Realistic Therapist Modesty And Relativism In Therapy And Research:

The Realistic Therapist Robert G. Ryder,1987-02 In recent years there has been a growing awareness of the need to bridge the gap between research and therapy The Realistic Therapist is an important step in this direction Thought provoking and controversial this book shows how a modest attitude towards professional capabilities and a realistic appreciation of limits of accomplishment are essential to success

The Realistic Therapist Robert G. Ryder,1987 In recent years there has been a growing awareness of the need to bridge the gap between research and therapy The Realistic Therapist is an important step in this direction Thought provoking and controversial this book shows that a modest attitude towards professional capabilities and a realistic appreciation of limits of accomplishment are essential to success A fundamental theme of this challenging work is the importance of point of view in approaching research and therapy The examples are primarily in the area of marriage and family but the points made are general to social science and therapy They are pertinent to anyone concerned with knowing about human activity and with how much one can know Ryder writes in a stimulating and highly readable style with pithy examples and subtle humour

Human Behavior Theory Roberta Greene,2017-09-29 In recent years advocates for civil rights for minorities women and gays and lesbians have become more informed consumers of mental health services As a result social work practitioners need to prepare themselves to serve diverse constituencies for who previously held behavioral and cultural assumptions have proven not to be universally applicable The purpose of Greene s book is to help students and practitioners better understand how social workers have used human behavior theories to more competently address variations in group and community membership within the social worker client encounter The book s approach is largely thematic Most of the chapters explore how particular assumptions of a human behavior theory psychoanalytic theory psychodynamic ego psychology theory systems theory behavioral theory symbolic interaction theory feminist theory constructionist theory small group theory and an ecological perspective have been used to answer issues related to cultural diversity The challenges and limitations of each theory s applications across varying client constituencies are discussed throughout What sorts of new conceptual issues for the practitioner of family services are raised in work with minority families for example or with lesbian families How does a specific theory help or not help in group specific interventions and evaluations Intended as a companion volume to the widely adopted human behavior text by Greene and Ephross Greene s new book fills the need for a wide synthetic reading of the recent literature

National Library of Medicine Current Catalog National Library of Medicine (U.S.), *Realities and Relationships* Kenneth J. Gergen,2009-06-01 Recent attempts to challenge the primacy of reason and its realization in foundationalist accounts of knowledge and cognitive formulations of human action have focused on processes of discourse Drawing from social and literary accounts of discourse Kenneth Gergen considers these challenges to empiricism under the banner of social construction His aim is to outline the major elements of a social constructionist perspective to illustrate its potential and to

initiate debate on the future of constructionist pursuits in the human sciences generally and psychology in particular *The Case for Pragmatic Psychology* Daniel Fishman, 2016-04-26 The best method is the one that works Should be read not only by professional psychologists but by anyone interested in the future of mind related science John Horgan author of *The End of Science* A cursory survey of the field of psychology reveals raging debate among psychologists about the methods goals and significance of the discipline psychology's own version of the science wars The previous unification of the discipline has given way to a proliferation of competing approaches a postmodern carnival of theories and methods that calls into question the positivist psychological tradition Bridging the gap between the traditional and the novel Daniel B Fishman proposes an invigorated hybrid model for the practice of psychology a radical pragmatic reinvention of psychology based on databases of rigorous solution focused case studies In *The Case for Pragmatic Psychology* Fishman demonstrates how pragmatism returns psychology to a focus on contextualized knowledge about particular individuals groups organizations and communities in specific situations sensitive to the complexities and ambiguities of the real world Fishman fleshes out his theory by applying pragmatic psychology to two contemporary psychosocial dilemmas the controversies surrounding the psychotherapy crisis generated by the growth of managed care and the heated culture wars over educational reform Moving with ease from the theoretical to the nuts and bolts of actual psychological intervention programs Fishman proffers a strong argument for a new kind of psychology with far reaching implications for enhancing human services and restructuring public policy

