Recent America Davis R. B. Ross, 1971-01-01 **Catalogue of the Public Documents of the ... Congress and of All Departments of the Government of the United States for the Period from ... to ...**, 1931 **Bulletin of the Pan American Union** Pan American Union, 1935 Trade Information Bulletin, 1934 *Essential Quotes for Scientists and Engineers* Konstantin K. Likharev, 2021-02-27 This book brings together about 2 500 quotations on various topics of interest to scientists and engineers including students of STEM disciplines Careful curation of the material by the editor provides the reader with far greater value than can be obtained by searching the internet The quotes have been selected for various attributes including importance of topic depth of insight and not least wit with many of them satisfying all these criteria To make sequential reading of the quotes more engaging they are grouped into broad topical sections and the entries within each section are organized thematically forming quasi continuous narrative threads The text and authorship of each quote have been carefully verified and the most popular cases of misquotation and misattribution are noted The book represents a valuable resource for those writing science and engineering articles as well as being a joy to read in its own right

Imagining the American Polity John G. Gunnell, 2015-09-10 Americans have long prided themselves on living in a country that serves as a beacon of democracy to the world but from the time of the founding they have also engaged in debates over what the criteria for democracy are as they seek to validate their faith in the United States as a democratic regime In this book John Gunnell shows how the academic discipline of political science has contributed in a major way to this ongoing dialogue thereby playing a significant role in political education and the formulation of popular conceptions of American democracy Using the distinctive internalist approach he has developed for writing intellectual history Gunnell traces the dynamics of conceptual change and continuity as American political science evolved from a focus in the nineteenth century on the idea of the state through the emergence of a pluralist theory of democracy in the 1920s and its transfiguration into liberalism in the mid 1930s up to the rearticulation of pluralist theory in the 1950s and its resurgence yet again in the 1990s Along the way he explores how political scientists have grappled with a fundamental question about popular sovereignty Does democracy require a people and a national democratic community or can the requisites of democracy be achieved through fortuitous social configurations coupled with the design of certain institutional mechanisms **The 1931-1940: American Film Institute Catalog of Motion Pictures Produced in the United States** American Film Institute, 1993 The entire field of film historians awaits the AFI volumes with eagerness Eileen Bowser Museum of Modern Art Film Department Comments on previous volumes The source of last resort for finding socially valuable films that received such scant attention that they seem lost until discovered in the AFI Catalog Thomas Cripps Endlessly absorbing as an excursion into cultural history and national memory Arthur Schlesinger Jr **Report of the National Research Council** National Research Council (U.S.), 1931 *Concentration of Banking in the United States, Staff Report of the Board of*
