The Rise and Decline of the Insurgency in Pakistan's FATA Shahzad Akhtar, 2022-12-16 This book analyzes the emergence rise and decline of insurgency by the Pakistani Taliban in Pakistan's North Western region also known as Federally Administered Tribal Areas FATA It provides a detailed account of the rise and decline of the FATA insurgency and also examines aftereffects of the insurgency Offering an in depth analysis of how insurgency in the FATA began in 2004 after Pakistan entered its military forces into the tribal areas the author illustrates that the insurgency erupted when state repression on masses is combined with a disruption of the previous modus vivendi centered on co-optation of local elites In the following years the insurgency became so powerful that most of the FATA region fell under the control of the insurgents The book further argues that a weak counterinsurgency strategy by the Pakistani government characterised by the overzealous use of force and a failure to win the support of local communities led the insurgency to become stronger and expand its control Furthermore the analysis reveals that a more robust counterinsurgency strategy relying more on a determined and a judicious use of force and attempts to gain the trust and support of local communities adopted in the later years led to the collapse of the insurgency In short this book offers an explanation of what makes an insurgency more likely to occur and how insurgency escalates and declines In addition this book sheds light on recent development in FATA including the merger of FATA with the mainstream Pakistan the rise of the Pashtun Tahafuz Movement a non violent protest movement and the resurgence of the Pakistani Taliban especially after the Afghan Taliban capture of Kabul in the wake of US withdrawal of forces in Afghanistan This book is a timely addition to the literature on South Asian Politics and Security Studies
