Literature Suppressed on Religious Grounds Margaret Bald, 2014-05-14 Literature Suppressed on Religious Grounds Revised Edition profiles the censorship of many such essential works of literature The entries new to this edition include extensive coverage of the Harry Potter series which has been frequently banned in the United States on the grounds that it promotes witchcraft as well as entries on two popular textbook series The Witches by Roald Dahl Women Without Men A Novel of Modern Iran and more Also included are updates to such entries as The Satanic Verses by Salman Rushdie and On the Origin of Species by Charles Darwin

Literature Suppressed on Religious Grounds, Fourth Edition Margaret Bald, 2019-08-01 Censorship of religious and philosophical speculation is as old as history and as current as today's headlines Many of the world's major religious texts including the Bible the Talmud the Koran and others have been suppressed condemned or proscribed at some time Works of secular literature that touch upon religious beliefs or reflect dissenting views have also been suppressed Literature Suppressed on Religious Grounds Fourth Edition profiles the censorship of many of these works These include the frequently challenged Harry Potter series which critics accuse of promoting witchcraft and anti family themes as well as Philip Pullman's His Dark Materials trilogy and Dan Brown's The Da Vinci Code Entries include The Age of Reason Thomas Paine The Analects Confucius The Battle for God Karen Armstrong The Bible Children of the Alley Naguib Mahfouz Critique of Pure Reason Immanuel Kant The Da Vinci Code Dan Brown Dialogue Concerning the Two Chief World Systems Galileo Galilei Discourse on Method Rene Descartes Don Quixote Miguel de Cervantes Saavedra The Harry Potter series J K Rowling His Dark Materials Philip Pullman The Jewel of Medina Sherry Jones The Koran The Last Temptation of Christ Nikos Kazantzakis On the Origin of Species Charles Darwin The Satanic Verses Salman Rushdie The Talmud Thirteen Reasons Why Jay Asher and more

Culture and Customs of Morocco Raphael Chijioke Njoku, 2005-12-30 Moroccan culture today is a blend of Berber African Arab Jewish and European influences in an Islamic state Morocco's strategic position at the tip of North Africa just below Spain has brought these cultures together through the centuries The parallels with African and Middle Eastern countries and other Muslim cultures are drawn as the major topics are discussed yet the uniqueness of Moroccan traditions particularly those of the indigenous Berbers stand out The narrative emphasizes the evolving nature of the storied subcultures With more exposure to Western style education and pop culture the younger generations are gradually turning away from the strict religious observances of their elders General readers finally have a substantive resource for information on a country most known in the United States for the Humphrey Bogart classic Casablanca images of the souks markets hashish and Berber rugs The strong introduction surveys the people land government economy educational system and history Most weight is given to modern history with French colonial rule ending in 1956 and a succession of monarchs since then The discussion of religion and worldview illuminates the Islamic base and Jewish communities but is also notable for the discussion of Berber beliefs in spirits In the Literature and Media

chapter the oral culture of the Berbers and the new preference for Western style education and use of French and even English are highlights The Moroccans are renowned as skilled artisans and their products are enumerated in the Art and Architecture Housing chapter along with the intriguing descriptions of casbahs and old quarters in the major cities Moroccans are hospitable and family oriented which is reflected in descriptions of their cuisine and social customs Moroccan women seem to be somewhat freer than others in Muslim countries but the chapter on Gender Roles Marriage and Family shows that much progress is still needed Ceremonies and celebrations are important cultural markers that bring communities together and a wealth of religious national and family rites of passage with accompanying music and dance round out the cultural coverage

The Encyclopedia of the Wars of the Early American Republic, 1783-1812 Spencer C. Tucker, 2014-06-11 Relatively little attention has been paid to American military history between 1783 and 1812 arguably the most formative years of the United States This encyclopedia fills the void in existing literature and provides greater understanding of how the nation evolved during this era This encyclopedia offers a comprehensive examination of U S military history from the beginning of the republic in 1783 up to the eve of war with Great Britain in 1812 It enables a detailed study of the Early Republic during which ideological and political divisions occurred over the fledgling U S military The entries cover all the important battles key individuals weapons Indian nations and treaties as well as numerous social political cultural and economic developments during this period The contents of the work will enable readers at the high school college university and even graduate level to comprehend how political parties emerged and how ideological differences over the organization size and use of the military developed Larger global developments including Anglo American and Franco American interactions relations between Middle Eastern states and the United States and relations and warfare between the U S government and various Indian nations are also detailed The extensive and detailed bibliographies will be immensely helpful to learners at all levels

Narration, Navigation, and Colonialism Jamal Eddine Benhayoun, 2006 The texts collected in this book are all produced and located within the converging fields of navigation and displacement The connection between navigation and narration becomes clear when we realise that most of the authors and heroes of the accounts discussed by the author were in one way or another involved in shipping and navigation and that their accounts were produced within fluid and floating spaces and in the course of intriguing voyages and long cruises In all cases these narratives start with the narrators on board ships and end with them once again taking charge of their ships and sailing back home In this book the author argues that the seventeenth and eighteenth century English narratives of adventure and captivity were not produced within clearly demarcated territories and on dry land but within spaces of indeterminacy struggle and transition

