Donald Winnicott and the Politics of Care Joanna Kellond, 2022-03-20 This book explores the significance of psychoanalyst Donald Winnicott's ideas for contemporary debates about care. Locating Winnicott in relation to a range of fields including psychology, philosophy, sociology, critical theory and feminist theory, it examines the implications of his thinking for understanding and transforming the relationship between care and society. Winnicott was unique amongst psychoanalysts for the emphasis he placed on care in the development of subjectivity. The book unpacks Winnicott's understanding of care and assesses its relevance for conceptions of social responsibility, justice and transformation. In a world where care is in crisis, how might we theorise the conditions necessary for the development of caring subjectivities and is it possible to infer a relationship between those conditions and progressive social change? This unique book will be of interest to readers in psychosocial studies, politics and anyone concerned with thinking about the relationship between care and social transformation.

Managed Lives: Psychoanalysis, inner security and the social order Steven Groarke, 2013-10-30 An inherent tension exists in the history of psychoanalysis and its applications between the concepts of freedom and security. In *Managed Lives*, this tension is explored from the point of view of therapeutic experience. Set against the background of Freud's contested legacy, the book examines ways of managing oneself under psychiatric supervision in the analytic encounter and in the emotional and moral contexts of everyday life. Through a series of detailed case studies, Steven Groarke addresses therapeutic experience as a formation of managed society, examining the work of Donald Winnicott on types of management, Colin Murray Parkes on bereavement and Anthony Giddens on the sociological appropriation of psychoanalysis. *Managed Lives* forms an original critical analysis of contemporary managerial culture and its self-reflexive project as well as presenting the idea of management as a source of inner security and vital morality. Presented in three parts, the book addresses: The Criterion of Maturity, The Reflexive Norm, The Managed Society. Together, the book's arguments provide a fresh and challenging perspective on post-Freudian uses of faith, the risks of critical rationality and the difficulties of living an ethical life under modern conditions. *Managed Lives* is ideal for academics and research students working on psychoanalytic studies, social theory and mental health studies as well as students and trainees taking courses in psychotherapy, counselling, social work and health and social care.

Narcissism, Melancholia and the Subject of Community Barry Sheils, Julie Walsh, 2017-11-06 This book brings together the work of scholars and writer-practitioners of psychoanalysis to consider the legacy of two of Sigmund Freud's most important metapsychological papers: *On Narcissism: An Introduction* (1914) and *Mourning and Melancholia* (1917/1915). These twin papers conceived in the context of unprecedented social and political

turmoil mark a point in Freud's metapsychological project wherein the themes of loss and of psychic violence were becoming incontrovertible facts in the story of subject formation. Taking as their concern the difficulty of setting apart the inner and the outer worlds as well as the difficulty of preserving an image of the coherently bounded subject, the psychoanalytic frameworks of narcissism and melancholia provide the background coordinates for the volume's contributors to analyse contemporary subjectivities in new psychosocial contexts. This collection will be of great interest to all scholars and practitioners of psychoanalysis and the psychotherapies, social and cultural theory, gender and sexuality studies, politics and psychosocial studies.

The Unconscious in Social and Political Life David Morgan, 2019-07-30. Traumatic events happen in every age yet there is a particularly cataclysmic feeling to our own epoch that is so attractive to some and so terrifying to others. The terrible events of September 11th 2001 still resonate and the repercussions continue to this day: the desperation of immigrants fleeing terror, the uncertainty of Brexit, Donald Trump in the White House, the rise of the alt right and hard left, increasing fundamentalism and terror groups intent on causing destruction to the Western way of life. If that were not enough, we also have to grapple with the enormity of climate change and the charge that if we do not act now it will be too late. Is it any wonder many are left overwhelmed by the events they see on the news? Galvanised by the events outside of his consulting room in 2015, David Morgan began The Political Mind seminars at the British Psychoanalytical Society and their successful run continues today. A series of superlative seminars mostly presented by colleagues from the British Society plus a few select external experts that examine a dazzling array of relevant topics to provide a psychoanalytic understanding of just what is going on in our world. This book is the first in The Political Mind series to bring these seminars to a wider audience. *The Unconscious in Political and Social Life* contains compelling contributions from Christopher Bollas, Michael Rustin, Jonathan Sklar, David Bell, Philip Stokoe, Roger Kennedy, David Morgan, M Fakhry Davids, Ruth McCall, R D Hinshelwood, Renee Danziger, Josh Cohen, Sally Weintrobe and Margot Waddell. They investigate so many vital issues affecting us today: the evolution of democracy, right wing populism, prejudice, the rise of the far right, attitudes to refugees and migrants, neoliberalism, fundamentalism, terrorism, the Palestine-Israel situation, political change, feminism, austerity in the UK, financial globalisation and climate change. This book needs to be read by all who are concerned by the state of the world today. Psychoanalysis and psychoanalysts, with their awareness of what motivates human beings, bring clarity and fresh insight to these matters. A deeper understanding of humanity awaits the reader of *The Unconscious in Political and Social Life*.

Surviving Space Andrew Briggs, 2018-06-13. *Surviving Space* is a collection of papers on infant observation and related issues by contemporary experts in the field, commemorating the centenary of Esther Bick and the unique contribution she has made to psychoanalytic theory. As part of the prestigious Tavistock Clinic Series, this is an essential addition to this highly valued and innovative series. Infant observation is crucial to most psychotherapy training and this work would be of obvious value to those commencing their training as well as valuable insights for all psychotherapists.
