevant externalization of knowledge onto the environment while the third part focuses on what is commonly defined as irrational thus being in a way dialectically opposed to the first part Here the author demonstrates that the irrational can be analyzed by applying the same epistemological approach used to study scientific rationality and social cognition also in this case we see the emergence of patterns of rationality that regulate the relationships between agents and their environment All in all the book offers a coherent and unitary account of human rationality providing a basis for new conceptual connections and theoretical speculations **The Centrality of Religion in**

Social Life Eileen Barker, 2021-11-18 James A Beckford s work is internationally acclaimed not only in the sociology of religion but also in other fields of the social sciences Beckford has long been arguing that the barriers that have grown up between the different sub disciplines should be broken down with those specialising in religion becoming more cognisant of new theoretical developments and sociologists in general becoming more aware of the significance of developments in the religious scene This book is a collection of essays written in Beckford s honour drawing on a number of religious themes that have been central to Beckford s interests whilst also offering a significant contribution to our understanding of the wider society A central theme is modernity and its relation to the post modern and how religion affects and is affected by the dynamics of contemporary society with the primary focus of many of the chapters being a concern with how society copes with the minority religions that have become visible with the globalising tendencies of contemporary society The contributors who come from America Asia and various parts of Europe are all internationally renowned scholars Beckford s most important publications are listed in an Appendix and the volume opens with a short account of his contribution to sociology by Eileen Barker the editor and James T Richardson **Introduction to the Study of Religion** Hillary P. Rodrigues, John S.

Harding, 2023-11-29 Why do people study religion How have they studied it in the past How do we study religion today Is the academic study of religion the same as religious education These and many other questions are addressed in this engaging introduction to the discipline of religious studies Topics include Definitions of religion Perspectives in the study and teaching of religion How religion began to be studied Traditional perspectives philosophical and theological How people experience religion Perspectives in the study of religious consciousness and perception phenomenological and psychological Studying religion within communities Social and cultural perspectives anthropological sociological political and economic Judging religion Critical perspectives feminist approaches the interaction of popular literature and religion Contextual perspectives historical and comparative Themes theories and current directions This thoroughly updated second edition encourages students to think critically about the theories and methods presented Students will find arguments for the strengths and

limitations of these approaches understand connections among religious studies and other intellectual movements and develop their own ideas of how they might want to go about the study of religion Summary boxes discussion questions a glossary a chronology of key figures and texts and other pedagogic aids help students grasp key concepts *Sport, Spirituality, and Religion* Tracy J. Trothen, 2019-11-22 The research studies included in this Special Issue highlight the fundamental contribution of the knowledge of environmental history to conscious and efficient environment conservation and management The long term perspective of the dynamics that govern the human climate ecosystem is becoming one of the main focuses of interest in biological and earth system sciences Multidisciplinary bio geo archaeo investigations into the underlying processes of human impact on the landscape are crucial to envisage possible future scenarios of biosphere responses to global warming and biodiversity losses This Special Issue seeks to engage an interdisciplinary dialog on the dynamic interactions between nature and society focusing on long term environmental data as an essential tool for better informed landscape management decisions to achieve an equilibrium between conservation and sustainable resource exploitation

Understanding Religious Violence J.P. Larsson, 2017-07-05 There is a long standing fear of that which is not understood Since September 11 2001 the fear surrounding the violent elements of religion has led to heightened tensions Research is thus essential to counteract the effects of religious xenophobia In this compelling book J P Larsson investigates religious violence terrorism and armed conflict in order to deliver the understanding required for a more peaceful world and to allow for a framework of conflict transformation This multi disciplinary text will greatly interest those in the fields of international relations theology and sociology

Auburn Seminary Record Auburn Theological Seminary (New York, N.Y.), 1912

Rationality and Religious Theism Joshua L. Golding, 2017-11-22 Throughout the ages one of the central topics in philosophy of religion has been the rationality of theistic belief This book proposes that parties on both sides of this debate might shift their attention in a different direction by focusing on the question of whether it is rational to be a religious theist Explaining that having theistic beliefs is primarily a cognitive affair but being a religious theist involves a whole way of life that includes one's beliefs Golding argues that it can be pragmatically rational to be a religious theist even if the evidence for God's existence is minimal The argument is applied to the case of Judaism articulating what is involved in religious Judaism and arguing that it is rationally defensible to be a religious Jew The book concludes with a discussion of whether a similar argument might be constructed for other versions of religious theism such as Christianity or Islam and for non theistic religions such as Taoism or Buddhism Joshua Golding offers a carefully wrought explanation of how it can be rational for someone to live a religious life in particular but not necessarily only a traditional Jewish life

The Routledge Companion to Theism Charles Taliaferro, Victoria S. Harrison, Stewart Goetz, 2013 There are deep and pervasive disagreements today in universities and colleges and popular culture in general over the credibility and value of belief in God This has given rise to an urgent need for a balanced comprehensive accessible resource book that can inform the public and scholarly debate over

theism While scholars with as diverse interests as Daniel Dennett Terry Eagleton Richard Dawkins Jürgen Habermas and Rowan Williams have recently contributed books to this debate theism as a concept remains poorly understood and requires a more thorough and systematic analysis than it has so far received in any single volume The Routledge Companion to Theism addresses this need by investigating theism's history as well as its relationship to inquiry in the sciences social sciences and humanities and to its wider cultural contexts The contents are not confined within the philosophy of religion or even within the more expansive borders of philosophy Rather The Routledge Companion to Theism investigates its subject through the lens of a wide variety of disciplines and explores the ramifications of theism considered as a way of life as well as an intellectual conviction The five parts of the volume indicate its inclusive scope I What is Theism II Theism and Inquiry III Theism and the Socio Political Realm IV Theism and Culture V Theism as a Way of Life The result is a well ordered and thorough collection that should provide a wide spectrum of readers with a better understanding of a subject that's much discussed but frequently misunderstood As the editors note in their Introduction while stimulating and informing the contemporary debate a key aim of the volume is to open new avenues of inquiry into theism and thereby to encourage further research into this vital topic Comprised of 54 essays by leading scholars in philosophy history theology religious studies political science education and sociology The Routledge Companion to Theism promises to be the most useful comprehensive resource on an emerging subject of interest for students and scholars

Enjoying the Tune of Expression: An Psychological Symphony within **Rationalitystudy Of Religion**

In a world eaten by screens and the ceaseless chatter of fast communication, the melodic elegance and emotional symphony developed by the published word usually diminish in to the backdrop, eclipsed by the constant sound and interruptions that permeate our lives. However, nestled within the pages of **Rationalitystudy Of Religion** a stunning literary prize overflowing with natural thoughts, lies an immersive symphony waiting to be embraced. Crafted by an elegant musician of language, that interesting masterpiece conducts visitors on a psychological journey, well unraveling the concealed melodies and profound impact resonating within each cautiously crafted phrase. Within the depths of the emotional review, we can explore the book is key harmonies, analyze its enthralling writing fashion, and submit ourselves to the profound resonance that echoes in the depths of readers souls.
