Literary Afterlife of Raymond Carver

Jonathan Pountney, 2020-04-15 No detailed description available for The Literary Afterlife of Raymond Carver Paradigms of Authority in the Carver Canon Péter Boczor, 2015-04-16 Raymond Carver's personal story as a writer became publicly known through an unusually intense cooperation with his literary agent Gordon Lish Carver's career can be viewed as the story of a fight for the control of his writerly voice in which he is doomed to fail due to the heterogeneity characterizing the genesis of his works The parallel versions of the same stories in the Carver canon not only pose a threat to any attempt of a simplistic evaluation of his literary legacy but also raise questions about the authority of the writer The author of the present book considers the choices Carver Lish and other editors made part of the collective social act of manufacturing and attempts to carry out a neutral analysis of the various versions *Carver Across the Curriculum* Katherine Ashley, Paul Benedict Grant, 2020-05-15 Raymond Carver's canonical status is secure his short stories appear regularly in all of the major literary anthologies and his fiction and poetry are taught at universities around the world Despite this there are few instructional aids to teaching Carver's work at university level and none that take into account the interdisciplinary nature of many modern university courses Carver Across the Curriculum addresses these needs Drawing on the experiences and expertise of a group of international scholars it presents a variety of innovative interdisciplinary approaches to teaching Carver's work at the undergraduate and postgraduate levels The chapters cover a wide range of disciplines including music creative writing translation humor studies food studies the medical humanities and the visual and performing arts As such the collection serves as a guide and a source of inspiration to instructors and offers readers new insights into Carver's fiction and poetry Raymond Carver Carol Sklenicka, 2009-11-24 The first biography of America's best known short story writer of the late twentieth century The London Times called Raymond Carver the American Chekhov The beloved mischievous but more modest short story writer and poet thought of himself as a lucky man whose renunciation of alcohol allowed him to live ten years longer than he or anyone expected In that last decade Carver became the leading figure in a resurgence of the short story Readers embraced his precise sad often funny and poignant tales of ordinary people and their troubles poverty drunkenness embittered marriages difficulties brought on by neglect rather than intent Since Carver died in 1988 at age fifty his legacy has been mythologized by admirers and tainted by controversy over a zealous editor's shaping of his first two story collections Carol Sklenicka penetrates the myths and controversies Her decade long search of archives across the United States and her extensive interviews with Carver's relatives friends and colleagues have enabled her to write the definitive

story of the iconic literary figure Laced with the voices of people who knew Carver intimately her biography offers a fresh appreciation of his work and an unbiased vivid portrait of the writer Joycean Legacies Martha C. Carpentier,2015-04-28 These twelve essays analyze the complex pleasures and problems of engaging with James Joyce for subsequent writers discussing Joyce s textual stylistic formal generic and biographical influence on an intriguing selection of Irish British American and postcolonial writers from the 1940s to the twenty first century The Visual Poetics of Raymond Carver Ayala Amir,2010-01-01 The Visual Poetics of Raymond Carver explores the visual dimensions of literary texts by looking at the rich representations of vision movement and space in Raymond Carver s short fiction Ayala Amir analyzes Carver s stories using insights borrowed from the critical discourse of the visual arts to reflect upon and challenge traditional issues of narrative study

The Poetry of Raymond Carver Sandra Lee Kleppe,2016-02-24 Best known as one of the great short story writers of the twentieth century Raymond Carver also published several volumes of poetry and considered himself as much a poet as a fiction writer Sandra Lee Kleppe combines comparative analysis with an in depth examination of Carver s poems making a case for the quality of Carver s poetic output and showing the central role Carver s pursuit of poetry played in his career as a writer Carver constructed his own organic literary system of autopoetics a concept connected to a paradigm shift in our understanding of the inter relatedness of biological and cultural systems This idea is seen as informing Carver s entire production and a distinguishing feature of Kleppe s book is its contextualization of Carver s poetry within the complex literary and scientific systems that influenced his development as a writer Kleppe addresses the common themes and intertextual links between Carver s poetry and short story careers situates Carver s poetry within the love poem tradition explores the connections between neurology and poetic memories and examines Carver s use of the elegy genre within the context of his terminal illness Tellingly Carver s poetry which has aroused slight interest among literary scholars is frequently taught to medical students This testimony to the interdisciplinary implications of Carver s work suggests the appropriateness of Kleppe s culminating discussion of Carver s work as a bridge between the fields of literature and medicine

The Art of Editing Tim Groenland,2019-02-21 The place of the editor in literary production is an ambiguous and often invisible one requiring close attention to publishing history and often inaccessible archival resources to bring it into focus In *The Art of Editing* Tim Groenland shows that the critical tendency to overlook the activities of editors and to focus on the solitary author figure neglects important elements of how literary works are acquired developed and disseminated Focusing on selected works of fiction by Raymond Carver and David Foster Wallace authors who represent stylistic touchstones for US fiction of recent decades Groenland presents two case studies of editorial collaboration Carver s early stories were integral to the emergence of the Minimalist movement in the 1980s while Wallace s novels marked a generational shift towards a more expansive maximal mode of narrative The role of their respective editors however is often overlooked Gordon Lish s part in shaping the form of Carver s early stories remains under explored analyses of Wallace s fiction meanwhile tend to minimise

Michael Pietsch's role from the creation of *Infinite Jest* during the mid 1990s until the present day. Drawing on extensive archival research as well as interviews with editors and collaborators, Groenland illuminates the complex and often conflicting forms of agency involved in the genesis of these influential works. The energies and tensions of the editing process emerge as essential factors in the creation of fictions more commonly understood within the paradigm of solitary authorship. The mediating role of the editor, Groenland argues, is inseparable from the development, form, and reception of these works.

What It Used to Be Like Maryann Burk Carver, 2007-07-10. Maryann Burk Carver met Raymond Carver in 1955 when she was fifteen years old and he seventeen. In *What It Used to Be Like*, Maryann Burk Carver recounts a tale of love at first sight in which the two teenagers got to know each other by sharing a two-year long distance correspondence that soon after found them married and with two small children. Over the next twenty-five years, as Carver's fame grew, the family led a nomadic life, moving from school to school, teaching post to teaching post. Finally, in 1972, they settled in Cupertino, California, where Raymond Carver gave his wife one of his sharpened pencils and bade her to write an account of their history. The result is a breathtaking memoir of a marriage replete with the intimacy of detail that fully reveals the illnesses and talents of this larger-than-life man, his complicated relationships, and his profound loves and losses. *What It Used to Be Like* brings to light for the first time Raymond Carver's lost years and stories and the stories behind the stories of this most brilliant writer.

MARYANN BURK CARVER married Raymond Carver when she was sixteen and he was nineteen. They were married for twenty-five years and had two children, Christi and Vance. Maryann Burk Carver is a teacher living on Lummi Island in Washington State.
