Reading Biography:

Reading Biography Carl Rollyson, 2004-11-25 Most book reviewers know very little about the history or the art of biography. Indeed, if there is any art in biography, it is the rare reviewer that acknowledges it or knows how to discuss it. Usually, the reviewer regards biography as an occasion to wax eloquent about what he or she thinks of the subject. Little space, if any, is devoted to the biography's structure or style, to the biographer's peculiar problems, or to how the biography relates to others about the same subject. Carl Rollyson, a professional biographer and weekly columnist on Biography for The New York Sun, explores the ramifications of authorized and unauthorized biographies, investigates the relationship between biography and history, biography and fiction, biography and autobiography, as well as commenting on certain perennial biographical subjects such as Napoleon, on sub-genres such as children's biography, and on the most recent developments in life writing. Rollyson's aim is to reach not merely scholars but that vast general audience addicted to reading biography, enhancing their pleasure by providing insight or, you might say, the inside word on how biographies are put together. Rick Roche, 2012-03-07 Categorizing hundreds of popular biographies according to their primary appeal: character story, setting, language, and mood, and organizing them into thematic lists, this guide will help readers, advisors, more effectively recommend titles. [Read On Biography Reading Lists for Every Taste](#) is that essential go-to readers' advisory guide filling a gap in the growing readers' advisory literature with information about 450 biography titles most published within the last decade but also including some classic titles as well. The book focuses on life stories written in the third person with subjects ranging from individuals who lived in ancient times to the present day, hailed from myriad nations and gained fame in diverse fields. The contents are organized in order to facilitate identification of read-alikes and easy selection of titles according to appeal features such as character story, language, setting, and mood. Written specifically with librarians and their patrons in mind, this readers' advisory title will be invaluable in public, high school, and college libraries. *Literary Biography*

Michael Benton, 2010-02-09 *Literary Biography: An Introduction* illustrates and accounts for the literary genre that merges historical facts with the conventions of narrative while revealing how the biographical context can enrich the study of canonical authors. Provides up-to-date and comprehensive coverage of issues and controversies in life writing, a rapidly growing field of study. Offers a valuable biographical and historical context for the study of major classic and contemporary authors. Features an interview with Wilfred Owen's biographer Dominic Hibberd, a gallery of literary portraits with commentaries, close readings that illustrate the differences between fiction and biography, speculation about likely future developments, and detailed suggestions for further reading. British Biography Carl Rollyson, 2005-07-14 Biography as a literary genre is largely the product of the eighteenth century and of one seminal work James Boswell's *Life of Samuel Johnson* 1791 Boswell's innovations revolutionized the genre and made it the target of suppression and censorship He sought not only to memorialize a great man but also to reveal his flaws Boswell reported long stretches of Johnson's conversation noted his mannerisms and in general gave an intimate picture such as no biography had ever before dared to attempt After Boswell there was a retreat from his bolder innovations which amounted to self censorship on the biographer's part When Thomas Carlyle's biographer James Anthony Froude braved this trend against truth and allowed his subject's dark side to show he was vilified in the press The tensions between discretion and candor have endured in British biography since Froude a point Carl Rollyson makes in the reviews of contemporary British biographers he includes in *British Biography* which also contains Johnson's full length biography of Richard Savage excerpts from Boswell's *Life of Johnson* as well selections from and commentaries on Southey's biography of Nelson Mrs Gaskell's biography of Charlotte Bront and the revolutionary work of Froude and Strachey

American Biography Carl Rollyson, 2006-02 This collection of reviews selected from Rollyson's *New York Sun* column is as much about the romance of biography as it is about the American lives Certain concerns resonate throughout the book the American left's failure to reckon with Communist subversion McCarthyism and Stalinism the problematic nature of authorized biography the history of American biography definitive biographies literary biography the differences between autobiography and biography the importance of interviews in biographies of contemporary figures the differences between history and biography comparative biographies the virtues of short biographies and of biographies for children the tendency of biographers to fictionalize and of novelists to biographize psychology and biography Rollyson's own experience as a biographer and the way biographers treat one another's work Too many biographers he believes evince no interest in the biographical tradition Concerned only with possession of their subjects their proprietorial attitude deforms not only their biographies but also the genre itself If biography is reviewed badly receiving hardly more than a summary of the subject's life with a perfunctory nod to the
