resources status and encouragement available to their white peers and alienated them from the rest of their ethnic group For Ellison to pursue meaningful intellectual activities in the face of this marginalization demanded creative heroism a new social and artistic stance that challenges cultural stereotypes For example Ellison first created an artistic space for himself by associating with Communist party literary circles which recognized the value of his writing long before the rest of society was open to his work In addition to avoid prescriptive white intellectual norms Ellison developed his own ideology which Watts terms the blues aesthetic Watts s ambitious study reveals a side of Ellison rarely acknowledged blending careful criticism of art with a wholesale engagement with society Approaches to Teaching the Works of Miguel de Unamuno Luis Álvarez-Castro,2020-04-01 Offers pedagogical techniques for teaching the fiction poetry plays and philosophical works of Miguel de Unamuno in college Spanish and comparative literature classrooms including considerations of romanticism modernity Catholicism existentialism autofiction and metafiction Includes information on reference works and online resources Gives syllabus suggestions for undergraduate and graduate courses **The Encyclopedia of Christian Literature** George Thomas Kurian,James D.
