Rearing Wolves to Our Own Destruction Midori Takagi, 2000-06-29 RICHMOND WAS NOT only the capital of Virginia and of the Confederacy it was also one of the most industrialized cities south of the Mason Dixon Line Boasting ironworks tobacco processing plants and flour mills the city by 1860 drew half of its male workforce from the local slave population **Rearing Wolves to Our Own Destruction** examines this unusual urban labor system from 1782 until the end of the Civil War Many urban bondsmen and women were hired to businesses rather than working directly for their owners As a result they frequently had the opportunity to negotiate their own contracts to live alone and to keep a portion of their wages in cash Working conditions in industrial Richmond enabled African American men and women to build a community organized around family networks black churches segregated neighborhoods secret societies and aid organizations Through these institutions Takagi demonstrates slaves were able to educate themselves and to develop their political awareness They also came to expect a degree of control over their labor and lives Richmond s urban slave system offered blacks a level of economic and emotional support not usually available to plantation slaves **Rearing Wolves to Our Own Destruction** offers a valuable portrait of urban slavery in an individual city that raises questions about the adaptability of slavery as an institution to an urban setting and more importantly the ways in which slaves were able to turn urban working conditions to their own advantage Money over Mastery, Family over Freedom Calvin Schermerhorn, 2011-06-15 Elegantly argued convincingly shows the centrality of enslaved men and women to the transformation of the coastal upper South s commercial life TheJournal of Southern History Once a sleepy plantation society the region from the Chesapeake Bay to coastal North Carolina modernized and diversified its economy in the years before the Civil War Central to this industrializing process was slave labor **Money over Mastery Family over Freedom** tells the story of how slaves seized opportunities in these conditions to protect their family members from the auction block Calvin Schermerhorn argues that the African American family provided the key to economic growth in the antebellum Chesapeake To maximize profits in the burgeoning regional industries slaveholders needed to employ or hire out a healthy supply of strong slaves which tended to scatter family members From each generation they also selected the young fit and fertile for sale or removal to the cotton South Conscious of this pattern the enslaved were sometimes able to negotiate mutually beneficial labor terms to save their families despite that new economy **Money over Mastery Family over Freedom** proposes a new way of understanding the role of American slaves in the antebellum marketplace Rather than work against it as one might suppose enslaved people engaged with the market

somewhat as did free Americans Slaves focused their energy and attention however not on making money as slaveholders increasingly did but on keeping their kin out of the human coffles of the slave trade Displays exhaustive research a well crafted argument and is a valuable addition to antebellum slave historiography H CivWar H Net Reviews **Building the Black City** Joe William Trotter,2024 Building the Black City shows how African Americans built and rebuilt thriving cities for themselves even as their unpaid and underpaid labor enriched the nation s economic political and cultural elites Covering an incredible range of cities from the North to the South the East to the West Joe William Trotter Jr traces the growth of Black cities and political power from the preindustrial era to the present Trotter defines the Black city as a complicated socioeconomic spiritual political and spatial process unfolding time and again as Black communities carved out urban space against the violent backdrop of recurring assaults on their civil and human rights including the right to the city As we illuminate the destructive depths of racial capitalism and how Black people have shaped American culture politics and democracy Building the Black City reminds us that the case for reparations must also include a profound appreciation for the creativity and productivity of African Americans on their own behalf *Brothers of a Vow* Ami Pflugrad-Jackisch,2011-11-01 In *Brothers of a Vow* Ami Pflugrad Jackisch examines secret fraternal organizations in antebellum Virginia to offer fresh insight into masculinity and the redefinition of social and political roles of white men in the South Young Virginians who came of age during the antebellum era lived through a time of tremendous economic cultural and political upheaval In a state increasingly pulled between the demands of the growing market and the long established tradition of unfree labor Pflugrad Jackisch argues that groups like the Freemasons the Independent Order of Odd Fellows and the Sons of Temperance promoted market oriented values and created bonds among white men that softened class distinctions At the same time these groups sought to stabilize social hierarchies that subordinated blacks and women Pflugrad Jackisch examines all aspects of the secret orders including their bylaws and proceedings their material culture and regalia and their participation in a wide array of festivals parades and civic celebrations Regarding gender she shows how fraternal orders helped reinforce an alternative definition of southern white manhood that emphasized self discipline moral character temperance and success at work These groups ultimately established a civic brotherhood among white men that marginalized the role of women in the public sphere and bolstered the respectability of white men regardless of class status *Brothers of a Vow* is a nuanced look at how dominant groups craft collective identities and it adds to our understanding of citizenship and political culture during a period of rapid change **Confederate Citadel** Mary A. DeCredico,2020-05-19 Richmond Virginia pride of the founding fathers doomed capital of the Confederate States of America Unlike other Southern cities Richmond boasted a vibrant urban industrial complex capable of producing crucial ammunition and military supplies Despite its northern position Richmond became the Confederacy s beating heart its capital second largest city and impenetrable citadel As long as the city endured the Confederacy remained a well supplied and formidable force But when Ulysses S Grant broke its defenses in 1865 the

Confederates fled burned Richmond to the ground and surrendered within the week Confederate Citadel Richmond and Its People at War offers a detailed portrait of life s daily hardships in the rebel capital during the Civil War Here barricaded against a siege staunch Unionists became a dangerous fifth column refugees flooded the streets and women organized a bread riot in the city Drawing on personal correspondence private diaries and newspapers author Mary A DeCredico spotlights the human elements of Richmond s economic rise and fall uncovering its significance as the South s industrial powerhouse throughout the Civil War

An insightful exploration of the complexity of Black women's wartime and postwar experiences across the American South. **Word, Like Fire** Valerie C. Cooper, 2011. African American theologian Maria Stewart was born free in Connecticut and delivered five speeches in Boston and New York between 1831 and 1833 that were published with other writings by her in 1835 and 1879 as *Productions of Mrs Maria W Stewart*. Though the speeches were highly political, Cooper argues that they are also deeply theological and shows how they use the Bible extensively to buttress Stewart's arguments on behalf of Black people and women's rights and empowerment.
