Holly Hunt's groundbreaking work *Emotional Exorcism* offers all those in emotional distress a new way to face one's demons and banish them once and for all. For anyone unable to pull themselves out of sadness, anxiety, anger, or addictive behaviors, it is a potent and practical strategy for expelling psychological demons and stopping the feeling of failure. Drawing on years of experience in private practice with clients of all backgrounds, Dr. Hunt shows how earlier life experiences can create a core of negative belief she calls the Master Demon, as well as self-sabotaging thoughts and behavior patterns called the Four Soldier Demons. These generate emotional negativity within us, providing a power source for the demons. Dr. Hunt then provides a practical, user-friendly, research-grounded model to change those self-sabotaging thoughts, behaviors, and feelings without the self-defeating burden of battling ourselves. Through a variety of tools, she empowers readers to separate from, stop feeding, and effectively exorcise our psychological demons.

Go Green Get Lean Kate Geagan, 2009-03-17 Over the past 20 years, America has been steadily marching toward a diet that is more drenched in fossil fuel than any key nutrient. Experts estimate that it now takes roughly 7 to 10 calories of fossil fuel energy to bring one calorie of food energy to the American plate. Not only have our eating habits turned us into an increasingly overweight society, but the alarming truth is that our food choices are having as much of an impact on the planet as the cars we drive. *Go Green Get Lean* is the perfect eating plan for our time. Revealing easy-to-follow steps anyone can take to eat for a healthy body and planet and drop up to 9 pounds in the first 2 weeks, Kate Geagan helps readers see the questionable value of convenience foods and explains why going green doesn't require a drastic vegan overhaul. Because there are many nutritional benefits to be drawn from some non-plant-based food choices, she points readers to the best selections, including occasional splurges they can enjoy in good conscience. In learning to make truly LEAN choices, Kate offers the following straightforward formula: Before eating food, ask yourself: Local or global? What was the energy used to bring it to my plate? Include processing, packaging, transportation, and temperature of food. Animal or plant? Plant foods are greener. Is this necessary? Is this food critical to my health and weight goals? This trailblazing work, the first to offer a specific weight loss plan along with the promise of a lowered carbon footprint, makes it possible for readers to help the environment and their waistlines at the same time.
