Reception Of English Literature In Germa:

The Reception of English Literature in Germany Lawrence Marsden Price,1932 **The Reception of English Puritan Literature in Germany** Peter Damrau,2006 This is the first study to demonstrate the impact of Puritan literature on the development of German language and literature in the seventeenth century and beyond It crosses the boundaries of theology literature and the English and German traditions to show that eighteenth century secular thinking on introspection psychology and subjectivity has its roots in vocabulary used in Germany as early as 1665 through the translation of figures such as Daniel Dyke and Richard Baxter The book concludes with insights on John Bunyan whose works inspired writers of the Geniegeneration such as Lenz Wieland Moritz and Jung Stilling **The Publication of English Literature in Germany in the Eighteenth Century** Mary Bell Price, Lawrence Marsden Price,1934 *Benedikte Naubert (1756-1819) and Her Relations to English Culture* Hilary Brown,2005 The 18th century saw the first significant phase of cultural interchange between Britain and Germany This study examines the part played in this process by women writers who were entering the literary world in large numbers for the first time It asks whether a cross cultural female literary tradition emerged during the period **German Aesthetic and Literary Criticism: Winckelmann, Lessing, Hamann, Herder, Schiller and Goethe** Hugh Barr Nisbet,1985-12-05 Anthology of translated extracts from their works **The Institution of English Literature** Barbara Schaff, Johannes Schlegel, Carola Surkamp,2016-11-07 The contributions investigate the ways in which numerous institutions of English literature shape the literary field While they cover an extensive historical field ranging from the Early Modern period to the 18th century to the contemporary they focus not only on literary texts but also on extra literary ones including literary prizes literary histories and anthologies and highlight the various ways in which these negotiate the processes that constitute the literary field All contributions assert that there is no such thing as literature outside of institutions Great emphasis is therefore put on different acts of mediation *The New Cambridge Bibliography of English Literature: Volume 2, 1660-1800* George Watson, Ian R. Willison,1971-07-02 More than fifty specialists have contributed to this new edition of volume 2 of The Cambridge Bibliography of English Literature The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis articulation and coordination that it has been retained in all its essentials for the new edition The task of the new contributors has been to revise and integrate the lists of 1940 and 1957 to add materials of the following decade to correct and refine the bibliographical details already available and to re shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries *Anglo-German Dramatic and Poetic Encounters* Michael Wood, Sandro Jung,2019-06-27 Focusing on particular cases of Anglo German exchange in the period known as the Sattelzeit 1750 1850 this volume of essays explores how drama and poetry played a central role in the development of British and German literary cultures With increased numbers of people studying foreign languages engaging in translation work and

traveling between Britain and Germany the eighteenth and nineteenth centuries gave rise to unprecedented opportunities for intercultural encounters and transnational dialogues While most research on Anglo German exchange has focused on the novel this volume seeks to reposition drama and poetry within discourses of national identity intercultural transfer and World Literature The essays in the collection cohere in affirming the significance of poetry and drama as literary forms that shaped German and British cultures in the period The essays also consider the nuanced movement of texts and ideas across genres and cultures the formation and reception of poetic personae and the place of illustration in cross cultural textual exchange

The Literature of German Romanticism Dennis F. Mahoney, 2004 Sharply focused essays on the most significant aspects of German Romanticism This volume of sharply focused essays by an international team of scholars deals not only with the most significant literary philosophical and cultural aspects of German Romanticism one of the most influential albeit highly controversial movements in the history of German literature but also with the history and status of scholarship on the literature of the period The introduction and first section establish an overall framework by placing German Romanticism within a European context that includes its English counterpart Goethe and Schiller are considered as are the Jena Romantics The second section is organized according to the traditional distinctions between epic dramatic and lyric modes of writing while realizing that particularly in the Romantic novel there was an attempt to blend these three A final group of essays focuses on German literary Romanticism's relation to other aspects of German culture folklore studies politics psychology natural science gender presentation and representation music and visual art Contributors Gerhard Schulz Arnd Böhm Richard Littlejohns Gerhart Hoffmeister Ulrich Scheck Claudia Stockinger Bernadette Malinowski Fabian Lampart Klaus Peter Gabriele Rommel Martha B Helfer Kristina Muxfeldt Beate Allert Paul Bishop and R H Stephenson Nicholas Saul Dennis F Mahoney is Professor of German and Director of the European Studies Program at the University of Vermont
