Lee, 2006 Russian history since 1855 has been marked by the rule of the Tsarist autocracy and Soviet communism This title examines both comparing their ideologies and their use of terror and repression to crush opposition to their rule *Europe, 1890-1945* Stephen J. amount of revisionist history can erase the reality of millions controlled imprisoned and killed but there was much more to the USSR's one party state than this Whittock tells a more complex story of the combination of cruelty co operation and compromise required to build and run a one party state Much of this is the story of the role played by the secret police in creating and sustaining such a form of government but it is much more than simply a history of the secret police This is because the police state which emerged in which dissent both real and imaginary was undoubtedly policed threatened and ruthlessly eliminated was more than just the product of the arrests interrogations executions and imprisonments carried out by the secret police The USSR was also made possible by a battle for hearts and minds which led millions of people to feel that they really had benefited from the system and had a stake in the new society

**Russia's Bitter Path to Modernity** Alexander Chubarov, 2001-01-01 Will it follow the model of the Western capitalist democracies as those who applied the economic shock therapy of the early 90s hoped or will it chose its own distinct path of development In this history of Russia from 1917 to the present Alexander Chubarov teases out certain themes developed in his previous book on tsarist Russia *The Fragile Empire*

One of the key factors to Russia's distinctiveness is its halfway location in the center of the Eurasian landmass. This lends an inevitability to the traditional cultural schism between Westernizing reformers and Slavophiles. Neither approach says Chubarov will work on its own. Chubarov offers a balanced view, abstaining from narrow ideologically biased assessments and examines the triumphs, yes, and failures of Russia's Soviet development within Russia's own cultural and historical context. Without ever minimizing the brutalities of the Soviet period, the state terror, the collectivizations, the labor camps, the deportations of whole peoples, Chubarov demonstrates much continuity between tsarist and Soviet Russia, with the latter often repeating the former's mistakes. Russia, says Chubarov, cannot turn its back on its Soviet experience. Far from being a blind alley or aberrant phase, the Soviet period was an organic part of Russia's history and was largely successful in turning Russia and most of the other Soviet republics into modern states.
