Recasting The Ruhr 1945 1959 Manpower Economic Recovery And Labour Relations:

Recasting the Ruhr 1945-1959 Mark Roseman, 1992-02-18 An analysis of the measures undertaken to win new labour for the Ruhr coal production industry and train the recruits into productive and settled miners An Economic and Social History of Western Europe since 1945 Anthony Sutcliffe, 2014-09-19 This is the ideal companion text to A Political History of Western Europe Since 1945 It is an introductory survey which explains how western Europe built up its postwar prosperity and is moving towards continental integration Themes treated include the origins of the EC consumerism youth culture and protest immigration the oil crisis and its aftermath and the contrasting experience and expectations of the Nordic world and the Mediterranean south The book ends with the consequences of Soviet collapse Designed for general history students it assumes no formal knowledge of economics and is notably accessible and user friendly in its approach Reconstruction and Cold War in Germany Armin Grünbacher, 2017-11-28 At the end of the Second World War Germany was devastated her cities lay in ruins industrial output was minimal the economy was in tatters and her territories divided into four zones each governed by one of the main Allied powers Yet the rapid onset of the Cold War ensured that the western powers needed to re establish a strong West German state to act as a bulwark against Soviet influence In this study the critical role of the Kreditanstalt für Wiederaufbau KfW in this process is closely examined Established by the Anglo American occupying powers in 1948 the main remit of the KfW was to provide investment for German industry to help kick start the economy Its particular function was to provide loans to key industries that the commercial banks considered too risky or which offered unacceptably low returns Yet as this study makes clear its work was from the outset highly politicized and its role in German reconstruction went much further than simply providing funds for capital investment Bankrolled mainly by American Marshall Plan counterpart funds the KfW was viewed in Washington as an essential tool in the wider Western response to the challenges of Soviet communism As is shown throughout the book this dual role inevitably caused some difficulties as national interests could be overridden in favour of Cold War considerations As Germany's post war economy revived this led to further tensions between an increasingly prosperous and self confident West Germany and the continued interference of the Allied powers particularly the USA who had their own Cold War agenda Utilizing archives in Germany Britain and the United States Dr Grünbacher has provided a clear synthesis of this multi faceted and complex subject By approaching the economic development of Federal Germany through the locus of the KfW he offers a fascinating insight into the interactions of economics politics and ideology that will be welcomed by all scholars with an interest Boom - Crisis - Heritage Lars Bluma, Michael Farrenkopf, Torsten Meyer, 2021-10-11 Boom Crisis Heritage these terms aptly outline the history of global coal mining after 1945 The essays collected in this volume explore this history with different emphases and questions The range of topics also reflects this broad approach The first section contains contributions on political social and economic history They address the European energy system in the globalised world of the 20th and 21st centuries as well as specific

social policies in mining regions The second section then focuses on the medialisation of mining and its legacies also paying attention to the environmental history of mining The anthology which goes back to a conference of the same name at the Deutsches Bergbau Museum Bochum thus offers a multi faceted insight into the research field of modern mining history

West German Industrialists and the Making of the Economic Miracle Armin Grünbacher,2017-07-13 West German Industrialists and the Making of the Economic Miracle investigates the mentality of post war German heavy industrialists through an analysis of their attitudes thinking and views on social political and of course economic matters at the time including the social market economy and how they saw their own role in society with this investigation taking place against the backdrop of the economic miracle and the Cold War of the 1950s and 60s The book also includes an assessment of whether the self declared new aristocracy of merit justified its place in society and carried out its actions in a new spirit of political responsibility This is an important text for all students interested in the history of Germany and the modern economic history of Europe

The Wayward Flock Mark Edward Ruff,2005-01-01 Ruff examines the vast network of Catholic youth organizations in West Germany that had traditionally served as a source for future youth leaders and a means by which the church could resist the changes of modern society by offering its own entertainment and social activities
