Food Allergy Labeling

Manufacturers of any food product that contains milk, eggs, tree nuts, peanuts, fish, shellfish, soy and wheat are instructed to clearly disclose, in plain English, the presence of these allergens on the ingredients label. Congress limited the labeling requirements to these 8 allergens because they account for more than 90% of all food allergies in the United States. Manufacturers must clearly name the allergen(s) in the list of ingredients.

For Example:

Ingredients: Flour (wheat), sugar, partially hydrogenated soybean oil, and/or cottonseed oil, high fructose corn syrup, whey (milk), eggs, vanilla, lecithin (soy). After the list of ingredients, they must place the word "Contains" followed by a list any of the 8 common allergens that may be in the food, for example: **Contains: Wheat, Milk, Eggs**
