Rebuilding Societies After Civil War Critical Roles For International Assistance:

Rebuilding Societies After Civil War Krishna Kumar,2023 The authors seek to identify ways in which international aid to war torn societies can best promote political stability and economic growth Explaining Post-Conflict Reconstruction Desha Girod,2015-02-02 The international community has donated nearly one trillion dollars during the last four decades to reconstruct post conflict countries Where did the money go This book argues that foreign aid only fosters reconstruction when post conflict leaders are desperate for income and thus depend on aid that comes with reconstruction strings attached

Guerrilla Veterans in Post-war Zimbabwe Norma J. Kriger,2003-05-29 Zimbabwe s guerrilla veterans have burst into the international media as the storm troopers in Mugabe s new war of economic liberation In this book Norma Kriger gives the unfolding contemporary drama a historical background and shows continuities between the present and past Between 1980 and 1987 guerrilla veterans and the ruling party colluded with and manipulated each other to build power and privilege in the army police bureaucracy and among workers Both relied chiefly on violence and appeals to their participation in the anti colonial liberation war as they sought to vanquish their then political opponents Today violence and a liberation war discourse continue to be salient as Mugabe s party and its guerrilla veterans struggle to maintain power through land invasions and purges of a new political opposition This study gives a critical review of guerrilla programs and the war to peace transitions literatures thus changing the way we view post conflict societies **International Statebuilding in**

West Africa Abu Bakarr Bah,Nikolas Emmanuel,2024-08-06 At the turn of the twenty first century manipulation of the democratic process coupled with preexisting political and economic grievances led to years long civil wars in Sierra Leone Liberia and C te d Ivoire During and after these conflicts international peacekeeping efforts and humanitarian intervention became the dominant paths for restoring stability by rebuilding the state Using these three countries as case studies this manuscript sheds light on internationally driven state building in war torn West African nations the problematic nature of the postcolonial state and the difficulties of securing its people s wellbeing Connecting peace and conflict democracy and international development studies Bah and Emmanuel argue that there is a clear nexus between the concepts and practices of peace building and statebuilding that peace building and statebuilding are not domestic matters alone but also matters of global intervention and that civil wars can be viewed as opportunities for state building through creative postwar partnerships and organization This study goes beyond the familiar concepts of failed states R2P peacekeeping and peace mediation and introduces and enhances the concepts of state decay new humanitarianism people centered liberalism and institutional design In doing so it provides critical lessons that local and international actors can draw on as they try to figure out practical solutions to the political economic and social problems that impede the development of peaceful and democratic multiethnic postcolonial states in Africa and beyond Applying comparative historical methods and theory to archival materials and expert interviews International Statebuilding in West Africa seeks to shift the discourse on civil wars from their

causes and implications to the opportunities they provide to rework failed states and to shift the discourse on African states from their colonial and neocolonial legacies to their shared moral and security interests with the rest of the world At War's End Roland Paris, 2004-05-24 All fourteen major peacebuilding missions launched between 1989 and 1999 shared a common strategy for consolidating peace after internal conflicts immediate democratization and marketization Transforming war shattered states into market democracies is basically sound but pushing this process too quickly can have damaging and destabilizing effects The process of liberalization is inherently tumultuous and can undermine the prospects for stable peace A more sensible approach to post conflict peacebuilding would seek first to establish a system of domestic institutions that are capable of managing the destabilizing effects of democratization and marketization within peaceful bounds and only then phase in political and economic reforms slowly as conditions warrant Peacebuilders should establish the foundations of effective governmental institutions prior to launching wholesale liberalization programs Avoiding the problems that marred many peacebuilding operations in the 1990s will require longer lasting and ultimately more intrusive forms of intervention in the domestic affairs of these states This book was first published in 2004 Reconciling Indonesia Birgit Bräuchler, 2009-09-10 Indonesia has been torn by massive internal conflicts over the last decade The absence of functioning national tools of reconciliation and the often limited success of an internationally established reconciliation toolkit of truth commissions and law enforcement justice and human rights forgiveness and amnesty requires us to interrogate commonly held notions of reconciliation and transitional justice Reconciling Indonesia fills two major gaps in the literature on Indonesia and peace and conflict studies more generally the neglect of grassroots agency for peace and the often overlooked collective and cultural dimension of reconciliation Bringing together scholars from all over the world this volume draws upon multi disciplinary theoretical perspectives extensive fieldwork and activists experience and explores the ways in which reconciliation connects with issues like civil society gender religion tradition culture education history displacement and performance It covers different areas of Indonesia from Aceh in the West to the Moluccas in the East and deals with a broad variety of conflicts and violence such as communal violence terrorist attacks secessionist conflicts localized small scale conflicts and the mass violence of 1965 66 Reconciling Indonesia offers new understandings of grassroots or bottom up reconciliation approaches and thus goes beyond prevalent political and legal approaches to reconciliation Reconciling Indonesia is important reading for scholars activists and anyone interested in current developments in Indonesia and the broader region and in new approaches to peace and conflict research **The Politics of Post-War Demobilisation and Reintegration in Nigeria** Olukunle Ojeleye, 2016-02-24 With an increasing international interest in post civil war demobilisation and reintegration especially in Africa Ojeleye presents a well timed body of knowledge on the Nigerian civil war Moreover this book provides an in depth study of the modalities and processes of the demobilisation and reintegration exercises carried out at the end of the Nigerian civil war and assesses their implications for national politics in the West

