Great Plains Wildlife Damage Control Workshop Proceedings, 1987 Prison Profiles Mary Knochel, Ph.D.; Rafael Ramirez, 2001-07-10 Every man who enters the custody of the Indiana Department of Corrections does so in the same condition: naked as the day he was born. Under the wary eyes of prison guards, he and fellow inmates must shower and then delouse one another. Naked but not alone, they emerge into their new existence as wards of the DOC. Some of these inmates will spend their prison lives behind tall fences with many restrictions on their activities; others may be released to work outside the prison walls and allowed many liberties. Their fate depends upon the nature and extent of their crimes and the availability of space in the appropriate facility. Prison Profiles delineates the profiles of both the prisons and the prisoners who inhabit them. The book describes the classification system used by the Indiana Department of Correction to determine which inmate is assigned to which institution by following six typical male offenders through the process. Portraying a wide variety of criminals and their crimes, Prison Profiles shows how their sentences may be served under vastly different circumstances. Profiling the facilities, the work investigates the great contrast in levels of security and custody maintained at different types of penal institutions. By studying the backgrounds of the six inmates, monitoring their progress through the classification and assignment procedures, and then witnessing their daily lives behind bars, the reader is introduced to the complex issues involved in the administration of the criminal justice system. The timely topics of crime control, inmate treatment, prison overcrowding, and cost containment are addressed. A glossary is provided to explain the vocabulary of the professionals and the vernacular of the prisoners. The following chapter summaries describe what readers may expect to encounter as they examine the profiles: Chapter One: The Reception and Diagnostic Center. Follow the fortunes of typical prisoners from fumigation to indoctrination. See how an inmate is assimilated into the prison system from the delousing shower to the psychological testing. Learn about the security levels and custody designations which range from open camps to isolated cells. Find out how the Indiana Department of Corrections decides which prisoner goes where. Chapter Two: Classification. Meet a Classification Specialist and look over his shoulder as he conducts interviews with and reviews

paperwork of three typical offenders a drunk driver a troubled teen and a middle aged child abuser See how the specialist considers the nature of the offense past criminal history and test results to determine ideal placement of the offender Learn why most inmates serve only half of their sentences Chapter Three Classification Continued Spend another day with the Classification Specialist this time in the company of three offenders who spell major trouble for the system a street wise drug dealer with diabetes a quiet murderer with a psychosis and a violent gangster with a trigger hot temper Read their psychological records and learn how staff members try to alert one another to the potential problems they pose Chapter Four The Farm Follow the drunk driver to one of the state s oldest prisons Learn about the history of the penal system in Indiana how inmates lived in tents while making the bricks to build dor

Measuring Prison Performance Gerald G. Gaes,Scott D. Camp,Julianne B. Nelson,William G. Saylor,2004-09-14 Gaes and his distinguished coauthors offer a comprehensive analysis of public versus private management of prisons a competition that originated in the 1980s with the introduction of private facilities into the criminal justice system The authors argue that prison performance must be measured in reference to the goals of a particular prison system and introduce the technique of multilevel modeling to allow for simultaneous measurement of the individual and the institution They also show how their analytic framework can be applied to other criminal justice components prosecution adjudication postrelease supervision policing and to evaluating the privatization of almost any publicly administered service They contend that the ability to meaningfully compare public and private prisons can better inform penal policy and improve prison performance and accountability This book will be a valuable resource for public administrators and policy analysts corrections personnel and criminologists

Working with Giants John Norman,2021-07-08 John Norman author of the best selling Fire Officer s Handbook of Tactics brings his own remarkable story to life in this new highly anticipated memoir But this is a story about all firefighters the men and women

who are absolutely the salt of the earth whose sole mission is to protect the lives and property of their neighbors This book celebrates the lives of firefighters a truly special group of people and reintroduces them to the American public What is a hero A hero is a role model To be a hero means protecting others at great personal risk because it s the right thing to do Since September 11 2001 Norman writes people have been speaking about firefighters as America s Heroes I truly believe they are heroes in the classical sense of the word Renowned for combining compelling storytelling with industry standard tactical training Norman offers an unparalleled look into the modern history of America s fire service from a front row seat This is a celebration of the best in public service its sacrifices and triumphs and the people who were there who will insist with uncommon humility I was just doing my job Unemployment's Shocking Truth Jack Stone,2008-06-03 About the Book This book does not take a neutral stand on the issue of mass unemployment It is an effort to expose capitalism s most outrageous feature its compulsive need to use unemployment and the fear of unemployment to ensure the docility and subservience of its workers Under the capitalist system the stick of the fear of unemployment is necessary to keep workers noses to the grindstone and make them perform to the satisfaction of their employers The stick is needed because much work is boring the carrot paid is less than a living wage provides workers very little or no control over the work process and stifles creativity in short because the total carrot offered to numerous workers is so woefully inadequate Under a different system one in which working people participated fully in the decisions affecting what how and for what purpose goods and services were produced if we had a system based on economic democracy there would be no need to use the stick of the fear of unemployment The creativity of most of the millions of working people now mostly dormant would be awakened and the volume and quality of improvements and inventions especially in housing energy transit systems and health care would be so great as to tower high above and completely overshadow the number and purpose of the innovations created under the present system The issue of unemployment is shrouded in half truths and outright lies As a result there is almost total ignorance about the real causes of unemployment and worse still about its very serious consequences Many claim that there are enough jobs but that the unemployed are lazy and would rather be on welfare While this may be true of a very small fraction of the unemployed it is not true of the overwhelming majority There have been numerous instances in which whenever advertisements calling for applicants for relatively well paid jobs or for jobs that paid better than the minimum wage the number of applicants that applied for those jobs were ten or more times greater than the number of jobs that were advertised In September 26th of 1984 to mention just one instance the Associated Press News Agency reported that 50 000 people lined up for 350 jobs The report went on to say that the applicants some of whom waited in line for two days hope to land a longshoreman s job paying 15 45 an hour or a marine clerk s job earning 17 45 an hour However the fact that only 350 jobs are currently available didn t dismay the crowd which queued up in a line in the San Pedro district of Los Angeles that stretched for 13 mile Clearly the majority would rather have gainful employment at a living wage and live a life of dignity and

integrity Furthermore apart from the simple need to earn a living productive employment is an indispensable part of the psychological makeup of human beings Simply put people want to feel useful Prolonged joblessness is a serious threat to a person's self esteem and destroying that self esteem has appalling consequences The ugly truth is that the system under which we live will not or cannot provide jobs for those who need them The business class is simply not interested in full employment because mass unemployment provides them with many benefits Among those benefits a large pool of unemployed workers drives down the wages employers have to pay Adventures to the World's Hidden Corners Ray C.
