Recent Advances In Perinatal Medicine:

Recent Advances In Perinatal Medicine - Proceedings Of The 100th Course Of The International School Of Medical Sciences T H Bloomfield, E V Cosmi, Gian Carlo Di Renzo, D F Hawkins, 1999-09-17 This volume is based on presentations at the fifth course on perinatal medicine held in the International School of Medical Sciences at the Ettore Majorana Centre for Scientific Culture in Erice Sicily in March 1996 It has had a prolonged gestation but the presentations have been updated and thus the book will benefit perinatologists internationally The introductory lecture by philosopher Donald Evans is of great interest discussing the issues which all those involved in reproductive medicine in its widest sense are dealing with all the time but seldom think about or put in context Subsequent papers deal with understanding the development and management of the fetus and newborn along lines which represent real progress in perinatal medicine The epilogue based on a seminar will be a help to all those Europeans and others struggling to present their work in English language journals and books

Advances in Perinatal Medicine Aubrey Milunsky, Emanuel A. Friedman, Louis Gluck, 2013-11-21 The state of health care is reflected by perinatal and neonatal morbidity and mortality as well as by the frequencies of long term neurological and developmental disorders Many factors some without immediately recognizable significance to childbearing and many still unknown undoubtedly contribute beneficially or adversely to the outcome of pregnancy Knowledge concerning the impact of such factors on the fetus and surviving infant is critical Confounding analyses of pregnancy outcome especially these past 2 or 3 decades are the effects of newly undertaken invasive or inactive therapeutic approaches coupled with the advent of high technology Many innovations have been introduced without serious efforts to evaluate their impact prospectively and objectively The consequences of therapeutic misadventures characterized the past it seems they have been replaced to a degree by some of the complications of applied technology Examples abound after overuse of oxygen was recognized to cause retrolental fibroplasia its restriction led to an increase in both neonatal death rates and neurologic damage in surviving infants Administration of vitamin K to prevent neonatal hemorrhagic disease particularly when given in what we now know as excessive dosage occasionally resulted in kernicterus Prophylactic sulfonamide use had a similar end result More recent is the observation of bronchopulmonary dysplasia as a complication of respirator therapy for hyaline membrane disease The decade of the eighties opened with the all time highest rate of cesarean section in the United States