African nation The author identifies the political socio economic and cultural background to the Nigerian civil war and discusses the central theme of demobilisation disarmament and reintegration DDR in Nigeria against the backdrop of the policy of the country s post war reconstruction reconciliation and rehabilitation exercise the 3Rs Though the central theme is Nigeria it compares the demobilisation and reintegration exercise in Nigeria with other attempts in Sub Sahara Africa by highlighting the important deviations and drawing some conclusions on the Nigerian experience It also touches on issues relating to international involvement and intervention in civil wars and the roles of the African Union the Commonwealth of Nations and the United Nations

European Security Bjørn Møller, 2016-04-22 Europe has undergone quite profound changes since the end of the Cold War Having been a highly militarised conflict ridden and war ridden region the core of Europe today constitutes a security community where armed conflicts among the constituent states has become inconceivable This comprehensive book offers a theoretically founded and thoroughly documented analysis of European security with a special emphasis on the role played by the United Nations and the various regional and sub regional organisations especially the North Atlantic Treaty Organisation the Organisation for Security and Cooperation in Europe the Council of Europe and the European Union When it comes to explaining peace in Europe opinions differ widely Some argue that it was only because the West refused to give in to Soviet threats that the latter eventually gave up or that the long peace in Europe was due to the combination of a bipolar alliance structure pitting the North Atlantic Treaty Organisation NATO against the Warsaw Pact with the presence of nuclear weapons on both sides Others point instead to the extraordinarily dense network of international institutions and organisations in Europe offering a wide panoply of fora in which to handle disputes peacefully or to the web of interdependence in economic and other affairs tying together all states in Europe in relations which militate strongly against war Still others believe that the external peace between the states in Europe is simply a reflection of a convergence of cultures democracies with marked economies that are open towards the world market These questions are the focal point of this book which concentrates on security albeit not in the sense of being a treatise on military matters but security obtainable by much more indirect and non military means It will be required reading for all students and scholars of European security and the organisations which underpin it

Conflict, Security and Development Paul Jackson, Danielle Beswick, 2014-11-07 This textbook draws on academic theory field research and policy developments to provide an overview of the connections between security and development before during and after conflict This 2nd edition is revised and updated to take account of changes that have occurred in both policy and academic arenas which are relevant to students and practitioners in this area In an interdependent world it is often argued that the challenges of underdevelopment and insecurity have global implications This textbook charts an accessible course through these complex debates providing a comprehensive introduction for those encountering these issues for the first time The main aims of the revised edition are to set out how thinking on conflict security and development has changed over time and continues to evolve to explore the

consequences of these changes particularly for the theory and practice of development and security promotion to introduce a range of case studies from across the globe in order to explore the implications of a combined approach to security and development The authors are experienced in both the theory and the practice of this field and illustrate the links between conflict security and development with practical examples drawing on key case studies from the past twenty years Each chapter is informed by student pedagogy and the book will be essential reading for all students of development studies war and conflict studies and human security and is recommended for students of international security and IR in general *The Responsibility to Protect* International Commission on Intervention and State Sovereignty, International Development Research Centre (Canada), 2001 Responsibility to Protect Research bibliography background Supplementary volume to the Report of the International Commission on Intervention and State Sovereignty
