## **Reappraising Republican China:**

**Reappraising Republican China** Richard Louis Edmonds, 1997      **The Body and Military Masculinity in Late Qing and Early Republican China** Nicolas Schillinger, 2016-12-12 In 1894-1895 after suffering defeat against Japan in a war primarily fought over the control of Korea the Qing government initiated fundamental military reforms and established New Armies modeled after the German and Japanese military. Besides reorganizing the structure of the army and improving military training the goal was to overcome the alleged physical weakness and lack of martial spirit attributed to Chinese soldiers in particular and to Chinese men in general. Intellectuals, government officials and military circles criticized the pacifist and civil orientation of Chinese culture which had resulted in a negative attitude towards its armed forces and martial values throughout society and a lack of interest in martial deeds, glory on the battlefield and military achievements among men. The book examines the cultivation of new soldiers, officers and civilians through new techniques intended to discipline their bodies and reconfigure their identities as military men and citizens. The book shows how the establishment of German style New Armies in China between 1895 and 1916 led to the re-creation of a militarized version of masculinity that stressed physical strength, discipline, professionalism, martial spirit and Western military appearance and conduct. Although the military reforms did not prevent the downfall of the Qing Dynasty or provide stable military clout to subsequent regimes they left a lasting legacy by reconfiguring Chinese military culture and re-creating military masculinity and the image of men in China.

**China's Communist Revolutions** Werner Draguhn, David S.G. Goodman, 2012-10-12 During its fifty years of existence the People's Republic of China has seen dramatic changes from the proclamation of the independent state through the period of the Communist Revolution, the Cultural Revolution, the Reform Period. These changes are analysed from the political, economic and social points of view challenging accepted orthodoxy. Throughout the emphasis is on change in the context of contemporary China and as part of the Chinese Communist Party's search for paths to development.

**China's Contested Capital** Charles D. Musgrove, 2013-07-31 When the Chinese Nationalist Party nominally reunified the country in 1928 Chiang Kai-shek and other party leaders insisted that Nanjing was better suited than Beijing to serve as its capital. For the next decade until the Japanese invasion in 1937 Nanjing was the model capital of Nationalist China, the center of not just a new regime but also a new modern outlook in a China destined to reclaim its place at the forefront of nations. Interesting parallels between China's recent rise under the Post Mao Chinese Communist Party and the Nationalist era have brought increasing scholarly attention to the Nanjing Decade 1927-1937, however study of Nanjing itself has been neglected. Charles Musgrove brings the city back into the discussion of China's modern development focusing on how it was transformed from a factional capital with only regional influence into a symbol of nationhood, a city where newly forming ideals of citizenship were celebrated and contested on its streets and at its monuments. *China's Contested Capital* investigates the development of the model capital from multiple perspectives. It explores the ideological underpinnings of the project by looking at the divisive

debates surrounding the new capital's establishment as well as the ideological discourse of Sun Yat Sen used to legitimize it. In terms of the actual building of the city it provides an analysis of both the scientific methodology adopted to plan it and the aesthetic experiments employed to construct it. Finally it examines the political and social life of the city looking at not only the reinvented traditions that gave official spaces a sacred air but also the ways that people actually used streets and monuments including the Sun Yat Sen Mausoleum to pursue their own interests often in defiance of Nationalist repression. Contrary to the conventional story of incompetence and failure Musgrove shows that there was more to Nationalist Party nation building than simply paper plans that never came to fruition. He argues rather that the model capital essentially legitimized a new form of state power embodied in new symbolic systems that the Communist Party was able to tap into after defeating the Nationalists in 1949. At the same time the book makes the case that although it was unintended by party planners who promoted single party rule Nanjing's legitimacy was also a product of protests and contestation which the party state only partially succeeded in channeling for its own ends. China's Contested Capital is an important contribution to the literature on twentieth century Chinese urban history and the social and political history of one of China's key cities during the Republican period.

**The Republic of China** Xavier Paules, 2023-11-08 The declaration of the Republic of China in 1912 signalled an entirely new era. Not only did the revolution of 1911-12 bring about the fall of the Qing dynasty it also brought an end to the entire series of dynasties that had marked Chinese history for over two millennia. Radical reforms since 1901 had culminated in the ending of the political status quo and the rejection of the very idea of empire. Drawing on the most recent historical research Xavier Paul's provides a comprehensive account of the crucial but chaotic period that stretched from the founding of the Republic of China in 1912 to the civil war of 1945-9 which ended with the victory of the Chinese Communist Party (CCP) and the establishment of the People's Republic of China. Paul's challenges various common claims about this period. It is often assumed that the CCP was instrumental in bringing about key events by skilfully mobilizing the population to serve its ends. Paul's argues by contrast that the CCP took advantage of fortunate circumstances and that even then it was only in a position to challenge the supremacy of the Guomindang as late as 1944. His analysis takes a broad view by considering the importance of political actors both within and external to the revolutionary movement enabling him to offer a balanced interpretation of the republican period which sheds new light on China's political, cultural and economic development.

**Republicanism in Northeast Asia** Jun-Hyeok Kwak, Leigh Jenco, 2014-11-13 As rapid economic development brings increasing uncertainty in East Asia interest in a new version of republicanism termed 'neo Roman republicanism' is growing across the region. Conceptualized as liberty as non-domination this new form of republicanism has inspired not only Western but also East Asian political theorists. However neo Roman republican ideas in Northeast Asian countries continue to face serious conceptual and political challenges which scholarly literature on both republicanism and on East Asian politics has largely failed to confront. This book addresses these challenges by surveying the

latest theoretical contributions to the studies of republicanism in Western countries and the latest interpretations of how republicanism including both communitarian republicanism and neo Roman republicanism has been appropriated in countries in East Asia In particular it deals with the key question of whether liberty as non domination can work in non Western contexts where the fundamental tenets of liberal democracy such as moral individualism and value pluralism do not predominate Across three sections the chapters first provide a conceptual overview of republicanism as a global political theory they then consider how republicanism has historically been received resisted and translated into East Asia and Finally they examine how historically informed possibilities fit with the emergent needs of contemporary Northeast Asian societies Overall the contributors show that republicanism is an always ongoing project whose terms must be interpreted and translated into the various communities they inform Normative considerations about whether or how republicanism applies in East Asia cannot be divorced from historical and empirical approaches which consider the various ways in which republican ideals reflect the realities of life there Dealing with the issue of republicanism from a new comparative perspective this book will have broad appeal to students and scholars of Asian studies comparative political theory political philosophy sociology and history
