Recent Developments In Mucosal Immunology:

Recent Developments in Mucosal Immunology Jiri Mestecky, 1987-10-31 Recent Developments in Infant Nutrition J.G. Bindels, A. Goedhart, H.K.A. Visser, 2012-12-06 After 17 years the Nutricia Symposium returned to its home grounds in The Netherlands where the first five Symposia were held. The objective of the Symposium was to bring together a limited number of opinion leaders and key researchers in selected topics of infant nutrition to discuss the current state of the art based on original contributions and reviews. The discussion sessions after the papers were taped and edited and may give additional information and views. As a result of time constraints the discussions on a few papers had to be cut short or unfortunately could not take place at all. Nevertheless we strongly recommend reading the discussion sections such as the panel discussion on the requirements for LCPUFA for term and/or preterm infants. During the preparation of the Symposium the sad news that Professor J. H. P. Jonxis died prompted the organisers to dedicate one special lecture to the memory of the principal organiser of the first four Nutricia Symposia. This lecture entitled 'What determines the production and composition of breast milk' was given by Dr Kathleen Moti. Acknowledgement should be made to the co-organizers and co-chairmen Professor Sir David HuH, Professor Pieter Sauer and Dr Terence Stephenson for their contribution. Finally without mentioning names the editors wish to thank a number of persons within the Nutricia organization without whom the Symposium and its Proceedings would not have been possible.