Clinical Epiphanies in Marital and Family Therapy David A Baptiste, 2014-04-23 How would you handle these situations Check your expertise against the approaches presented here This fascinating collection shows how a practicing therapist handled clients stuck in the therapeutic process *Clinical Epiphanies in Marital and Family Therapy A Practitioner's Casebook of Therapeutic Insights Perceptions and Breakthroughs* presents a cross section of approaches and orientations as they work in practice The families and couples discussed here have experienced a wide range of difficulties and the presenting and commenting therapists run the gamut in age gender race and theoretical orientation The serendipitous turning points presented here are all true case studies but *Clinical Epiphanies in Marital and Family Therapy* offers more than the chance to second guess a single therapist's handling of explosive moments Each case study is also discussed by two other therapists representing divergent points of view This point counterpoint structure allows readers to analyze the effectiveness of different therapeutic approaches and to recognize that in practice heterogeneous orientations may result in similar strategies *Clinical Epiphanies in Marital and Family Therapy* demonstrates the factors that contribute to doing successful therapy including ensuring that clients feel they are being treated with respect establishing a sound therapeutic relationship making successful treatment bargains moving away from your therapeutic agenda when necessary being persistent in the face of a stubborn refusal to change *Clinical Epiphanies in Marital and Family Therapy* offers fresh strategies for experienced practitioners beginning therapists and educators in the field of mental health

Human Behavior Theory Roberta R.

Greene, Nancy P. Kropf, 2011-12-31 As American society becomes increasingly diverse social workers must use a variety of human behavior frameworks to understand their clients culturally complex concerns This text applies specific human behavior theories to diversity practice They show how human behavior theory can be employed in interventions in the life problems of diverse client populations at the individual group social network and societal levels Several groups are examined They include minority groups ethnic groups women older adults members of certain social classes affected by economic and educational disadvantage especially those living in poverty people with developmental disabilities people of varying sexual and gender orientations and religious groups Case studies that illustrate social work practice in the area are highlighted The case studies include Social Work Practice within a Diversity Framework The Social Work Interview Symbolic Interactionism Social Work Assessment Meaning and Language Erikson's Eight Stages of Development Role Theory and Social Work Practice A Constructionist Approach Risk Resilience and Resettlement Addressing Diverse Family Forms Small Group Theory Natural Social Networks Power Factors in Social Work Practice This volume will be a fundamental resource for practitioners and an essential tool for training *Sourcebook of Family Theories and Methods* Pauline Boss, William J. Doherty, Ralph LaRossa, Walter R. Schumm, Suzanne K. Steinmetz, 2008-11-19 Origins We call this book on theoretical orientations and methodological strategies in family studies a sourcebook because it details the social and personal roots i.e. sources from which these orientations and strategies flow Thus an appropriate way to preface this book is to talk first of its roots its beginnings In the mid 1980s there emerged in some quarters the sense that it was time for family studies to take stock of itself A goal was thus set to write a book that like Janus would face both backward and forward a book that would give readers both a perspective on the past and a map for the future There were precedents for such a project The Handbook of Marriage and the Family edited by Harold Christensen and published in 1964 the two Contemporary Theories about the Family volumes edited by Wesley Burr Reuben Hill F. Ivan Nye and Ira Reiss published in 1979 and the Handbook of Marriage and the Family edited by Marvin Sussman and Suzanne Steinmetz then in production *Pioneering Paths in the Study of Families* Gary W. Peterson, Suzanne Steinmetz, 2014-03-18 Meet the men and women whose groundbreaking work elevated the field of family studies In *Pioneering Paths in the Study of Families: The Lives and Careers of Family Scholars* you will find 40 autobiographies written by leading scholars in sociology family studies psychology and child development Their fascinating stories demonstrate how their family experiences educational opportunities and occupational endeavors not only shaped the disciplines they chose but also shaped the theoretical perspectives they utilized and the topics they researched From the editors These autobiographies document the experiences of scholars from the early twentieth century to the present The descriptions of early influences on their education of their graduate school experiences and of their academic career paths provides a wealth of valuable material Since four of these scholars have died and a number are in their eighties or older these histories provide rich case studies on factors that influence the decision to go to college get married pursue an

advanced degree make specific occupational choices and investigate certain topics These autobiographies also detail the barriers that early women scholars in the social sciences faced The scholars whose lives you will learn about in *Pioneering Paths in the Study of Families* include Joan Aldous Katherine R Allen Pauline Boss Carlfred B Broderick Wesley R Burr Catherine Street Chilman Harold T Christensen Marilyn Coleman Rand D Conger Randal D Day William J Doherty Evelyn Millis Duvall Glen H Elder Jr Bernard Farber Margaret Feldman Mark A Fine Greer Litton Fox Frank F Furstenberg Viktor Gecas Harold D Grotevant Gerald Handel Michael E Lamb Ralph LaRossa Gary R Lee Helena Znaniecka Lopata Harriette P McAdoo Hamilton McCubbin Brent C Miller Phyllis Moen Gerhard Neubeck Gary W Peterson Ira L Reiss John Scanzoni Walter R Schumm Barbara H Settles Laurence Steinberg Suzanne K Steinmetz Sheldon Stryker Marvin B Sussman Irv Tallman