Beyond Nations John R. Chavez, 2009-06-29 Beyond Nations traces the evolution of peripheral ethnic homelands around the North Atlantic from before transoceanic contact to their current standing in the world political system For example Megumaage homeland of the Micmac is transformed into the French colony of Acadia

then into the British colony of Nova Scotia and subsequently into the present Canadian province Centrally Professor Ch vez tracks the role of colonialism in the transformation of such lands but especially the part played by federalism in moving beyond the ethnic and racial conflicts resulting from imperialism Significantly Ch vez gives attention to the effects of these processes on the individual mind arguing that historically federalism has permitted the individual to sustain and balance varying ethnic loyalties regionally nationally and globally Beyond Nations concludes with a discussion of an evolving global imagination that takes into account migrations borderlands and transnational communities in an increasingly postcolonial and postnational world

African Cultural Values Raphael Chijoke Njoku, 2013-10-23 Although numerous studies have been made of the Western educated political elite of colonial Nigeria in particular and of Africa in general very few have approached the study from a perspective that analyzes the impacts of indigenous institutions on the lives values and ideas of these individuals This book is about the diachronic impact of indigenous and Western agencies in the upbringing socialization and careers of the colonial Igbo political elite of southeastern Nigeria The thesis argues that the new elite manifests the continuity of traditions and culture and therefore their leadership values and the impact they brought on African society cannot be fully understood without looking closely at their lived experiences in those indigenous institutions where African life coheres The key has been to explore this question at the level of biography set in the context of a carefully reconstructed social history of the particular local communities surrounding the elite figures It starts from an understanding of their family and village life and moves forward striving to balance the familiar account of these individuals in public life with an account of the ongoing influences from family kinship age grades marriage and gender roles secret societies the church local leaders and others The result is not only a model of a new approach to African elite history but also an argument about how to understand these emergent leaders and their peers as individuals who shared with their fellow Africans a dynamic and complex set of values that evolved over the six decades of colonialism

The Western Mediterranean and the World Teofilo F. Ruiz, 2017-09-12 From the Straits of Gibraltar to Sicily the European northern Mediterranean nations to the shores of North Africa the western Mediterranean is a unique cultural and sociopolitical entity which has had a singular role in shaping today's global society The Western Mediterranean and the World is the fascinating story of the rise of that peculiar world and of its evolution from the end of the Western Roman Empire to the present Uniquely rather than present the history of the region as a strict chronological progression the author takes a thematic approach telling his story through a series of vignettes case studies and original accounts so as to provide a more immediate sense of what life in and around the Mediterranean was like from the end of the Roman Empire in the West to the present immigration crisis now unfolding in Mediterranean waters Emphasizing the development of religion and language and the enduring synergies and struggles between Christian Jews and Muslims on both shores of the western sea Dr Ruiz connects the region to the larger world and locates the development of Mediterranean societies within a global context Describes the move from religious and linguistic

unity under Roman rule to the fragmented cultural landscape of today Explores the relationship of language culture and geography focusing on the role of language formation and linguistic identity in the emergence of national communities Traces the movements of peoples across regions and their encounters with new geographical cultural and political realities Addresses the emergence of various political identities and how they developed into set patterns of political organization Emphasizes the theme of encounters as seen from Christian Muslim and Jewish perspectives While it is sure to become a definitive text for university courses on Mediterranean history The Western Mediterranean and the World will also have great appeal among scholars of the Mediterranean as well as general readers of history Part of The Blackwell History of the World Series The goal of this ambitious series is to provide an accessible source of knowledge about the entire human past for every curious person in every part of the world It will comprise some two dozen volumes of which some provide synoptic views of the history of particular regions while others consider the world as a whole during a particular period of time The volumes are narrative in form giving balanced attention to social and cultural history in the broadest sense as well as to institutional development and political change Each provides a systematic account of a very large subject but they are also both imaginative and interpretative The Series is intended to be accessible to the widest possible readership and the accessibility of its volumes is matched by the style of presentation and production

One Thousand Roads to Mecca

Michael Wolfe,2015-09-29 Wolfe does an exemplary job of detailing the ceremonies performed at Mecca and the reasons behind them Highly recommended Library Journal starred review This updated and expanded edition of One Thousand Roads to Mecca collects significant works by observant travel writers from the East and West over the last ten centuries including two new contemporary narratives creating a comprehensive multifaceted literary portrait of the enduring tradition Since its inception in the seventh century the pilgrimage to Mecca has been the central theme in a large body of Islamic travel literature Beginning with the European Renaissance it has also been the subject for a handful of adventurous writers from the West who through conversion or connivance managed to slip inside the walls of a city forbidden to non Muslims These very different literary traditions form distinct impressions of a spirited conversation in which Mecca is the common destination and Islam the common subject of inquiry Along with an introduction by Reza Aslan featured writers include Ibn Battuta J L Burckhardt Sir Richard Burton the Begum of Bhopal John F Keane Winifred Stegar Muhammad Asad Lady Evelyn Cobbold Jalal Al e Ahmad and Malcolm X One Thousand Roads to Mecca is a historically geographically and ethnically diverse collection of travel writing that adds substantially to the literature of Islam and the West Serves as an excellent introduction to a religion people culture and philosophy Santa Cruz Sentinel
