Melosi,Joseph A. Pratt,2007-07-01 Houston s meteoric rise from a bayou trading post to the world s leading oil supplier owes much to its geography geology and climate the large natural port of Galveston Bay the lush subtropical vegetation the abundance of natural resources But the attributes that have made it attractive for industry energy and urban development have also made it particularly susceptible to a variety of environmental problems Energy Metropolis presents a comprehensive history of the development of Houston examining the factors that have facilitated unprecedented growth and the environmental cost of that development The landmark Spindletop

strike of 1901 made inexpensive high grade Texas oil the fuel of choice for ships industry and the infant automobile industry. Literally overnight oil wells sprang up around Houston. In 1914 the opening of the Houston Ship Channel connected the city to the Gulf of Mexico and international trade markets. Oil refineries sprouted up and down the channel and the petroleum products industry exploded. By the 1920s Houston also became a leading producer of natural gas and the economic opportunities and ancillary industries created by the new energy trade led to a population boom. By the end of the twentieth century Houston had become the fourth largest city in America. Houston's expansion came at a price however. Air water and land pollution reached hazardous levels as legislators turned a blind eye. Frequent flooding of altered waterways, deforestation, hurricanes, the energy demands of an air conditioned lifestyle, increased automobile traffic, exponential population growth and an ever expanding metropolitan area all escalated the need for massive infrastructure improvements. The experts in Energy Metropolis examine the steps Houston has taken to overcome laissez faire politics, indiscriminate expansion and infrastructural overload. What emerges is a profound analysis of the environmental consequences of large scale energy production and unchecked growth.

Amada's Blessings from the Peyote Gardens of South Texas Stacy B. Schaefer, 2015-11-15. Amada Cardenas a Mexican American woman from the borderlands of South Texas played a pivotal role in the little known history of the peyote trade. She and her husband were the first federally licensed peyote dealers. They began harvesting and selling the sacramental plant to followers of the Native American Church (NAC) in the 1930s and after her husband's death in the late 1960s Mrs Cardenas continued to befriend and help generations of NAC members until her death in 2005 just short of her 101st birthday. Author Stacy B Schaefer a close friend of Amada spent thirteen years doing fieldwork with this remarkable woman. Her book weaves together the geography, biology, history, cultures and religions that created the unique life of Mrs Cardenas and the people she knew. Schaefer includes their words to help tell the story of how Mexican Americans, Tejanos, gringos, Native Americans and others were touched and inspired by Amada Cardenas's embodiment of the core NAC values: faith, hope, love and charity.

Cleburne County and Its People Carl J. Barger, 2008-05-13. Cleburne County and Its People is a historical account of Cleburne County and the men and women who made it what it is today. These men and women were as diverse as the Ozark Mountain's rock laden landscapes. The pioneers who settled Cleburne County were as strong as the land of hardy pioneer stock and bold in thought and action. They were shrewd, strong willed individuals who brought staunch beliefs and strong disciplines with them and settled in an untamed wilderness which became Cleburne County. Cleburne County and Its People has drawn from the past and the present, chronicling the lives of settlers facing hardships and tragedies, discovering profound beauty, mastering vast natural resources and formulating democratic ideals. The stories in this book are honest interpretations of the human experience intertwined with the old and the new and adding exciting dimensions to the county of Cleburne and the state of Arkansas. The objective of Carl J Barger the compiler of Cleburne County and Its People is to preserve a history of the county of his birth for students.
